The Search For Nefertiti Joann Fletcher, 2013-03-28 Joann Fletcher presenter of BBC2's Ancient Egypt Life and Death in the Valley of the Kings has written an enthralling account of Nefertiti one of Egypt's most compelling and mysterious figures Wife of the controversial pharaoh Akhenaten she lived through perhaps the most tumultuous period in the country's long history The so called Amarna Period has long held a fascination not just for the enormous changes it brought to the religion art and administration of Egypt but for the many mysteries which surround it Mysteries that is until now Leading Egyptologist Dr Joann Fletcher has taken a fresh eye to the evidence and arrived at one of the most dramatic discoveries in recent times Working with a team of leading experts she has identified a long forgotten mummy as the body of a female pharaoh of the Amarna Period whom she believes is Nefertiti herself Lying for over three thousand years in an unused side chamber of Tomb KV 35 in the Valley of the Kings it tells a story which will forever change the way in which we view Nefertiti and indeed women throughout Egyptian history Now at last we see the full significance of her role as co regent and later Pharaoh of Egypt as well as understanding the astonishing luxury and decadence of her life in Amarna a life she led as the country around her began to disintegrate

Object Worlds in Ancient Egypt Lynn Meskell, 2021-01-07 Egypt looms large in the Western imagination Whether it is our attraction to pharaonic art the pyramids or practices of mummification Egypt's unique understanding of materiality speaks to us across space and time Is it because the ancient Egyptians fetishized

material objects that we find their culture captivating today And what exactly do Egyptian remains tell us about biography embodiment memory materiality and the self Object Worlds in Ancient Egypt takes New Kingdom Egypt 1539 1070 BC as its starting point and considers how excavated objects reveal the complex ways that ancient Egyptians experienced their material world From life to death the material world instantiated reflected and influenced social life and existence for ancient Egyptians Thus in Meskells unique approach to the materiality and sensuousness of subjects and objects we uncover the philosophical spiritual and human meanings embedded in these cultural artefacts Meskells book explores the fundamental existential questions that not only preoccupied ancient Egyptians but continue to fascinate people today What is the essence of persons and things How might we understand the situated experiences of material life the constitution of the object world and its shaping of human experience How might objects successfully mediate between worlds In the final analysis Meskell moves forward through time and examines the consumption and appreciation of these Egyptian material objects in the contemporary world Materiality is our physical engagement with the world our medium for inserting ourselves into the fabric of that world and our way of constituting and shaping culture in an embodied and external sense From that perspective it is very much the domain of anthropology and archaeology Drawing on a wide range of objects artefacts and artwork from Valley of the Kings through to Las Vegas Meskell provides an elegant analysis of the aesthetics of ancient Egyptian material culture
