Grammar and Meaning Howard Jackson, 2014-06-11 Grammar and Meaning is an introduction to the study of grammar of contemporary English It provides an impressive survey of all the main areas of English grammar from words through to sentences and texts It introduces and explains the linguistic terms needed to talk

about the ways in which language works from simple terms like adjective to more complex terms like non finite clause To meet the needs of both students and scholars Howard Jackson has produced an innovative approach to the study of English grammar Instead of concentrating on the formal and theoretical discussion of grammar as many introductions do this original analysis examines the meanings we want to express when we use language Beginning with the question What do we talk about it goes on to investigate how these meanings are structured in the grammar of English These notions are closer to our ordinary understanding of what language is doing and therefore the forms and structures of grammar are more easily grasped The book is extensively illustrated with examples from real English With analytical exercises in each chapter and a comprehensive glossary of terms the book will prove an invaluable aid to students of English language linguistics and English as a Foreign Language whilst also being accessible to anyone who studies English grammar as part of their course

lives These examples are drawn from a wide variety of sources newspapers magazines books and the writings of undergraduate students and from such writers and speakers as Ronald Reagan Shirley Chisholm Groucho Marx Mark Twain and Jane Addams Class tested and refined to be student and instructor friendly THE USES OF GRAMMAR 2E also features For Discussion sections that enhance students understanding of the principles covered in the text and encourage classroom discussion Using Grammar sections show students how to think about grammar s function in social relations Language Learning sections summarize critical concepts Chapter Previews and Chapter Reviews help students anticipate the new principles rules and concepts to follow and reinforce learning Exercises ask students to rehearse new learning and Challengers ask them to apply this learning to broader issues or more complex problems JUDITH RODBY joined the faculty at California State University Chico in 1989 after finishing her PhD in the rhetoric linguistics and literature program at the University of Southern California She has been the composition coordinator writing center director and coordinator of basic writing She is currently working primarily in the field of English education and is coordinator for the National Writing Project s National Reading Initiative She has published in composition ESL youth development and English education W Ross Winterowd was the Bruce R McElderry Professor Emeritus University of Southern California where he founded its PhD program in Rhetoric Linguistics and Literature He authored coauthored or edited many essays reviews poems and books including SEARCHING FOR FAITH A SKEPTIC S JOURNEY 2004 Parlor Press SENIOR CITIZENS WRITING 2007 Parlor Press THE CULTURE AND POLITICS OF LITERACY 1989 Oxford and ATTITUDES SELECTED PROSE AND POETRY 2010 Parlor Press In 2010 he received the field s highest honor the Exemplar Award from the Conference on College Composition and Communication He passed away in January 2011 shortly after completing work on THE USES OF GRAMMAR
