**Effective Schooling for Pupils with Emotional and Behavioural Difficulties** John Visser, 2013-10-23 First Published in 1998 Increasing pressure and new demands on LEAs schools and their staff have led to an overall reduction in the number of special schools for children with EBD and a questioning of their place within the range of provision for these pupils Recent attention has also been drawn by HMCI to the number of these schools which have failed to pass the OFSTED inspection process This book is based on a national examination of special schools providing for pupils with EBD The authors identify factors associated with good practice and offer advice on how schools can become more effective in providing for the country's most troubled and challenging pupils They also highlight aspects of successful provision which can be applied in mainstream schools and pupil referral units

Transferring the Notion of Good Practice when Working with Pupils with Emotional, Behavioural and Social Difficulties in a Cypriot Educational Context Stella Tryfonos, 2014-11-19 Pupils with Social Emotional and Behaviour Difficulties often known as SEBD and EBD comprise a group of learners who present challenges to their educators and the educational system often working with these pupils can be challenging and stressful for their teachers as well as any professional involved In England research concerning the education and learning of

pupils with SEBD has progressed considerably in the past three decades and good practice when working with pupils who present these difficulties has been widely investigated In Cyprus however it is not nearly so widely known about and has not been researched to any great extent This book explores the situation in the Cypriot education system and begins by expanding the reader's knowledge on developments on the education of those pupils whose behaviour raises challenges to the educational system and causes concerns to those involved The book is informed by research which was undertaken by the author in Cyprus and documents the views of educators and professionals on good practice It explores the microsystem of a school and will enrich the knowledge and understanding of those with personal and professional interests in working with these pupils to be ready to accommodate their needs The book also contributes to a better understanding of the nature of SEBD especially since the number of students presenting such difficulties in Cypriot primary education requires practitioners to be ready to provide the best practices possible
