Effective Strategic Planning:

Strategy Journeys David Booth, 2016-09-14 Strategy Journeys starts from the premise that strategic planning suffers from a bad press it can be seen as complex technical remote from the day to day reality of an organisation undertaken by an elite specialist executive group producing threatening changes whose rationale is barely understood or perhaps worse still having no worthwhile impact at all For many senior executives strategic planning is too daunting a task which is why they often seek help from those with the expertise to guide the process they have a severe lack of confidence in their own ability to design plan and implement such an important and major project Yet organisations have never had greater need for a flexible resilient and engaging approach to strategic planning than now How do those leading an organisation know where to start what approach to take and how to go about the process of strategic planning David Booth aims to help them by demystifying the concept and propounding a first principles approach to developing a strategic plan within the context of the individual organisation and with the flexibility to adapt the process to focus on what really matters He suggests the key questions that should be asked when considering embarking on a strategic planning journey to help design and guide the process

Strategic Planning Edward Robertson, 2019-09-11 Why do so many strategic plans end up collecting dust Organizational leaders feel they should have good plans and they are right Private firms government agencies and non profits are all facing an uncertain future whether the task is to impress potential investors chart a path towards profitability or fight for funding Moreover lack of planning is shown to be among the top reasons for business failure And yet strategic planning if done at all is often a bland rehash of familiar issues It is frustrating when prepared plans set high expectations but then are not even implemented Embarrassingly the effort has produced nothing but a dust collector I have seen this problem first hand and solved it not only as a consultant but as a senior manager in public and private settings I facilitated the effective implementation of organization wide risk management programs praised by the provincial Auditor General As innovation specialist and director of strategic planning I helped lead a manufacturing firm to win the Chamber of Commerce Business of the Year Award It was knowledge hard won After years of study field research and dozens of client engagements I finally arrived at a refined and careful method and

formulated it for publication to share with others I am convinced planners must follow a structured method that takes into account not only the different types and purposes of planning a distinction rarely made but also the principles of effective program implementation These success factors are proven in studies but do not seem to be part of management training And yet strategic planning properly done and executed can transform the culture and propel the organization to success Using this book you will gain clarity about exactly what you re trying to plan instead of mixing up types of plans focus the discussion and streamline the process feel confident that your planning steps are in the right order engage managers and staff build teams and transform a negative culture conquer the implementation gap link to the real business and reverse program failure This book is a fast read 70 pages complete with diagrams templates references quotes from industry practitioners and index Starting with an iron clad positive case for doing strategic planning I then show the practical steps Take my advice too on the role of the planning champion and how to facilitate the process If you can organize and chair meetings and if you are motivated to move the organization ahead you can do this Strategic Planning Process Templates and Effective Implementation lists lower than the average price in the strategic planning category Show your colleagues staff and competitors you can do strategic planning the way it should be done Order it and start planning for success
