The Faber Book of
CONSERVATISM

Edited by
Kenneth Baker

Faber Of Conservatism

**Robert E. Goodin, Philip Pettit, Thomas
W. Pogge**

Faber Of Conservatism:

The Conservative Nation (Routledge Revivals) Andrew Gamble, 2014-06-27 Since the 1880s the Conservative Party has been an important political force in Britain. In this study of Conservative ideology since the end of Second World War first published in 1974, Andrew Gamble considers the nature of Conservative party opinion and the factors that have accounted for its success. The adaptation of the party post 1945 is discussed as well as the ascendancy of the Right progressives in the leadership and the challenge of the Whigs and Imperialists. Finally the book includes a discussion of the fluctuations within the Conservative Government between 1970 and 1974 with an account of what Gamble believes to have been ultimately a failure. A rigorous and comprehensive analysis of Conservative thought and policy, this study will be of particular value to those with an interest in the history of British Conservative politics and government. History, Historians, and Conservatism in Britain and America Reba Soffer, 2009 Reba Soffer examines the subjects motives and origins of conservative historians who were also successful public intellectuals. Providing a comprehensive account of the content, context and consequences of conservative ideas, Soffer explains their dominance in Britain and marginalization in America until the Reagan ascendancy. **American Conservatism** Bruce Frohnen, Jeremy Beer, Nelson O. Jeffrey, 2014-05-20 A must own title. National Review Online: American Conservatism. An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century. More than fifteen years in the making and more than half a million words in length, this informative and entertaining encyclopedia contains substantive entries on those persons, events, organizations and concepts of major importance to postwar American conservatism. Its contributors include iconic patriarchs of the conservative and libertarian movements, celebrated scholars, well known authors and influential movement activists and leaders. Ranging from abortion to Zoll, Donald Atwell and written from viewpoints as various as those which have informed the postwar conservative movement itself, the encyclopedia's more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism. This long awaited volume is not to be missed. *Imaginative Conservatism* James E. Person Jr., 2018-05-25 Russell Kirk 1918-1994 is renowned worldwide as one of the founders of postwar American conservatism. His 1953 masterpiece *The Conservative Mind* became the intellectual touchstone for a reinvigorated movement and began a sea change in the nation's attitudes toward traditionalism. A prolific author and wise cultural critic, Kirk kept up a steady stream of correspondence with friends and colleagues around the globe, yet none of his substantial body of personal letters has ever been published. Letters as colorful and intelligent as the man himself. In *Imaginative Conservatism*, James E. Person Jr. presents one hundred and ninety of Kirk's most provocative and insightful missives. Covering a period from 1940 to 1994, these letters trace Kirk's development from a shy precocious young man to a public intellectual firm in his beliefs and generous with his time and resources when called upon to provide for refugees, the homeless and other outcasts. This carefully annotated and edited

collection includes correspondence between Kirk and figures such as T S Eliot William F Buckley Jr Ray Bradbury Arthur Schlesinger Jr Charlton Heston Nikolai Tolstoy Wendell Berry Richard Nixon and Herbert Hoover among many others Kirk's conservatism was not primarily political but moral and imaginative focusing always on the relationship of the human soul in community with others and with the transcendent Beyond the wealth of autobiographical information that this collection affords it offers thought provoking wisdom from one of the twentieth century's most influential interpreters of American politics and culture *British Conservatism* Peter Dorey, 2010-10-30 Defence of inequality has always been a core principle of the Conservative Party in Great Britain Yet the Conservatives have enjoyed great electoral success in a British society marked by widespread inequalities of wealth and income Peter Dorey here examines the intellectual and political arguments which Conservatives use to justify inequality He also considers debates between Conservatives over how much inequality is desirable or acceptable Should inequality be unlimited in order to promote liberty incentives and rewards Or should inequality be kept within certain bounds to prevent social breakdown and political upheaval Finally he examines why some less prosperous sections of British society have nonetheless supported the Conservatives instead of political parties promoting equality This book will be an important resource for students and commentators of contemporary British politics

A Case for Conservatism John Kekes, 2018-10-18 In his recent book *Against Liberalism* philosopher John Kekes argued that liberalism as a political system is doomed to failure by its internal inconsistencies In this companion volume he makes a compelling case for conservatism as the best alternative His is the first systematic description and defense of the basic assumptions underlying conservative thought Conservatism Kekes maintains is concerned with the political arrangements that enable members of a society to live good lives These political arrangements are based on skepticism about ideologies pluralism about values traditionalism about institutions and pessimism about human perfectibility The political morality of conservatism requires the protection of universal conditions of all good lives social conditions that vary with societies and individual conditions that reflect differences in character and circumstance Good lives according to Kekes depend equally on pursuing possibilities that these conditions establish and on setting limits to their violations Attempts to make political arrangements reflect these basic tenets of conservatism are unavoidably imperfect Kekes concludes however that they represent a better hope for the future than any other possibility **British Conservatism and the Legal Regulation of**

Intimate Relationships Andrew Gilbert, 2018-08-23 What does conservatism as a body of political thought say about the legal regulation of intimate relationships and to what extent has this thought influenced the Conservative Party's approach to family law With this question as its focus this book explores the relationship between family law conservatism and the Conservative Party since the 1980s Taking a politico and socio legal perspective the discussion draws on an expansive reading of Hansard as well as recently released archival material The study first sets out the political tradition of conservatism relying largely on the work of Edmund Burke before going on to analyse the discourse around the development

of four crucial statutes in the field namely the Matrimonial and Family Proceedings Act 1984 the Family Law Act 1996 the Civil Partnership Act 2004 and the Marriage Same Sex Couples Act 2013 This work offers the first extended synthesis of family law conservative political thought and Conservative Party politics and as such provides significant new insight into how family law is made Runner up of the 2020 PSA Conservatism Studies Book Prize **Contemporary British**

Conservatism Steve Ludlam, Martin J. Smith, 1995-12-18 Contemporary British Conservatism brings together a set of specially commissioned chapters by leading authorities to provide a broad ranging assessment of Conservative politics policy and ideology today A central concern throughout is to assess the impact of Thatcherism on the party and the extent to which there has been a return to more traditional Conservatism under John Major *The Reactionary Mind* Corey Robin, 2018 Now updated to include Trump's election and the rise of global populism Corey Robin's *The Reactionary Mind* traces conservatism back to its roots in the reaction against the French Revolution Intellectual Conservatism Ferenc Hörcher, Daniel Pitt, 2025-09-29 This book examines the history of intellectual conservatism from its late 18th century founding father Edmund Burke to its last great representative the late Sir Roger Scruton Focusing on British intellectual conservatism and investigating this under researched area of political thought through multiple contributions and disciplines the editors aim is to provide an account of the supportive or critical intellectual work behind conservative politics in the 19th and 20th century with a long term view on the modern conservative movement It is an up to date account of some of the major theoretical issues of conservatism that utilises case studies to provide pictures of particular conservative intellectuals explain key concepts and reconstruct major schools and defining debates within conservatism There is a particular focus on the role of Christianity the British common law tradition and on the connection between culture and politics *Intellectual Conservatism* From Burke to Scruton is valuable for university students studying history political science PPE or the social sciences as well as those interested in the contemporary debates in Western politics on the future of Europe and the US *The Conservative Political Tradition in Britain and the United States* Arthur Aughey, Greta Jones, William Terence Martin Riches, 1992 This book seeks to break new ground by providing an original framework within which to understand conservative politics and to compare what has always been thought to be opposite ideal types a British conservatism characterized by traditionalism and an American conservatism defined by its optimistic individualism **The Conservative Party and the Destruction of Selective Education in Post-War Britain** Piers Legh, 2023-01-26 The book tells the untold story of the Conservative Party's involvement in terms of stance and policy in the destruction of selective state education from 1945 up to the present day Close consideration is paid to their attitudes and prejudices towards education both in power and in opposition Legh examines the Party's responses to the pressure for comprehensive schooling and egalitarianism from the Labour Party and the British left In doing so Legh defies current historiography to demonstrate that the Party were not passive actors in the advancement of comprehensive schooling The lively narrative is moved along by the author's critical examination of the

Education Ministers throughout this period Florence Horsbrugh and David Eccles serving under Churchill and Eden and also Quintin Hogg and Geoffrey Lloyd under Macmillan as well as Edward Boyle and Margaret Thatcher under Edward Heath

Legh's detailed research utilises a range of government documents personal papers parliamentary debates and newspapers to provide this crucial re-assessment of the Conservative Party and selective education and in doing so questions over simplistic generalisations about wholesale support for selective education policy It reveals instead questioning compromises and disagreements within the Party and its political and ideological allies The result is a stimulating revival of existing scholarship which will be of interest to scholars of British education and politics

Reflections on Conservatism Doğançan Özsəl, 2011-09-22 In comparison to other political doctrines conservatism is an understudied subject and there are few books that bring together works of scholars studying conservatism from different perspectives *Reflections on Conservatism* is among these few pieces and is written for those who are interested in conservative thinking and conservative movements in different countries In *Reflections on Conservatism* readers will find 13 articles covering a wide range of aspects on conservatism Six of these articles offer analyses of certain theoretical aspects of conservatism and focus on issues such as the definition of conservatism the theme of inequality in conservative thinking and the applicability of conservative principles to postcolonial politics Following these there are seven articles that focus on conservative movements or thinkers from different countries Here readers will find detailed discussions on the contemporary state of British and US conservatisms as well as Sarkozy's UMP There are also other articles that present the portrayal of post-war cultural conservatism in Denmark Antall's conservatism in Hungary and radical conservative trends in Turkey

The Democratic Theory of Michael Oakeshott Michael Minch, 2015-10-15 his book offers a description explanation and evaluation of Michael Oakeshott's democratic theory He was not a democratic theorist as such but as a twentieth-century English political theorist for whom liberal theory held deep importance his thought often engaged democratic theory implicitly and many times did so explicitly The author's project penetrates two renewals The first is the revitalization of interest in Oakeshott and the second is the renewal of democratic theory which began in the 1980s In respect to this latter renewal the book engages the deliberative turn in democratic theory These revivals create the context for this new look at Oakeshott To state the matter as a problem one might say that in light of new and fecund democratic theory it is a problem for political theory if one of the most important political theorists of the twentieth century is left out of the discourse insofar as he has something relevant to say about deliberative democracy It is of no small importance that almost all the work in democratic theory being done these days is of the deliberative discursive kind or responses to it That is deliberative theory is driving the agenda of democratic theory The author argues that Oakeshott does indeed have something relevant to say which is applicable to this democratic theory

A Companion to Contemporary Political Philosophy Robert E. Goodin, Philip Pettit, Thomas W. Pogge, 2012-03-12 This new edition of *A Companion to Contemporary Political Philosophy* has been extended significantly to include 55 chapters

across two volumes written by some of today's most distinguished scholars. New contributors include some of today's most distinguished scholars among them Thomas Pogge, Charles Beitz and Michael Doyle. Provides in depth coverage of contemporary philosophical debate in all major related disciplines such as economics, history, law, political science, international relations and sociology. Presents analysis of key political ideologies including new chapters on Cosmopolitanism and Fundamentalism. Includes detailed discussions of major concepts in political philosophy including virtue, power, human rights and just war. *The Political Theory Reader* Paul Schumaker, 2010-02-22. Utilizing 100 key readings, *The Political Theory Reader* explores the rich tradition of ideas that shape the way we live and the great issues in political theory today. Allows students to see how competing ideological viewpoints think about the same political issues. Provides readers with direct access to authors covered in the *From Ideologies to Public Philosophies* text. Facilitates discussions by having readings arranged thematically throughout text. Extracts of works specifically chosen to focus on topics central to issues covered in chapters. **Liberalism and its Critics** Kirk F. Koerner, 2019-11-21. First published in 1985, *Liberalism and its Critics* was under

increasing attack from both socialists and conservatives towards the end of the twentieth century. This book argues that far from having little to contribute towards solving the problems of the modern world, liberalism is in fact of central importance. It discusses the arguments against liberalism put forward by four major political theorists, refuting the general thrust of their criticisms and taking issue with many points of detail used by them to support their arguments. It analyses the origins of liberalism, discusses its major achievements and explains why it continues to be a crucially important movement. **A Dictionary of Conservative and Libertarian Thought (Routledge Revivals)** Nigel Ashford, Stephen Davies, 2012-06-25. First published in 1991, this is a reissue of the path-breaking *Dictionary of Conservative and Libertarian Thought*, the first book to examine the ideals and arguments produced by the intellectual traditions of both conservatism and classical liberalism. Covering the ideas of many such distinguished thinkers as Hayek, Scruton, Friedman and Buchanan, the volume provides a valuable survey of the historical development of both schools of thought in all of the major western countries and their contributions to contemporary debates. From American Conservatism to French Liberalism, Invisible Hand to Organic Society, from Scientism to Scepticism and Utopianism to Voluntarism, this is a vital work whose reissue will be welcomed as much by the keen layperson as by students of political science, the history of philosophy, economics and public policy.

Neo-Tories Bernhard Dietz, 2018-05-31. The danger to British democracy in the interwar period came from a different source to that which has thus far been assumed. It came from a network of radical conservatives who challenged the political system and sought to replace it with an authoritarian corporate state. In this book, Bernhard Dietz provides the first systematic analysis of this network and its members, which are called Neo Tories. With strong links to the European right yet a minority back home, this group of British conservatives are all the more fascinating today because it is on their ultimate failure that the success of British democracy rested. *Competition and the Corporate Society* Nigel Harris, 2013-11-05.

British society changed radically in the 21st century Any political party dedicated to preserving the Britain of 1900 would have faced over time either major problems of adjustment or the possibility of its own destruction The British Conservative party was just such a party its character defined by its commitment to the defence of the British status quo Yet it has also been one of the most successful political parties in the twentieth century Not only was it able to adjust itself to the transformation of British society including two world wars and the most catastrophic slump but it was able to win elections more consistently than any of its rivals This book seeks to show how the Conservatives achieved such a metamorphosis by identifying the main changes in the British economy and society and the changing Conservative response In practice there was no single Conservative response to any particular change The debate within the party revealed a surprisingly large number of responses yet the range was limited Indeed with some simplification one can see only two general political positions from which flowed differing proposals on all detailed issues In describing these two positions the author suggests a new method of classifying dominant political beliefs in Britain and other Western countries This study covers a wide field bringing together contemporary Conservative politics economic problems and economic history The Conservatives were intimately related to the interests of what used to be called British capitalism and their attitudes to the changes taking place in industry reveal most clearly the changing political priorities of the party The book examines Conservative policy proposals and attitudes to nationalization and the public sector to the trade unions and labour to private business and finally to the economic role of the State between 1945 and 1964 For those wishing to gain an understanding of the British Conservatives Nigel Harris detailed and stimulating material will make excellent reading and has been acclaimed since its first publication in 1972

Faber Of Conservatism Introduction

In today's digital age, the availability of Faber Of Conservatism books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Faber Of Conservatism books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Faber Of Conservatism books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Faber Of Conservatism versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Faber Of Conservatism books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Faber Of Conservatism books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Faber Of Conservatism books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Faber Of Conservatism books and manuals for download have transformed the way we access information. They provide a

cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Faber Of Conservatism books and manuals for download and embark on your journey of knowledge?

FAQs About Faber Of Conservatism Books

What is a Faber Of Conservatism PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Faber Of Conservatism PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Faber Of Conservatism PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Faber Of Conservatism PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Faber Of Conservatism PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection,

editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
