Edinger, 2017-02-28 A medical psychiatrist and founding member of the Jung Foundation explores a pivotal part of analytical psychology encountering the self through individuation This book is about the individual's journey to psychological wholeness known in analytical psychology as the process of individuation Edward Edinger traces the stages in this process and relates them to the search for meaning through encounters with symbolism in religion myth dreams and art For contemporary men and women Edinger believes the encounter with the self is equivalent to the discovery of God The result of the dialogue between the ego and the archetypal image of God is an experience that dramatically changes the individual's worldview and makes possible a new and more meaningful way of life **Ego and Archetype**

Ego & Archetype Edward F. Edinger, 1992 Summary of Edward F. Edinger's Ego and Archetype Everest Media, 2022-05-09T22:59:00Z Please note This is a companion version second half of life ego Self reunion 3 The diagrams represent progressive stages of ego Self separation appearing in the course of psychological development The shaded areas designate the residual ego Self identity The line connecting the ego center with the Self center represents the ego Self axis which is the vital connecting link between the two 4 The process by which these developmental stages unfold is an alternating cycle that is represented in the diagram Figure 5 p 41 As this cycle repeats itself throughout psychic development it brings about a progressive differentiation of the ego and the Self *Ego and Archetype Individualization and the Religious Function of the Psyche* Edward F. Edinger, 1973 *The Theory of Archetypes* James S. Larson, 2004 The central thesis of the book is that man's perception of mind body and spirit has influenced his thinking in the social sciences Mind body and spirit serve as archetypes for social thinking and social institutions The book applies these concepts to major theories in the social sciences and also suggests ways to improve social institutions and practices by understanding the relationships between mind body and spirit **Being Human in an Artificial World** Geoffrey W. Cheong, 2024-06-01 The vision of Raimon Panikkar is to examine an understanding of the fulness of the human experience understood ultimately in the iconic image of Jesus the Christ This book aims to explore an understanding of his work in context context of the history of humanity the emerging integral era of perception the context of the contemporary secular society which he speaks of as an artificial life

and the context of creation and the creator As creature he sees the secret of life in the inter relational nature of the three creature creation and creator The unique nature of this mysterious three way unity leads him to coin a term to speak of its nature as Cosmotheandric His extensive academic background of philosophy theology and science and the broad life of spirituality lived in the context of the interreligious world of both East and West equips well his mind to probe life s nature Of his many students Ewert Cousins asks the pertinent question of how to live Panikkar s vision It is the author s contribution to respond to Cousins question while drawing upon Panikkar s cosmothendric concept by drawing upon contemporary knowledge through the model of the scriptural wisdom to love God and one s neighbour as one s self This he refers to as Relational Spirituality The integral era of history is appearing on the horizon of the global psyche to birth a new era of human mindfulness like never before Carl Jaspers has highlighted two major times of transition shaping humankind through the passing millennia that have moved humanity from a simple human life to the highly complex time of today Jaspers spoke of the transition in human consciousness through the millennium prior to the life of Jesus Christ as the First Axial Period of History Martin Heidegger Teilherd de Chardin Jean Gebser Ken Wilber Ewert Cousins Raimon Panikkar are some of the thought leaders of our time who have made major contributions to this understanding of the emerging Integral awareness For many the disturbing changes encountered on the surface of society ring loudly of crisis Secularisation is the dominant life style primarily shaped by the cyber revolution and its Artificial Intelligence Most concerning is the range of questions humans face about their personal value and loss of substantial meaning Dr Cheong draws upon the great minds listed above in particular the work of Raimon Panikkar to map a pathway for growing more fully into an Integral way of life which he refers to as Relational Spirituality
