Effective Inculturation And Ethnic Identity Inculturation Working Papers On Living Faith Cultures IX:

Effective Inculturation and Ethnic Identity María de la Cruz Aymes, 1987 Dialectics of Faith-Culture Integration Michael Muonwe, 2014-02-21 This book navigates the contours of cultural and theological hermeneutics in order to critique affirm as well as reconceptualise the vital underpinnings and subtleties of faith culture intercourse and reciprocation It questions claims to effective inculturation by theologians and church authorities even as it acknowledges the inevitability of the tension between inculturation process and syncretic formations It is an irresistible asset for teachers and students of theology cultural and religious studies for pastors and missionaries and for all Christians in need of finding Christian beliefs and practices more meaningful to them in their daily lives The hope is that it challenges the straitjacketed conceptual and pastoral frameworks that have often characterised the church's evangelisation initiatives and assists in making Christian faith a concrete and living possession of every age and culture Michael Muonwe is a priest of the Catholic diocese of Awka Nigeria He holds Licentiate and Doctorate in Theology and Religious Studies from the Catholic University of Leuven Belgium He obtained Bachelors in Philosophy from Bigard Memorial Seminary Enugu Nigeria Michael also holds Diplomas in Mass Communication and Education He has authored a number of articles and is an editor of a book His major research interest is the often convoluted relationship and interplay between religion and the contemporary culture His research on the relationship between Christianity feminism and culture will soon be published in two volumes On the present book Prof Annemie Dillen of the Catholic University of Leuven affirms This is a must read book for local church leaders theologians and everyone involved in pastoral work It challenges the reader to give up a longing for security and finding answers in fixed rules or the so called universal truths and invites him or her to an in depth study of cultural practices and beliefs The overview of the discussions on inculturation and the reality or sometime maybe phantom of syncretism is very illuminating and thought provoking Thomas F Magill asserts A timely and well balanced study of the theology of inculturation as understood in the Roman Catholic tradition offering new and fresh insights situated in the cusp between the Benedict XVI's emphasis on the relationship between faith and reason and the problem of relativism and Francis I's desire for a poor church for the poor T F Magill L S S Ph D parish priest of the Diocese of Motherwell formerly a Lecturer in New Testament Studies at the University of Glasgow *In Search of Foundations for African Catholicism* Mika Vähäkangas, 2016-05-18 This study deals with the interaction between neo Thomism and African traditional thinking in Charles Nyamiti's theological methodology The approach of the study is groundbreaking as it is the first monograph published on the theological method of any African theologian The question about the position and relevance of Western philosophical theological systems in a non Western context also has a wider relevance concerning contextual theologies in general Nyamiti's theology is a germane and a fruitful choice for the study of this issue because of his programmatic attempt to build a coherent African Roman Catholic theological system His theology is also well known for its strong African flavor in elaborating theological questions within the

framework of orthodox Roman Catholic doctrine **Inculturated Pastoral Planning** Michael E. Connors,2001 A discussion of the Catholic Church s document National pastoral plan for hispanic ministry *Faces of Jesus in Africa* Robert J. Schreiter,2015-03-24 **Manufacturing Otherness** Sergio Botta,2014-01-14 The discovery of the New World offered European civilisation the chance to generate a process of circulation of its own cultural values the spiritual conquest that has no comparable precedents The missionary orders played an important role during this Westernisation of the world not only as key players in the spread of Christian values but also as mediators between different worlds Indeed missionary practices imposed the dominating culture s values and institutions on the vanquished peoples At the same time they also promoted the circulation of new knowledge and the negotiation between different cultures during the age of a global integration of space This book looks at the vast field of study concerning the history of missions from a specific viewpoint Firstly it focuses on local processes singling out specific case studies to be used for a general reflection On the other hand it refocuses the attention on the Indigenous cultures which the missionaries helped to bring to light in the field of Western history showing how they succeeded in entering the areas of negotiation created by missionaries and in producing their own cultural subjectivity **Inculturation and Ecclesial Communion** Francis E. George,1990 *Les cultures à la rescousse de la foi* Jean Bacon,2001 **The Prophetic Role of the Church in Tanzania Today** Laurenti Magesa,1991 **The Catholic Periodical and Literature Index** ,2002 **"There is Only One God"** Frans Jozef Servaas Wijzen,1993 *Word, Theology, and Community in John* John Painter,R. Alan Culpepper,Fernando F. Segovia,2002 *African Theology in Images* Martin Ott,2007 This is a revised and updated edition of the comprehensive study of the role of art in the process of inculturation in Africa first issued in 2000 The study is a substantial contribution toward a theology of inculturation in Africa and enriches the debate on indigenous African and Christian artistic traditions It represents the first systematic theology constructed in and from Malawi that establishes a theology of symbolic expression in Africa *Jesus in African Christianity* J. N. Kanyua Mugambi,Laurenti Magesa,1998 **God and Creation in Intercultural Perspective** Peter Fulljames,1993 African Christian theologies aim to contextualise the gospel in African cultures yet they also have much to offer to the development of systematic theology elsewhere In this book the responses of Barth and of Pannenberg to the question of how God is related to the world are analysed and then re formulated This is done through interaction with the themes of community life and co creativity which emerge in interpretation of Dickson Pobee and Nyamiti The discussion makes use of Tanner s rules for Christian language about God and creation and the methods of the African theologies are distinguished in a new classification of models of contextualisation which is compared with the work of Schreiter and with Frei s typology of modern theology The concluding development of Pannenberg s theology is shown to be relevant to topics much debated in the late twentieth century the environmental crisis the relationship of science and religious belief the nature of human freedom and the problem of evil *International Mission Bibliography* Norman E.
