Effective Schools Primer:

An Effective Schools Primer Myron Becker, 1992 According to pioneers in the effective schools movement every school can improve educational quality for all its students including poor and minority children by incorporating a set of essential research identified characteristics present in successful schools This publication discusses basic elements of the ongoing effective schools movement and discusses their application and refinement in various school settings Chapter 1 reviews the effective schools concept describes its history and evolution and discusses the basic correlates central to the effective schools process namely strong administrative leadership a safe and orderly school climate high expectations for student learning a focus on instruction testing and monitoring progress and parent and community involvement Each of the six succeeding chapters explains one of these correlates using examples and commentary from researchers school administrators curriculum coordinators university professors and others Chapter 8 discusses some implementation procedures Chapter 9 reviews emerging trends in effective schools and school improvement research and suggests future research directions Each chapter is accompanied by numerous references An appendix contains performance checklists for principals superintendents and board members MLH **A Study of Administrative Turnover and Effective Schools** Teresa E. Bonn, 1998

Resources in Education, 1998 Alternatives to Tracking and Ability Grouping Anne Wheelock, 1994 A number of respected school systems are now seeking alternatives to tracking and ability grouping alternatives that will ensure a better education for all students whatever their abilities This handbook introduces practitioners to educators around the United States who are developing alternatives to harmful grouping practices After a brief review of the roots of sorting practices and their impact on teaching and learning the book describes features of classrooms and schools that have begun to use heterogeneous groupings and other innovative strategies These features include high expectations for all agreed upon outcomes coaching to help all students innovative learning strategies for all structures that support inclusive learning and counseling for all students for success The steps that schools may take to replace traditional grouping practices include developing school based leadership and parental support providing professional development and support creating districtwide commitment planning for change phasing in change and developing supporting policies In conclusion schools that have started the untracking process have seen student achievement and self esteem rise Sufficient training and resources for teachers and staff is crucial for making for process work Contains a glossary and nine references LMI

Effective Schools Barbara Wilcox, Council of Administrators of Special Education. Research Committee, 1988

Prisoners of the Paradigm Alan Hafer, 2000 With the current large drop out rate in our nation s schools the ratio of producers to nonproducers continues to decline One need only look around to know fundamental changes must occur This new book by an educator and school superintendent shows that although education is neither a hard nor an exact science there is enough evidence of what should be done to point schools in the right direction **Gender Management for**

School Heads Salahudin D. Solaiman, 2024-08-15 Gender sensitive management has emerged as a crucial element in fostering inclusive and equitable learning environments in today's rapidly evolving educational landscape. *Gender Sensitive Education Management: Concepts, Practices, and Perspectives* explores the role of gender in education, offering an in-depth analysis of how gender perspectives impact school achievement, leadership, and institutional operations. This book provides a comprehensive discussion on gender sensitive education management, beginning with foundational concepts in gender and education and extending to practical applications in managerial and instructional settings. It examines how gender perspectives influence school leadership, faculty-student interactions, and institutional policies, ultimately shaping school effectiveness and academic outcomes. Each chapter delves into critical topics such as the role of school administrators in promoting gender equity, best practices in gender sensitive management, and how students perceive faculty members' gender equality practices. The book also highlights the importance of gender and development initiatives in education and provides valuable insights into the characteristics of effective school leaders. Designed for educators, school administrators, policymakers, and researchers, this book is a vital resource for those committed to fostering gender equitable schools. Whether you are an aspiring educational leader or an experienced administrator, *Gender Sensitive Education Management: Concepts, Practices, and Perspectives* equips you with the knowledge and strategies needed to create inclusive and gender responsive learning environments.

Effective Schools in Developing Countries Henry Levin, Marlaine Lockheed, 2012-05-31 This volume brings together eight case studies which describe a variety of initiatives to create more effective schools for children of poverty, especially in the Third World. The initiatives reviewed, published and unpublished documents, and both qualitative and statistical studies were examined. Countries include Brazil, Burundi, Colombia, Ghana, Nepal, Sri Lanka, Thailand, and the United States. Each initiative was developed independently to address unique challenges and situations, but taken as a group, the features of the approaches described in this volume can be viewed as a basis for considering the development of effective schools strategies in other contexts.

From Sacred to Secular Barbara E. Lacey, 2007 This examination of illustrations in early American books, pamphlets, magazines, almanacs, and broadsides provides a new perspective on the social, cultural, and political environment of the late colonial period and the early republic. American printers and engravers drew upon a rich tradition of Christian visual imagery. Used first to inculcate Protestant doctrines, regional symbolism later served to promote reverence for the new republic. The chapters are devoted to *momento mori* imagery, children's readers, visionary literature, and illustrated Bibles. One chapter shows the demonization of the Indians, even as the Indian was being adopted as a symbol of America. Other chapters deal with propaganda for the American Revolution, canonization of leaders, secularized roles for women, and socialization of sites in the new nation. Throughout, analysis of image and text shows how the religious and the secular contrasted, coexisted, and intermingled in eighteenth-century American illustrated imprints. Barbara E. Lacey is a Professor of history at St. Joseph College. It includes more than 110 illustrations.

Superintendent Methodist Schools,1912 **Factors That Contribute to Successful Schools: A Caribbean Perspective** Eulalie Daley Semper,2014-10-17 This book explores various factors that contribute to successful schools in the Caribbean Based on my own personal and professional experience I define successful schools as those schools where high quality teaching takes place in a supportive environment In these schools spiritual leaders seek to work with educational stakeholders to develop and facilitate a culture of excellence Therefore I have decided to examine teacher development community involvement spiritual leadership servant leadership and an established culture of success as additional factors that can contribute to successful schools in the Antiguan context However this study can yield valuable information that can be used to assess educational practices within different types of schools regionally and globally since one of its main aims is to explore stakeholders perceptions on the contributing factors to

schools academic success In this book educational practitioners policy makers and institutional leaders will find principles of success that will affect principal leadership classroom learning and student achievement *Critical Issues in Education* Jack L. Nelson, Stuart B. Palonsky, Mary Rose McCarthy, 2017-07-27 Few subjects engender more strongly held beliefs and contrary views than education The outcomes of debates over education and educational reform impact all citizens Media coverage of these controversies is sometimes shallow and one sided fostering the need to develop critical thinking skills These skills in turn open opportunities for personal growth joining the public debate and helping others participate in critical discussions The authors of *Critical Issues in Education* present two opposing positions for each of sixteen different hot button issues including multiculturalism school finance charter schools teacher evaluation cyberbullying and gender equity Prospective teachers will find the authors approach eye opening and stimulating Ideally they will teach these valuable skills to their students who will prosper academically and personally from understanding and considering diverse viewpoints
