Twentieth-century Theatre Elizabeth Irwin, Scottish Consultative Council on the Curriculum, 2000 Gordon Craig Archives Lindsay Mary Newman, 1976 *Edward Gordon Craig*, 1975 Bound catalogue of travelling exhibition 46 illustrations parallel text in English and French chronology bibliography artist portraits English Theatre in Transition 1881-1914 James Woodfield, 2015-07-16 Originally published in 1984 The turn of the nineteenth and twentieth centuries was a time of considerable change in the English theatre Victorian attitudes were shocked or shattered by the new drama of Ibsen the major figure of George Bernard Shaw dominated the period theatre censorship was the subject of a long and furious contest and staging conventions changed from the spectacular stylings of Irving and Beerbohm Tree to the masking and statuesque styles of Isadora Duncan and the inner realism of Stanislavsky This book traces the activities of the leading figures in the English theatre notably William Archer who introduced Ibsen to this country and who became one of the main promoters of the idea of a National Theatre Other personalities discussed include Harley Granville Barker particularly his association with Shaw at the Court Theatre and his part in campaigns against censorship and for changes in the staging of Shakespeare and Edward Gordon Craig whose rebellion against the Victorian theatre took an anti realist direction This is a stimulating account of the background to the modern English theatre which can only increase appreciation of its standard and variety **Gordon Craig** Edward Carrick, 1968 **Russomania** Rebecca Beasley, 2020-03-31 Russomania Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy

of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future *Theatrical Costume, Masks, Make-Up and Wigs* Sidney Jackson Jowers, 2013-10-15 First published in 2000 Routledge is an imprint of Taylor Francis an informa company Edward Gordon Craig, 1872-1966 Edward Gordon Craig, 1982 *Routledge Library Editions: Victorian Theatre* Various, 2021-03-04 Reissuing works originally published between 1971 and 1981 this compact set offers an outstanding collection of scholarship devoted to 19th Century Victorian theatre A small set of performance history and criticism this set includes a biography of Henry Irving a look at the rise of the status of a career as actor and a consideration of the advent of dramatic criticism These volumes present together a lively picture of the development of the contemporary theatre **Edward Gordon Craig, 1872-1967** Edward Gordon Craig, George Nash, 1967 **Modern Theories of Performance** Jane Milling, Graham Ley, 2017-04-07 The modern era in the theatre is remarkable for the extraordinary role and influence of theoretical practitioners whose writings have shaped our sense of the possibilities and objectives of performance This study offers a critical exploration of the theoretical writings of key modern practitioners from Stanislavski to Boal Designed to be read alongside primary source material each chapter offers not only a summary and exposition of these theories but a critical commentary on their composition as discourses Close scrutiny of the cultural context and figurative language of these important and sometimes difficult texts yields fresh insight into the ideas of these practitioners *Pamphlets by and about Edward Gordon Craig* Edward Gordon Craig, *Edward Gordon Craig* Victoria and Albert Museum (London), 1967 **Edward Gordon Craig and the Theatre of the Imagination** Edward Gordon Craig, 1985 Catalog of the Theatre and Drama Collections: Theatre Collection: books on the theatre. 9 v New York Public Library. Research Libraries, 1967 **Edward Gordon Craig** Ellen Gordon Craig, 1983 Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library. Research Libraries, 1979 *Masques, Mayings and Music-dramas* Roger Savage, 2014 *Masques Mayings and Music Dramas* comprises a sequence of in depth case studies of significant aspects of early twentieth century English music theatre Vaughan Williams forms a central thread in this discussion and Stratford upon Avon serves as a geographical focus point for mediating conflicting visions of an English musical tradition But the reach of the book is much wider shedding new light on English Wagnerism at Glastonbury especially and on the reception of Wagner s ideas as a point of emulation and resistance No less significant is the discussion of Purcell and the seventeenth century masque one of the primary sources for re imagining an English dramatic tradition and the more familiar images of the May festival the Mummers play and the pageant play which are tellingly re contextualised The book also looks at the associations between Vaughan Williams the theatre artist Edward Gordon Craig and the impresario Serge Diaghilev The sequence is framed by the image of the pilgrim vagabond Vaughan Williams s setting of the poetry of Matthew Arnold and Robert Louis Stevenson as a metaphor and

paradigm for his creative career and personal progress The book not only sheds light on the activities and ambitions of principal agents but also illuminates a particularly dynamic moment in the re emergence of a distinctively English music theatrical practice one especially concerned with calling on aspects of the past to help to secure a worthwhile future Notions of Englishness turn out to be less insular than sometimes thought and the idea of a musical renaissance more complex when the case studies are understood in their proper historical context Scholars and students of twentieth century English music theatre and opera will find this volume indispensable Roger Savage is Honorary Fellow in English Literature at the University of Edinburgh He has published widely on theatre and its interface with music from the baroque to the twentieth century in leading journals and books
