Faberge's Eggs Toby Faber, 2008-10-07 In Stradivari's Genius Toby Faber charted the fascinating course of some of the world's most prized musical instruments Now in this enthralling new book he tells the story of objects that are to many the pinnacle of the jeweler's art the Fabergé imperial eggs The Easter presents that Russia's last two czars gave to their czarinas have become synonymous with privilege beauty and an almost provocative uselessness They are perhaps the most redolent symbols of the old empire's phenomenal craftsmanship of the decadence of its court and of the upheavals that brought about its inevitable downfall Fabergé's Eggs is the first book to recount the remarkable story of these masterpieces taking us from the circumstances that inspired each egg's design through their disappearance in the trauma of revolution to their eventual reemergence in the global marketplace In 1885 Carl Fabergé created a seemingly plain white egg for Czar Alexander III to give to his beloved wife Marie Fedorovna It was the surprises hidden inside that made it special a diamond miniature of the Imperial crown and a ruby pendant This gift began a tradition that would last for more than three decades lavishly extravagant eggs commemorating public events that in retrospect seem little more than staging posts on the march to revolution Above all the eggs illustrate the attitudes that would ultimately lead to the downfall of the Romanovs their apparent indifference to the poverty that choked their country their preference for style over substance and during the reign of Nicholas II their all-consuming concern with the health of the czarevitch Alexis the sickly heir to the throne a preoccupation that would propel them toward Rasputin and the doom of the dynasty More than a superb new account of a classic tragedy Fabergé's Eggs illuminates some fascinating aspects of twentieth century history The eggs amazing journey from revolutionary Russia features a cast of characters including embattled Bolsheviks acquisitive British royals eccentric artifact salesmen and such famous business and society figures as Arm and Hammer Marjorie Merriweather Post and Malcolm Forbes Finally Toby Faber tantalizingly suggests that some of the eggs long thought lost may eventually emerge Darting from the palaces of a besieged Russia to the showcases of New York's modern mega wealthy Fabergé's Eggs weaves a

story unparalleled in its drama and extravagance Praise for Stradivari s Genius Fascinating lively more enthralling earthy and illuminating than any fiction could be The New York Times Book Review A celebration of six instruments and the master craftsman who made them Faber brings to the subject an infectious fascination with Stradivari s life and trade He writes with clarity and fluency Chicago Tribune An extraordinary accomplishment and a compelling read Like strange totems that cast an irresistible spell these instruments bring out the best and the worst of those who would own them and Faber deftly tells the stories in all their rich and surprising detail Thad Carhart author of The Piano Shop on the Left Bank A worthy contribution to the ongoing legend of Stradivari Minneapolis Star Tribune Fascinating accessible and enjoyable Tracy Chevalier author of Girl with a Pearl Earring **Faberge from the Forbes Magazine collection** Hermione Waterfield,1975 **The Grove Encyclopedia of American Art** Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **Directory of Corporate Art Collections** ,1984 *Corporate Patronage of Art and Architecture in the United States, Late 19th Century to the Present* Monica E. Jovanovich,Melissa Renn,2019-04-18 This interdisciplinary collection of case studies rethinks corporate patronage in the United States and reveals the central role corporations have played in shaping American culture This volume offers new methodologies and models for the subject of corporate patronage and contains an extensive bibliography on corporate patronage art collections and exhibitions sponsorship and philanthropy in the United States The case studies herein go beyond the usual focus on corporate sponsorship and collecting to explore the complex organizational networks and motivations behind corporate commissions Featuring chapters on Margaret Bourke White Julie Mehretu Maxfield Parrish Pablo Picasso Diego Rivera Eugene Savage Millard Sheets and Kehinde Wiley as well as studies on Andrew Carnegie Andrew Mellon John D Rockefeller Sr and Jr and Dorothy Shaver and companies such as Herman Miller and Lord and Taylor this volume looks at a wide array of works ranging from sculpture photography mosaics and murals to advertisements department store displays sportswear medical schools and public libraries *Faberge* Dr. Geza Von Habsburg,A. von Solodkoff,2000-09 The World of Faberge contains over 750 images accompanies one of the most ambitious exhibitions ever mounted on the jewelers of the Russian Imperial Court Many images are from private collections have never been seen before **Russian Fractals in Indigenous Artifacts** Abdul Karim Bangura,Leonid A. Zhigun,2025-06-22 This book is the first comprehensive work on Russian Fractals in indigenous artifacts While existing works focus on universal phenomena such as liquid crystal or finance none explore the intersection between Fractals and Russia Russian Fractals in Indigenous Artifacts therefore investigates how indigenous Russian cultures have a wonderful Fractal heritage that was originally tied to socially just and ecologically sustainable social practices including those of indigenous northern groups such as the Yakut Fractal designs originally allowed unalienated value both human and nonhuman to be visible thereby enabling just and sustainable living This book also examines how the tsarist elite encouraged the creation of unique creative masterpieces

developing and strengthening traditional crafts and art of indigenous people hence Fabergé or imperial architecture Today the challenge for contemporary Russia is to reestablish the relationship between the social and ecological sustainability of indigenous cultures and practices for which we can now provide modeling and analysis Lay attempts at this have only limited success as they have based the attempts on a purely religious basis which recognizes the ecological aspects but often succumbs to authoritarian nationalism However the freely accession of indigenous peoples to Russia for the sake of national liberation has had a positive effect on enriching them with spirituality and creativity by Fractal artifacts through friendly exchanges with one another In Russian Fractals in Indigenous Artifacts Bangura and Zhigun express why there is a need for a forward thinking Fractal renaissance in Russia bringing together contemporary computational and scientific analyses with these ecologically and socially sustainable traditions
