On Alexander Gardner's Photographic Sketch Book of the Civil War Anthony W. Lee, Elizabeth Young, 2007 Lee and Young have admirably elucidated this foundational volume in the history of American photography by developing references that emerge from prior readings of these images as well as thoughtfully producing new ways of seeing the landscapes Gardner presents The book makes available to a wide audience one of the most important photographic records of any war and certainly the most interesting visual record of the American Civil War This is superior scholarship Shirley Samuels author of *Facing America* Iconography and the Civil War Anthony Lee and Elizabeth Young's deceptively slim volume is a complex enlightening and elegant study of a significant Civil War era document that also greatly enhances our understanding of nineteenth century visual culture The analysis and format of this collaborative effort will serve as a model for cultural scholarship for years to come Joshua Brown author of *Beyond the Lines* Pictorial Reporting Everyday Life and the Crisis of Gilded Age America In this beautifully written analysis of one of the most important works of nineteenth century American photography Lee and Young restore Gardner's Sketch Book to its rightful place as a key document of American history At once a report of a newsworthy event and a meditation on its historical meaning Gardner's album is less unmediated reportage than a carefully constructed argument In clear lucid prose Lee and Young help us understand just how Gardner made this work that helped fix the Civil War in American memory Martha A Sandweiss author of *Print the Legend* Photography and the American West

Nothing Is Lost Ingrid Sischy, 2018-11-20 From the late editor writer and critic one of the great chroniclers of the art fashion and celebrity scenes an expansive collection of thirty five essays that offer an intimate look into the worlds of some of the most important and well known artists designers and actors of our time For more than three decades Ingrid Sischy's profiles and critical essays have been admired for their

keen observation and playful style Many of the pieces that appeared in The New York Times Magazine The New Yorker and Vanity Fair from the 1980s to 2015 are gathered here for the first time including her masterful profiles of Nicole Kidman Kristen Stewart Miuccia Prada Calvin Klein Jeff Koons Jean Pigozzi Alice Neel and Francesco Clemente among others as well as her exclusive interview with John Galliano after his career nose dived in 2011 Whether writing about a young Alexander McQueen the photography of Robert Mapplethorpe Sebastião Salgado Cindy Sherman or Bob Richardson or the Japanese musical theater group Takarazuka Revue Sischy's close attention to the unexpectedly telling detail results in vividly crafted incisive portraits of individuals and their works Here is a unique collection that gives readers unprecedented access to a dazzling range of artists from one of the greatest cultural critics of a generation *Pittsburgh Surveyed* Maurine Greenwald, Margo Anderson, 1996-10-15 At the beginning of the century Pittsburgh was the center of one of the nation's most powerful industries iron and steel It was also the site of an unprecedented effort to study the effects of industry on one American city The Pittsburgh Survey 1909-1914 brought together statisticians social workers engineers lawyers physicians economists labor investigators city planners and photographers They documented Pittsburgh's degraded environment corrupt civic institutions and exploited labor force and made a compelling case in four books and two collections of articles for reforming corporate capitalism In its literary history and visual power breadth and depth the Pittsburgh Survey remains an undisputed classic of social science research Like the Lynds Middletown studies of the 1920s the Survey captured the nation's attention and Pittsburgh came to symbolize the problems and way of life of industrial America as a whole A landmark volume in its own right this book of thirteen essays examines the accuracy and impact of the Pittsburgh Survey both on social science as a discipline and on Pittsburgh itself It also places the Survey firmly in the context of the social reform movement of the early twentieth century Nacho Lopez, Mexican Photographer John Mraz, 2003 Annotation Photographer Nacho Lopez was Mexico's Eugene Smith fusing social commitment with searing imagery to dramatize the plight of the helpless the poor and the marginalized in the pages of glossy illustrated magazines Even today Lopez's photographs forcefully belie the picturesque exoticism that is invariably presented as the essence of Mexico In *Nacho Lopez Mexican Photographer* John Mraz offers the first full length study in English of this influential photojournalist and provides a close visual analysis of more than fifty of Lopez's most important photographs Mraz first sets Lopez's work in the historical and cultural context of the authoritarian presidentialism that characterized Mexican politics in the 1950s the cult of wealth and celebrity promoted by Mexico's professional photographers and the government's attempts to modernize and industrialize Mexico at almost any cost Mraz skillfully explores the implications of Lopez's imagery in this setting the extent to which his photographs might constitute further victimization of his downtrodden subjects the relationship between them and the middle class readers of the magazines for which Lopez worked and the success with which his photographs challenged Mexico's economic and political structures Mraz contrasts the photos Lopez took with those that were selected by his editors for publication He also

compares Lopez's images with his theories about documentary photography and considers Lopez's photographs alongside the work of Robert Capa, Dorothea Lange, Henri Cartier Bresson, and Sebastiao Salgado. Lopez's imagery is further analyzed in relation to the Mexican Golden Age cinema inspired by Sergei Eisenstein, the pioneering digital imagery of Pedro Meyer, and the work of Manuel Alvarez Bravo, who Mraz provocatively argues was the first Mexican photographer to take an anti-picturesque stance. The definitive English language assessment of Nacho Lo **Public Images** Ryan Linkof, 2020-08-12. The stolen snapshot is a staple of the modern tabloid press as ubiquitous as it is notorious. The first in-depth history of British tabloid photojournalism, this book explores the origin of the unauthorized celebrity photograph in the early 20th century, tracing its rise in the 1900s through to the first legal trial concerning the right to privacy from photographers shortly after the Second World War. Packed with case studies from the glamorous to the infamous, the book argues that the candid snap was a tabloid innovation that drew its power from Britain's unique class tensions. Used by papers such as the Daily Mirror and Daily Sketch as a vehicle of mass communication, this new form of image played an important and often overlooked role in constructing the idea of the press photographer as a documentary eyewitness. From Edward VIII and Wallis Simpson to aristocratic debutantes Lady Diana Cooper and Margaret Whigham, the rage of the social elite at being pictured so intimately without permission was matched only by the fascination of working-class readers. While the relationship of the British press to social, economic, and political power was changed forever, initially pioneered in the metropole, tabloid-style photojournalism soon penetrated the journalistic culture of most of the globe. This in-depth account of its social and cultural history is an invaluable source of new research for historians of photography, journalism, visual culture, media, and celebrity studies.

History and Modern Media John Mraz, 2021-04-15. In *History and Modern Media*, John Mraz largely focuses on Mexican photography and his innovative methodology that examines historical photographs by employing the concepts of genre and function. He developed this method in extensive work on photojournalism; it is tested here through examining two genres: Indianist imagery as an expression of imperial neo-colonizing and decolonizing photography, and progressive photography as embodied in worker and laborist imagery, as well as feminist and decolonizing visuality. The book interweaves an autobiographical narrative with concrete research. Mraz describes the resistance he encountered in US academia to this new way of showing and describing the past in films and photographs, as well as some illuminating experiences as a visiting professor at several US universities. More importantly, he reflects on what it has meant to move to Mexico and become a

Mexican Mexico is home to a thriving school of photohistorians perhaps unequaled in the world Some were trained in art history and a few continue to pursue that discipline However the great majority work from the discipline known as photohistory which focuses on vernacular photographs made outside of artistic intentions A central premise of the book is that knowing the cultures of the past and of the other is crucial in societies dominated by short term and parochial thinking and that today's hyper audiovisuality requires historians to use modern media to offer their knowledge as alternatives to the perpetual present in which we live

Iron Muse Glenn Willumson, 2023-11-15 The construction of the transcontinental railroad 1865-1869 marked a milestone in United States history symbolizing both the joining of the country's two coasts and the taming of its frontier wilderness by modern technology But it was through the power of images and especially the photograph that the railroad attained its iconic status *Iron Muse* provides a unique look at the production distribution and publication of images of the transcontinental railroad from their use as an official record by the railroad corporations to their reproduction in the illustrated press and travel guides and finally to their adaptation to direct sales and albums in the late nineteenth and twentieth centuries Tracing the complex relationships and occasional conflicts between photographer publisher and curator as they crafted the photographs different meanings over time

Willumson provides a comprehensive portrayal of the creation and evolution of an important slice of American visual culture. The construction of the transcontinental railroad 1865-1869 marked a milestone in United States history symbolizing both the joining of the country's two coasts and the taming of its frontier wilderness by modern technology. But it was through the power of photography that the American West was truly brought into the national consciousness.

More than a thousand daily, weekly, or monthly papers in nine different languages have appeared since then. Today they are often considered a secondary source of information, but in their heyday Hawaiian newspapers formed one of the most diversified, vigorous, and influential presses in the world. In this original and timely work, Helen Geracimos Chapin charts the role Hawaiian newspapers played in shaping major historic events in the islands and how the rise of the newspaper abetted the rise of American influence in Hawaii. *Shaping History* is based on a wide selection of written and oral sources, including extensive interviews with journalists and others working in the newspaper industry. Students of journalism and Hawaiian history will find this comprehensive history of Hawaiian newspapers especially valuable.

American Photo, 1989-07 American Photography Miles Orvell, 2003 150 years of American photography come alive in this exciting new book, placing it in its cultural context for the first time. Orvell examines this fascinating subject through a wide range of well-known and less well-known images. He ranges from portraiture and landscape photography, family albums, and memory, and analyses the particularly American way in which American photographers have viewed the world around them. Orvell combines a clear overview of the changing nature of photographic thinking and practice in this period with an exploration of key concepts. The result is the first coherent history of American photography, which examines issues such as the nature of photographic exploitation, experimental techniques, the power of the photograph to shock, and whether we should subscribe to the notion of a visual history.
