Faber Of War Poetry:

The Faber Book of War Poetry Kenneth Baker, 1996 Unlike other collections this book of war poetry takes a catholic view and doesn't confine itself to one particular period Kenneth Baker has given preference to poems with a strong documentary or psychological realism

C.S. Lewis, Poetry, and the Great War 1914-1918 John Bremer, 2012-05-31 The life and work of C S Lewis after his conversion in 1931 is well known and his reputation shows no signs of diminishing His earlier years have not been so well studied particularly between the ages of 16 and 22 when he studied privately and at Oxford served in the British army was wounded in France entered into his affair with Janie Moore and wrote and published his first book of poems To correct and augment the limited accounts of this period Lewis's life is presented with the general and specific background which makes it more meaningful particularly as it throws light on his character The romantic myth of him as a soldier poet is dispelled largely through an extensive review of the poems in *Spirits in Bondage* and the self centered life that produced them A valuable comparison not to the advantage of Lewis is drawn with two undoubted soldier poets Robert Graves and Siegfried Sassoon The purpose is not to disparage or belittle Lewis but to show what had to be overcome in his limited and unpleasant early moral character in order to produce the devoted Christian of later years

Twentieth-Century War Poetry Philippa Lyon, 2004-10-28 Poets have written about wars throughout the 20th century questioning protesting and sometimes celebrating the nature and purpose of conflict Attracting

an enthusiastic popular readership war poetry has often been seen as a way of remembering and re imagining wars Today war poems are not only part of our memorial culture on epitaphs and in Remembrance Day services but have inspired books and films and become studied widely around the world This Guide examines the genesis and development of the important genre of war poetry in the twentieth century focusing in particular on the role of the two world wars in the literary and cultural construction of a war poetry category Philippa Lyon draws upon a range of key historical and contemporary critical responses from poetic memoir and journalism to sophisticated academic criticism to demonstrate the rich diversity of expectations and evaluations elicited by the developing genre

Modern English War Poetry Tim Kendall,2006-07-20 Tim Kendall s study offers the fullest account to date of a tradition of modern English war poetry Stretching from the Boer War to the present day it focuses on many of the twentieth century s finest poets combatants and non combatants alike and considers how they address the ethical challenges of making art out of violence Poetry we are often told makes nothing happen But war makes poetry happen the war poet cannot regret and must exalt at even the most appalling experiences Modern English War Poetry not only assesses the problematic relationship between war and its poets it also encourages an urgent reconsideration of the modern poetry canon and the too often marginalised position of war poetry within it The aesthetic and ethical values on which canonical judgements have been based are carefully scrutinized via a detailed analysis of individual poets The poets discussed include Thomas Hardy Rudyard Kipling Wilfred Owen Charlotte Mew Edward Thomas Ivor Gurney W H Auden Keith Douglas Ted Hughes and Geoffrey Hill

Touch and Intimacy in First World War Literature Santanu Das,2006-04-06 The First World War ravaged the male body on an unprecedented scale yet fostered moments of physical intimacy and tenderness among the soldiers in the trenches Touch the most elusive and private of the senses became central to war experience War writing is haunted by experiences of physical contact from the muddy realities of the front to the emotional intensity of trench life to the traumatic obsession with the wounded body in nurses memoirs Through extensive archival and historical research analysing previously unknown letters and diaries alongside literary writings by figures such as Owen and Brittain Santanu Das recovers the sensuous world of the First World War trenches and hospitals This original and evocative study alters our understanding of the period as well as of the body at war and illuminates the perilous intimacy between sense experience emotion and language as we try to make meaning in times of crisis

The Cambridge Companion to the Poetry of the First World War Santanu Das,2013-11-18 This Companion offers a major re examination of the poetry of the First World War at the start of the war s centennial commemoration **The Life and Mysterious Death of Poet and Intelligence Agent Stephen Haggard, 1911-1943** Ross Davies,2024-11-05 Actor memoirist novelist playwright and poet Stephen Haggard was a highly individual figure in the English literature and theatre of the 1930s and Second World War Haggard was born in Guatemala City in 1911 the son of a British colonial officer who was a nephew of H Rider Haggard and his French Canadian wife He died in mysterious circumstances in 1943 while serving with British Army Intelligence in the Middle East Ross Davies s biography retraces Stephen Haggard s brief yet vivid and crowded life and work From a colonial childhood and education in England the Haggard story moves on to prewar theatre studies in Munich stardom on the London and New York stages and from there to service with the Army the BBC the Special Operations Executive and its rival Political Warfare Executive Davies shows that Haggard felt verse to be his vital outlet artistic and emotional although he did not seek publication until the outbreak of Hitler s war Wartime poems such *The Tear* and *Lotus* struck a chord with the many other young men and women who had to set aside civilian life and Haggard s widow Morna collected the verse for publication with his memoir *I ll Go to Bed at Noon* 1944 In this book Davies traces a fascinating life story that has been largely lost from view and makes a convincing case for Haggard s important contribution to the interwar literary and cultural scene **Cambridge Poets of the Great War** Michael Copp,2001 This anthology contains 155 poems by forty nine poets all of whom have connections with Cambridge University The poems have been selected to represent a comprehensive range of responses patriotic protest satirical realistic elegiac pastoral and homoerotic The introduction provides analytical notes on all the poems Three appendixes discuss Charles Sorley s comments on Rupert Brooke Siegfried Sassoon s statement of protest and A E Tomlinson s scathing attack on Brooke Sacrifice and Modern War Writing Alex Houen,2024-09-05 *Sacrifice and Modern War Writing* presents the most extensive study to date of twentieth and twenty first century war writing Examining works by over 110 authors Alex Houen surveys how war writing explores sacrifice in relation to major modern and contemporary conflicts from the First World War to the War on Terror Various conceptions of sacrifice are examined including Christian Jewish Islamic and secular The discussion ranges across literary portrayals of multiple sacrificial practices including ancient rituals of child sacrifice martyrdom scapegoating and suicide bombing Houen builds an innovative interdisciplinary approach to how war sacrifice and their representations interrelate and a wide range of Anglophone literature is discussed including novels memoirs short stories essays manifestoes

elegies ballads and lyric poetry Whereas critics and theorists have tended to emphasize that war's reality exceeds any attempt to represent it Houen contends that political religious and cultural frames of sacrifice have continued to play a significant part in shaping how war's reality is shaped and experienced Those frames are inextricably tied to modes of representation which include symbolism and mimesis Sacrifice and Modern War Writing explores how sacrificial killing in war is itself riddled with symbolic transfigurations and mimetic exchanges and it builds a fresh approach by arguing that the figurative and imaginative aspects of literary writing ironically become its very means of engaging closely with the reality of war's sacrifices That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war **The SAGE Encyclopedia of War: Social Science Perspectives** Paul Joseph, 2016-10-11

Traditional explorations of war look through the lens of history and military science focusing on big events big battles and big generals By contrast The SAGE Encyclopedia of War Social Science Perspective views war through the lens of the social sciences looking at the causes processes and effects of war and drawing from a vast group of fields such as communication and mass media economics political science and law psychology and sociology Key features include More than 650 entries organized in an A to Z format authored and signed by key academics in the field Entries conclude with cross references and further readings aiding the researcher further in their research journeys An alternative Reader's Guide table of contents groups articles by disciplinary areas and by broad themes A helpful Resource Guide directing researchers to classic books journals and electronic resources for more in depth study This important and distinctive work will be a key reference for all researchers in the fields of political science international relations and sociology
