**Extraterrestrial Encounters** Ronald Story, 2012-03-01 An illustrated A to Z guide to all things alien Over 400 entries from more than 100 contributors cover everything from the incidents and witnesses involved to the concepts at stake and experts personal position statements Entries range from alien abductions the Fantasy Prone hypothesis and JAL Flight no 1628 to the Lakenheath Bentwaters Episode mind control by aliens and Roswell The contributors include Isaac Asimov Jerome Clark Erich von Daniken Peter Davenport Hilary Evans Timothy Good Marvin Kottmeyer Jenny Randles Carl Sagan Whitley Streiber and Jacques Vallee There are over 300 images eyewitness drawings and photographs      *Ancient Aliens: Extraterrestrial Visitations from Prehistoric Times to the Present* Jacques Bergier, 1974-12-15 In *Ancient Aliens Extraterrestrial Visitations From Prehistoric Times to the Present* Jacques Bergier a French scholar states unequivocally that extraterrestrial intelligences have often interfered in human history And he proves it To a world titillated by Chariots of the Gods Jacques Bergier brings new documentation and insight Extending his observations from the era of the dinosaurs to modern times Bergier identifies and expands upon items that science has too readily dismissed as nonsense or explained quickly by categorization How did a whole race of prehistoric creatures the dinosaurs disappear Serious scholars today are advocating the theory that the dinosaurs were wiped out in a cosmos originated cataclysm And what about those mysterious and unexplained manmade items that are discovered during mining operations finally released after being locked in coal deposits eons old They are not the products of random organic phenomena They give evidence of being manufactured in years past by cultures perhaps alien to Earth And so it goes right into modern times One cannot simply discount all the sightings of UFOs even of strangers on the earth as 21st century man so cavalierly has done The pieces of evidence and the reputations of those who reported their experiences are too weighty to allow such unscientific reactions Extraterrestrial visitation is not a crackpot idea As we discover more about ourselves and our past and develop the technology that allows us to become space visitors ourselves it becomes increasingly certain that extraterrestrial visitation on Earth has been an ongoing phenomenon For his part Jacques Bergier provides more than clues to the effect he supplies incontrovertible evidence Jacques Bergier is a Fellow of the Royal Society of Arts and is the author of the international bestselling classic *The Morning of the Magicians*
