Effects of Environmental Hazards & Regulation on Urban Redevelopment Christopher Walker, 1998-11 The Effects of Environmental Hazards and Regulation on Urban Redevelopment , 1998 **The Effects of Environmental Hazards and Regulation on Urban Development** Urban Institute, 1998 **Effects of Environmental Hazards and Regulation on Urban Redevelopment** , The U S Department of Housing and Urban Development HUD presents information on a report entitled *The Effects of Environmental Hazards and Regulation on Urban Redevelopment* published in February 1998 The report discusses how brownfields impede the revitalization of distressed communities and ways to overcome these impediments Brownfields are vacant or underused industrial sites with environmental contamination caused by chemical compounds and other hazardous substances Brownfields, Risk-Based Corrective Action, and Local Communities Peter B. Meyer, 2011-04 Addresses the problems facing communities that suffer both environmental risks from past contamination and depressed economic activity In such settings redevelopment of contaminated sites and the associated economic development may require compromised standards for environmental mitigation But partial cleanups can be shown to face inevitable failure at some future date Thus in such an approach communities face risks that they should be capable of accepting or rejecting The study considers these risks and assesses 4 alternative land use control strategies for assuring community participation in making decisions about both the cleanup process today and the response to risks of failure in the future Illus This is a print on demand report *Land Use Institute, Planning, Regulation, Litigation, Eminent Domain, and Compensation* , 2010
