American Poetry after Modernism Albert Gelpi, 2015-03-09 Albert Gelpi s *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half of the twentieth century thus severing it from British conventions In Gelpi s view what distinguishes the American poetic tradition from the British is that at the heart of the American endeavor is a primary questioning of function and medium The chief paradox in American poetry is the lack of a tradition that requires answering and redefining redefining what it means to be a poet and likewise how the words of a poem create meaning offer insight into reality and answer the ultimate questions of living Through chapters devoted to specific poets Gelpi explores this paradox by providing an original and insightful reading of late twentieth century American poetry **The Creative Mind in**

Coleridge's Poetry Kathleen M. Wheeler, 1981 Five of Coleridge s major poems are given fresh scrutiny in this arresting study One of its unusual features is the attention given the Preface to *Kubla Khan* the Gloss to *The Ancient Mariner* and other prose accompaniments to the poems usually dismissed as extraneous Devices such as these the author argues are strategically employed by Coleridge in an effort to engage the reader in a fully imaginative response Kathleen Wheeler elucidates the texts in terms of aesthetic experience and also in terms of the philosophical principles that inform them showing how Coleridge s theories of mind and imagination function within the poems and shape their design A subtle and gifted reader of poetry she enriches our understanding of poems we thought we knew well and provides insights along the way into the creative process
