*Teaching Styles* R.c.mishra, **Methods of Teaching: the Way of Learning and the Way of Teaching** Sajad Shingali, 2021-02-13 The five effective teaching styles in Classrooms 1 Authority lecture style The Authority Style The authority style is primarily used in a lecture or auditorium setting whereby the teacher will give a lengthy one way discussion on a pre assigned topic whilst students take notes and memorise key pieces of information Though popular in higher education when there is a large group of students present the authority or lecture style is less common in the standard classroom setting This is because the strategy offers little to no student participation making it impossible to meet the needs of each individual pupil 2 Demonstrator coach style The Demonstrator Style Like the lecture or authority style of teaching the demonstrator retains authority in the classroom However instead of relying solely on a verbal lecture the demonstrator style combines lectures with other teaching forms including multimedia presentations demonstrations and class activities This style is particularly well suited to music art and physical education subjects where demonstrations are required to fully understand a topic In other areas of study however the demonstrator style may not be suitable Like the authority style there is little direct teacher to pupil interaction so it can be difficult to accommodate the needs of all students 3 Facilitator activity style 4 Hybrid blended style **Teaching Methodology** Chaudhary Ghulam Murtaza Gujjar, 2017-03-08 This book describes different effective and non effective teaching methodologies teaching styles and famous teaching strategies regarding classroom management and assessment procedures It describes the effects of the variety of teaching styles on the mind attitude and life of a student The basic motive of this book is to provide awareness about effective teaching methods classroom management and assessment procedures It is not a common topic of discussion because teachers make the nation Furthermore many teachers are facing problems because of poor teaching methodology Lack of knowledge about teaching methods is the main cause of issues that are faced by teachers in schools In the present living a happy life is not easy and many people are stressed So teachers are also an important part of society therefore they also face these problems Each and every teacher has their own teaching style because each and every teacher has their own temperament Here everything is discussed in a simple manner So this general discussion about different aspects of Teaching Methodology may help the people of the nation and the teachers of the world **Models, Strategies, and Methods for Effective Teaching** Hellmut R.
