Pease, 1989-09 The term American Renaissance designates a period in our nation s history when the literary classics appeared works original enough to mark a beginning for America s literary history But the American Renaissance Donald Pease argues in his introduction does not belong to the nation s secular history so much as it denotes a rebirth from it Independent of the time kept by secular history the American Renaissance keeps what we could call global Renaissance time the sacred time a nation claims to renew when it claims its cultural place as a great nation existing within a world of great nations Providing each nation with the terms for cultural greatness denied to secular history the renaissance is not an occasion occurring within any specific historical time or place so much as it is a moment of cultural achievement that repeatedly demands to be reborn The American Renaissance Reconsidered examines this demand for rebirth in terms other than those ordained by the American Renaissance itself In the seven pieces collected here it is reborn not outside of but within America s secular history as the authors examine anew the period of the American Renaissance and the period in which its history was written Contributing authors are Eric J Sundquist Jane P Tompkins Louis A Renza Jonathan Arac Donald E Pease Walter Benn Michaels and Allen Grossman      **Annals of Wyoming**, 1927      *Dick Merriwell's Heroic Players; Or, How the Yale Nine Won the Championship* Burt L. **Practical Dreamers** Mike Hoolboom, 2004-04-14 The streets are full of admirable craftsmen but so few practical dreamers Man Ray What if there were movies made the same way as suits custom fitted each one tailored for one person Not broadcast but narrowcast Not theatres around the world showing the same globalized pictures but instead a local circumstance a movie so particular so peculiar it could cure night blindness or vertigo Welcome to the world of fringe movies where artists have been busy putting queer shoulders to the wheels or bending light to talk about First Nations rights and making it funny at the same time or demonstrating how a personality can be taken apart and put together again all in the course of a ten minute movie which might take years to make Practical Dreamers takes us to this other side of the media plantation In it twenty seven Canadian artists dish about how they get it done and why it matters The conversations are personal up close and jargon free smart without smarting The stellar cast includes smartbomb Steve Reinke visionary Peter Mettler Middle East specialist Jayce Salloum queer Asian avatars Richard Fung Midi Onodera Ho Tam and Wayne Yung footage recyclers Aleesa Cohene and Jubal Brown overhead projector king Daniel Barrow First Nations vets Kent Monkman and Shelley Niro international art presence Paulette Philips and documentarian Donigan Cumming These in depth talks come lavishly illustrated in an oversized volume

**Case for Interferon** Joseph Cummins, Kent Heckenlively, 2021-01-05 Touted as a potential breakthrough cancer therapy in the 1980s by the scientific community and publications such as TIME and Newsweek magazine the reputation of interferon has not lived up to its early promise Interferons are small proteins with anti viral and anti cancer effects which have the power to modulate the functioning of the immune system But Dr Joseph Cummins an early interferon pioneer holder of sixteen US medical patents author of more than sixty scientific publications as well as having taught veterinary medicine at the University of Missouri University of Illinois and Texas A M University argues that the current thinking on interferon is fundamentally flawed Interferon is created in small quantities in the body in response to infection and seems to work best at these low dosages However the public health cowboys working under the assumption that anything good in tiny amounts must be better in massive amounts pursued exactly the wrong strategy High dose interferon does not work in the body and may even cause problems The first remarkable results for interferon and the flu were reported by the Soviets in the 1970s but Western medicine discounted these findings because they believed the dosages were so low they couldn't possibly be effective In the 1980s when interferon was expensive to produce and only small

quantities could be manufactured the results were remarkable Dr Cummins was an early pioneer of low dose interferon and his remarkable findings among animals led to collaborations with medical doctors for human trials even going so far as Africa at the height of the HIV AIDS epidemic Cummins reviews the evidence for this inexpensive safe treatment and makes an eloquent argument for medical science to take another look at interferon to tackle today's most challenging health conditions including COVID 19

**Exertional Rhabdomyolysis in Naval Aviation Officer Candidates** Raphael F. Smith,1967 In eight young men undergoing heavy repetitive exertion a syndrome of severe myalgia myoglobinuria elevated muscle cell enzymes and impaired muscle function persisting for weeks or months has been observed Transient azotemia was present in six of the eight patients There was a latent period of 30 to 40 hours after the extreme exercise task before myoglobinuria was noted suggesting that exercise does not immediately cause maximal lysis of the skeletal muscle cell The syndrome was not reproduced by stress testing after recovery Thirty eight aviation officer candidates were prospectively studied and the distribution of values of muscle cell enzymes became negatively skewed after three days of intensive training Four members of the prospective group had extreme enzyme values and two had myoglobinuria The low incidence of overt rhabdomyolysis in a large homogeneous population exposed to similar exercise stress conditions and the negatively skewed distribution of serum enzyme values in a sample of this population suggested that significant rhabdomyolysis occurs in certain predisposed individuals rather than in all poorly conditioned men assigned prolonged calisthenics From these observations it is recommended that a graduated physical training program be adopted and single calisthenics carried to exhaustion be avoided Author
