Eyewitness Vladimir Pozner,1992      **Moscow, December 25, 1991** Conor O'Clery,2011-08-23 The implosion of the Soviet Union was the culmination of a gripping game played out between two men who intensely disliked each other and had different concepts for the future Mikhail Gorbachev a sophisticated and urbane reformer sought to modernize and preserve the USSR Boris Yeltsin a coarse and a hard drinking bulldozer wished to destroy the union and create a capitalist Russia The defeat of the August 1991 coup attempt carried out by hardline communists shook Gorbachev s authority and was a triumph for Yeltsin But it took four months of intrigue and double dealing before the Soviet Union collapsed and the day arrived when Yeltsin could hustle Gorbachev out of the Kremlin and move in as ruler of Russia Conor O Clery has written a unique and truly suspenseful thriller of the day the Soviet Union died The internal power plays the shifting alliances the betrayals the mysterious three colonels carrying the briefcase with the nuclear codes and the jockeying to exploit the future are worthy of John Le Carr or Alan Furst The Cold War s last act was a magnificent dark drama played out in the shadows of the Kremlin

War of the Black Heavens Michael Nelson,1997-12-01 International diplomacy and a changing global economy did not bring about the fall of the Iron Curtain Radio did and it was mightier than the sword Based on first hand interviews and documents from the Central Committee of the Soviet Communist Party Michael Nelson shows that Western radio principally the British Broadcasting Corporation Radio Free Europe Radio Liberty and the Voice of America were unrivaled forces in the fight against communism and the fall of the Iron Curtain The Communists did everything in their power to prevent the infiltration of Western thought into their world resorting to jamming radio signals assassinating staff and bombing stations The Russians for example decided to stop the mass production of short wave radios so that their citizens could not hear Western broadcasts War of the Black Heavens reveals that due to administrative incompetence short wave radio production continued making worthless many of the billions of dollars spent on jamming These radio programs introduced a forbidden exciting culture to millions of eager listeners Pop music talk shows news and information about consumer goods all relayed a message of the good life subtly undermining the values of the communist regimes Western radio actively connected listeners with the cultures of Europe and North America War of the Black Heavens describes an unheralded story of success and adds a new interpretation that helps us understand some of the most momentous political events of this century      Social defence Brian Martin,Jørgen Johansen,2019-07-11 Social defence is nonviolent community resistance to aggression and repression as an alternative to military forces Given the enormous damage caused by military systems social defence is an alternative worth investigating and pursuing Since the 1980s J rgen Johansen and Brian Martin have been involved in promoting social defence In this book they provide an up to date treatment of the issues They address the downsides of military systems historical examples of nonviolent resistance to invasions and coups key ideas about social defence important developments since the end of the Cold War and the role of social movements Social defence challenges deeply embedded assumptions

about violence and defence It is also a challenge to powerful groups with vested interests in systems of organised violence especially militaries and governments Popular action against aggression and repression is a radical alternative and a logical one

Eyewitness Vladimir Pozner,1993-04-25      **War Scare** Peter Pry,1999-09-30 Why do some American intelligence officials maintain fallout shelters and private contingency plans to evacuate their families in the event of a Russian nuclear strike even in today's post Cold War era of U S Russian partnership The frightening answer lies within the pages of War Scare a terrifying assessment of the prospect for nuclear holocaust in our day Written by Peter Vincent Pry a former CIA military analyst War Scare provides a history of our country's little known brushes with nuclear war and warns that contrary to popular opinion and the assurances of our political leaders the possibility of a Russian attack still exists Nuclear deterrence has been the foundation of Western security for the last 50 years but since the end of the Cold War Russian military doctrine has become more destabilizing and much more dangerous than is commonly believed By making use of a wealth of declassified and unclassified material Dr Pry illustrates how Russia's brutal past continues to shape the consciousness and decision making of its leaders many of whom are unreconstructed ideologues from the old Soviet regime Gripped by a perpetual perception of imminent threat a war scare the Russian General Staff which controls the technical capability of launching a nuclear strike has shown itself to be unstable at best The author explores recent history and near disasters such as the Bosnian crisis the Norway missile incident and U S air strikes on Iraq from the perspective of the Russian General Staff believing that only by understanding their viewpoint can we minimize the risk of unintentionally provoking a deadly attack Wary of NATO expansion and reeling from the Russian economy's descent into chaos the General Staff may interpret Western military exercises and operations in the Middle East and elsewhere as concealing surprise aggression against Russia This is a grave situation indeed as even after the START I II and III agreements Russia will retain enough nuclear weapons to destroy the world not to mention significantly expanded chemical and biological warfare capability War Scare convincingly shows that we ignore these facts at our peril

**Justice Ignited** Brian Martin,2007 Attacks can backfire on attackers\_sometimes spectacularly Examples include the beating of Rodney King by Los Angeles police in 1991 the surveillance of Ralph Nader in 1965 and the invasion of Iraq in 2003 Attackers often inhibit adverse reactions by covering up the attack devaluing the target and using other methods Through numerous detailed case studies Justice Ignited reveals the most promising tactics that can make unfair attacks backfire

*Politics, Paradigms, and Intelligence Failures* Ofira Seliktar,2015-05-20 Washington's failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating

Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary The Collapse of Communism in the Soviet Union William E.
