Douglas A. Lorimer

Fabianism And Colonialism The Life And Political Thought Of Lord Sydney Olivier:

Fabianism and Colonialism Francis Lee, 1988 **Britain's Imperial Administrators, 1858-1966 A.**

Kirk-Greene, 2000-02-24 Britain's famous overseas civil services the Colonial Administrative Service the Indian Civil Service and the Sudan Political Service no longer exist as a major and sought after career for Britain's graduates In this detailed study the history of each service is presented within the framework of the need to administer an expanding empire Close attention is paid to the methods of recruitment and training and to the socio educational background of the overseas administrators as well as to the nature of their work The prestigious incumbents of Government House are revealingly examined The impact of decolonisation on overseas officials and the kinds of second careers which they took up are documented This authoritative narrative history is enlivened by recourse to Service lore and anecdotes **The Olivier**

Sisters Sarah Watling, 2019-05-08 Centering the Olivier sisters in their own time Watling presents a vivid and fascinating group portrait of sisters sisterhood and feminism in the early twentieth century **A Guide to the Papers of British**

Cabinet Ministers 1900-1964 Cameron Hazlehurst, Sally Whitehead, Christine Woodland, 1996 A Guide to the Papers of British Cabinet Ministers 1900 1964 is the revised and expanded edition of a volume published by The Royal Historical Society in 1974 Up to date information on the papers of 323 ministers from the first edition is provided and its scope has increased from 323 ministers to include all Cabinet ministers until the resignation of Sir Alec Douglas Home as Prime Minister in 1964 This Guide is a major research tool and a source of information on the personal papers of British Cabinet ministers *Imperialism and Internationalism in the Discipline of International Relations* David Long, Brian C.

Schmidt, 2006-01-01 What were the guiding themes of the discipline of International Relations before World War II The traditional disciplinary history has long viewed this time period as one guided by idealism and then challenged by realism This book reconstructs in detail some of the formative episodes of the field's early development and arrives at the conclusion that in actuality the early years of International Relations were preoccupied not with idealism and realism but with the dual themes of imperialism and internationalism Thus the beginnings of the discipline have resonance with the recently revived discourse of empire and the global status and policies of the United States as the world's sole superpower *The*

International Theory of Leonard Woolf P. Wilson, 2005-10-29 Colonial civil servant Fabian socialist and eminence grise of the Bloomsbury Circle Leonard Woolf was one of the most prolific writers on international relations of the early to mid Twentieth Century His report for the Fabian Society International Government was influential on the creation of the League of Nations He was co founder of the popular pressure group the League of Nations Society He was a leading critic of empire He helped to educate the British Labour Party on global issues constructing in 1929 its first credible foreign policy With his wife Virginia he founded the celebrated Hogarth Press He pioneered functionalist and transnationalist theory He pioneered documentary journalism He wrote towards the end of his long life one of the most insightful autobiographies of the Twentieth

Century This book examines the thought of this fascinating and relatively unknown political thinker It thoroughly reassesses his ideas for decades condemned as utopian in the context of the much more fluid international scene of the Twenty First century In particular it asks have his ideas about international government gained new pertinence in the post Cold War world

Political Ideas in Modern Britain Rodney Barker, 2013-01-11 The rise of the New Right and the collapse of state communism in 1989 has fundamentally changed political thinking in the late twentieth century Rodney Barker has revised and extended his classic text *Political Ideas in Modern Britain* in the light of these changes His accessible account of political thinking in Britain since the 1880s now includes detailed analysis of the demise of traditional conservatism and socialism the rise and decline of the New Right the growth of feminism liberalism and pluralism *Political Ideas in Modern Britain* charts the changing intellectual landscape of political thinking illustrating how contemporary political thought is both rooted in tradition and a radical transformation of it Whether the future is liberal communitarian pluralist or simply uncertain this is an essential guide for students of British politics Rodney Barker is Senior Lecturer in Government at the London School of Economics and Political Science *The Oxford History of the British Empire: Volume V: Historiography* Robin

Winks, 2001-07-26 The *Oxford History of the British Empire* is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The *Oxford History of the British Empire* as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future *Rediscovering the British World* Phillip Alfred Buckner, R. Douglas Francis, 2005 Rediscovering the British

World is one part of an ongoing attempt to approach British Imperial history from a different viewpoint placing the colonies of settlement at the centre Editors Phillip Buckner and Douglas Francis have included nineteen essays from expert scholars in the field which cover a broad range of cultural social and intellectual topics in British imperial history from the mid nineteenth to the mid twentieth century The essays focus on the history of Britain and the Empire with considerable

emphasis on the self governing dominions of Canada South Africa Australia and New Zealand They attempt to show the centrality of the Empire in the history of the nations created by the British diaspora overseas while at the same time calling into question the extent of the existence of a British World The goal is not to wax nostalgic but rather to re examine the complex phenomenon of this far reaching empire and to shed light on the ways in which it has shaped our world With contributions by James Belich Frank Bongiorno Bettina Bradbury Patrick H Brennan Phillip Buckner Elizabeth Elbourne R Douglas Francis Jeffrey Grey Catherine Hall John Lambert Douglas Lorimer David Lowe Stuart Macintyre Adele Perry Paul Pickering Satadru Sen R Scott Sheffield Paul Ward Stuart Ward Wendy Webster *Thinkers of the Twenty Years' Crisis : Inter-War Idealism Reassessed* David Long, Peter Wilson, 1995-12-14 This book reassesses the contribution to international thought of some of the most important thinkers of the inter war period It takes as its starting point E H Carr s famous critique which more than any other work established the reputation of the period as the utopian or idealist phase of international relations theorizing This characterization of inter war thought is scrutinized through ten detailed studies of such writers as Norman Angell J A Hobson J M Keynes David Mitrany and Alfred Zimmern The studies demonstrate the diversity of perspectives within idealism and call into question the descriptive and analytical value of the entire notion It is concluded that idealism is an overly general term useful for scoring debating points rather than providing a helpful category for analysis The Oxford History of the British Empire: Historiography Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries *Labour and the Decolonization Struggle in Trinidad and Tobago* J. Teelucksingh, 2014-11-18 This book provides evidence that Labour in Trinidad and Tobago played a vital role in undermining British colonialism and advocating for federation and self government Furthermore there is emphasis on the pioneering efforts of the Labour movement in party politics social justice and working class solidarity *Science, race relations and resistance* Douglas A. Lorimer, 2015-11-01 By exploring the dimensions of race race relations and resistance this book offers a new account of the British Empire s greatest failure and its most disturbing legacy Using a wide range of published and archival sources this study of racial discourse from 1870 to 1914 argues that race then as now was a contested territory within the metropolitan culture Based on a wide range of published and archival sources this book uncovers the conflicting opinions that characterised late Victorian and Edwardian discourse on the colour question It offers a revisionist account of race in science and provides original studies of the invention of the language of race relations and of resistance to race thinking led by radical abolitionists and persons of Asian and African descent living in the United Kingdom The book will be of interest to students and scholars of race colonialism and culture and to a readership interested in the history of science and race anti slavery and humanitarian movements and the roots of anti racist resistance Postcolonialism Robert J. C. Young, 2016-03-03 This key new introduction by one of the leading exponents in the field explains in clear and accessible language the historical and theoretical origins of post colonial theory Acknowledging that

post colonial theory draws on a wide often contested range of theory from different fields Young analyzes the concepts and issues involved explains the meaning of key terms and interprets the work of some of the major writers concerned to provide an ideal introductory guide for those undergraduates or academics coming to post colonial theory and criticism for the first time

The Liberal Defence of Murder Richard Seymour,2014-04-15 A war that has killed more than a million Iraqis was a humanitarian intervention the US army is a force for liberation and the main threat to world peace is posed by Islam These are the arguments of a host of liberal commentators including such notable names as Christopher Hitchens Kanan Makiya Michael Ignatieff Paul Berman and Bernard Henri Lvy In this critical intervention Richard Seymour unearths the history of liberal justifications for empire showing how savage policies of conquest including genocide and slavery have been retailed as charitable missions From the Cold War to the War on Terror Seymour argues that colonialist notions of civilization and progress still shape liberal pro war discourse concealing the same bloody realities In a new afterword Seymour revisits the debates on liberal imperialism in the era of Obama and in the light of the Afghan and Iraqi debacles

The Reception of Darwinian Evolution in Britain, 1859-1909 Martin Hewitt,2024-10-20 The Reception of Darwinian Evolution in Britain 1859 1909 Darwinism s Generations uses the impact of Charles Darwin s On the Origin of Species 1859 in the 50 years after its publication to demonstrate the effectiveness of a generational framework for understanding the cultural and intellectual history of Britain in the nineteenth century It challenges conventional notions of the Darwinian Revolution by examining how people from across all sections of society actually responded to Darwin s writings Drawing on the opinions and interventions of over 2 000 Victorians drawn from an exceptionally wide range of archival and printed sources it argues that the spread of Darwinian belief was slower more complicated more stratified by age and ultimately shaped far more powerfully by divergent generational responses than has previously been recognised In doing so it makes a number of important contributions It offers by far the richest and most comprehensive account to date of how contemporaries came to terms with the intellectual and emotional shocks of evolutionary theory It makes a compelling case for taking proper account of age as a fundamental historical dynamic and for the powerful generational patternings of the effects that age produced It demonstrates the extent to which the most common sub periodisation of the Victorian period are best understood not merely as constituted by the exigencies of events but are also formed by the shifting balance generational influence Taken together these insights present a significant challenge to the ways historians currently approach the task of describing the nature and experience of historical change and have fundamental implications for our current conceptions of the shape and pace of historical time

Lineages of Empire Duncan Kelly,2009-04-30 This collection of essays provides a unique statement of the latest thinking from internationally acclaimed political theorists and intellectual historians on the ways in which the intellectual history and political thought of modern Britain have been saturated with imperial concerns

Imperial Sceptics Gregory Claeys,2010-08-26 Imperial Sceptics provides a highly original analysis of the emergence of opposition to the British Empire

from 1850-1920 Departing from existing accounts which have focused upon the Boer War and the writings of John Hobson Gregory Claeys proposes a new chronology for the contours of resistance to imperial expansion Claeys locates the impetus for such opposition in the late 1850s with the British followers of Auguste Comte Tracing critical strands of anti imperial thought through to the First World War Claeys then scrutinises the full spectrum of socialist writings from the early 1880s onwards revealing a fundamental division over whether a new conception of socialist imperialism could appeal to the electorate and satisfy economic demands Based upon extensive archival research and utilising rare printed sources *Imperial Sceptics* will prove a major contribution to our understanding of nineteenth century political thought shedding new light on theories of nationalism patriotism the state and religion

The British Labour Party and the Wider World Paul Corthorn, Jonathan Davis, 2007-10-24 The legacy of Blair and the invasions of Iraq and Afghanistan continue to loom large for the Labour Party whether in opposition or in government giving rise to fierce debates over Labour's attitude and posture towards the wider world This book considers the idea of Labour's international identity examining how world events and Labour's response to them have helped to shape ideology political culture and domestic agendas from the 1920s until the Iraq War It provides a fascinating and original exploration of Labour both on the world stage and at home from the influence of the Soviet Union on political thought in the interwar years to the international student revolts of the 1960s and from media in the 1990s to Kosovo and New Labour Interventionism This is essential reading for scholars of modern British politics as well as anyone interested in the motivations and influences behind the Labour Party's actions on the world stage

Late Victorian Holocausts Mike Davis, 2002-06-17 This global environmental and political history will redefine the way we think about the European colonial project Observer sets the triumph of the late 19th century Western imperialism in the context of catastrophic El Niño weather patterns at that time groundbreaking mind stretching The Independent Examining a series of El Niño induced droughts and the famines that they spawned around the globe in the last third of the 19th century Mike Davis discloses the intimate baleful relationship between imperial arrogance and natural incident that combined to produce some of the worst tragedies in human history Late Victorian Holocausts focuses on three zones of drought and subsequent famine India Northern China and Northeastern Brazil All were affected by the same global climatic factors that caused massive crop failures and all experienced brutal famines that decimated local populations But the effects of drought were magnified in each case because of singularly destructive policies promulgated by different ruling elites Davis argues that the seeds of underdevelopment in what later became known as the Third World were sown in this era of High Imperialism as the price for capitalist modernization was paid in the currency of millions of peasants' lives
