major political role during the foundational period of socialism 1944 1958 Through case studies of three industrial centers Ujpest Tatabanya and Zala County Pittaway analyzes the dynamics of gender class generation skill level and rural versus urban location to reveal the embedded hierarchies within Hungarian labor He further demonstrates how industries themselves from oil and mining to armaments and textiles possessed their own unique labor subcultures From the outset the socialist state won favor with many workers as they had grown weary of the disparity and oppression of class systems under fascism By the early 1950s however a gap between the aspirations of labor and the goals of the state began to widen In the Stalinist drive toward industrialization stepped up production measures shortages of goods and housing wage and benefit cuts and suppression became widespread Many histories of this period have focused on Communist terror tactics and the brutal suppression of a pliant population In contrast Pittaway s social chronicle sheds new light on working class structures and the determination of labor to pursue its own interests and affect change in the face of oppression It also offers new understandings of the role of labor and the importance of local histories in Eastern Europe under communism From Darkness into Light Robert Ratonyi, 2020-09-24 The main title of the book From Darkness into Light is a metaphor referring to the most important life altering event in the author s life from a totalitarian dictatorship to living in the free world The subtitle reflects his eyewitness account of events and experiences captured in five stories in chronological order from his birth in 1938 in Budapest Hungary to when he is in the United States as twenty six years old as a married man with a child a graduate of the Massachusetts Institute of Technology MIT the world s premier science and engineering institution and ready to embark on living the American dream Robert Ratonyi spent the first seven years of his life in an openly anti Semitic country suffering the loss of his father and many of his close relatives uncles aunts and cousins in the Holocaust He then spent his adolescent years under the hard core Stalinist communist dictatorship He was brought up by a single mother a Holocaust survivor in a working class neighborhood According to contemporary American definition the family lived in poverty barely making it from paycheck to paycheck his uneducated and unskilled mother could provide as a manual laborer As a freshman at the Technical University of Budapest he participated in a peaceful student march on October 23 1956 that turned into a bloody uprising against the regime He was caught up in the uprising hoping that Hungary could break free out of the iron curtain that separated the east from the west When the Russians put down the revolution he managed to escape to Austria on December 6 1956 with no money or other earthly possessions leaving behind his mother family and friends He was single mindedly focused on finding a new free country where he could continue his university education He went to the American Embassy in Vienna to apply for immigrating to the US but was told that the quota for Hungarian refugees was filled The Canadians were actively seeking students who wanted to continue their education and Robert Ratonyi ended up in Montr al Canada in February 1957 The last story ends when Robert Ratonyi succeeds in finishing his education at the Massachusetts Institute of Technology in 1964 This story demonstrates how an immigrant can become a contributor to

society by taking risks being willing to work hard delaying gratification learning English and getting a good education He is now semiretired as a portfolio manager and is a regular speaker on behalf of the William Breman Jewish Heritage Holocaust Museum and the Georgia Commission on the Holocaust He and his wife live in Atlanta and are fervent supporters of the arts education as well as local Jewish organizations East Central Europe Lawrence D. Orton,1989 Forging Democracy Geoff Eley,2002-04-11 Democracy in Europe has been a recent phenomenon Only in the wake of World War II were democratic frameworks secured and even then it was decades before democracy truly blanketed the continent Neither given nor granted democracy requires conflict often violent confrontations and challenges to the established political order In Europe Geoff Eley convincingly shows democracy did not evolve organically out of a natural consensus the achievement of prosperity or the negative cement of the Cold War Rather it was painstakingly crafted continually expanded and doggedly defended by varying constellations of socialist feminist Communist and other radical movements that originally blossomed in the later nineteenth century Parties of the Left championed democracy in the revolutionary crisis after World War I salvaged it against the threat of fascism and renewed its growth after 1945 They organized civil societies rooted in egalitarian ideals which came to form the very fiber of Europe s current democratic traditions The trajectories of European democracy and the history of the European Left are thus inextricably bound together Geoff Eley has given us the first truly comprehensive history of the European Left its successes and failures its high watermarks and its low tides its accomplishments insufficiencies and excesses and most importantly its formative lasting influence on the European political landscape At a time when the Left s influence and legitimacy are frequently called into question Forging Democracy passionately upholds its vital contribution *Eye-witness in Hungary* Bill Lomax,1981 **Castoriadis and Critical Theory** Christos Memos,2014-11-18 By exploring the concepts of crisis and critique this study offers a thought provoking re examination of the political and social thought of Cornelius Castoriadis in light of the current world crisis and with regard to his radical critique of both the traditional Left and contemporary capitalist societies **Political History and Culture of Russia** ,1998 Scholarly articles dealing with political events in Russia up to 1991 *Eastern Europe in the Twentieth Century* R.
