**The Ecclesiastical History** Eusebius, 2023-12-11 Eusebius of Caesarea's *The Ecclesiastical History* stands as a pivotal work in the landscape of early Christian literature. Written in the early fourth century, this monumental text chronicles the development of the Christian Church from its inception through the reign of Emperor Constantine. Eusebius employs a meticulous scholarly style, weaving historical narrative with theological reflection, thus providing readers not just a timeline of events but a profound understanding of the early Church's struggles and triumphs. Set against the backdrop of the Roman Empire's evolving attitudes towards Christianity, the work transcends mere documentation, acting as both a historical record and a foundational text for ecclesiastical scholarship. Gerson, 2017-12-01 Aristotle versus Plato For a long time that is the angle from which the tale has been told in textbooks on the history of philosophy and to university students Aristotle s philosophy so the story goes was au fond in opposition to Plato s But it was not always thus from the Introduction In a wide ranging book likely to cause controversy Lloyd P Gerson sets out the case for the harmony of Platonism and Aristotelianism the standard view in late antiquity He aims to show that the twentieth century view that Aristotle started out as a Platonist and ended up as an anti Platonist is seriously flawed Gerson examines the Neoplatonic commentators on Aristotle based on their principle of harmony In considering ancient studies of Aristotle s Categories Physics De Anima Metaphysics and Nicomachean Ethics the author shows how the principle of harmony allows us to understand numerous texts that otherwise appear intractable Gerson also explains how these esoteric treatises can be seen not to conflict with the early exoteric and admittedly Platonic dialogues of Aristotle Aristotle and Other Platonists concludes with an assessment of some of the philosophical results of acknowledging harmony
