When Portugal's colonial rule in Angola ended in 1974 three liberation groups UNITA National Union for the Total Independence of Angola FNLA National Front for the Liberation of Angola and MPLA Popular Movement for the Liberation of Angola agreed to a tripartite movement for the fledgling nation Conflicts quickly arose and the MPLA with Cuban and Soviet assistance drove its rivals from the capital instigating a civil war which continues into three periods 1975 1991 1992 94 and 1998 2002 This volume covers the first period focusing on the political history of the UNITA movement and its struggles with the MPLA The Angolan civil war was the product of personal jealousies contrasting ideologies and ethnic animosities From its inception the conflict between UNITA and Angola's Marxist government was an international affair involving the U S the USSR China and many African states W Martin James III who wrote his book near the close of the first period of civil war contends that despite Gorbachev's new thinking and talk of peaceful solutions to regional conflicts Soviet policy toward Angola marked a reversion to the Brezhnev Doctrine The biggest MPLA Cuban offenses occurred during Gorbachev's tenure with Soviet advisers at the brigade level directing an MPLA offensive American policy toward Angola is also examined here This is the first book to emphasize the dynamic role of UNITA in the Angolan liberation movement James acknowledges that the importance of foreign powers in guaranteeing a government of national reconciliation Just as important are strategies of compromise requiring trust in a political context where it is violated and submission for the common good where defiance is a remnant of the colonial past Foreign policy analysts African area specialists and scholars of post colonial history find this volume indispensable

R. J. Rummel,1997-01-01 This is R J Rummel's fourth book in a series devoted to genocide and government mass murder or what he calls democide He presents the primary results in tables and figures as well as a historical sketch of the major cases of democide those in which one million or more people were killed by a regime In *Death by Government* Rummel does not aim to describe democide itself but to determine its nature and scope in order to test the theory that democracies are inherently nonviolent Rummel discusses genocide in China Nazi Germany Japan Cambodia Turkey Yugoslavia Poland the Soviet Union and Pakistan He also writes about areas of suspected genocide North Korea Mexico and feudal Russia His results clearly and decisively show that democracies commit less democide than other regimes The underlying principle is that the less freedom people have the greater the violence the more freedom the less the violence Thus as Rummel says The problem is power The solution is democracy The course of action is to foster freedom *Death by Government* is a compelling look at the horrors that occur in modern societies It depicts how democide has been very much a part of human history Among other examples the book includes the massacre of Europeans during the Thirty Years War the relatively unknown

genocide of the French Revolution and the slaughtering of American Indians by colonists in the New World This riveting account is an essential tool for historians political scientists and scholars interested in the study of genocide Angolan War of Liberation Al J. Venter,2018-10-30 When a large group of rebels invaded Angola from a recently independent Congo in 1961 it heralded the opening shots in another African war of independence Between 1961 and 1974 Portugal faced the extremely ambitious task of conducting three simultaneous counterinsurgency campaigns to preserve its hegemony of Angola Portuguese Guinea and Mozambique While other European states were falling over themselves in granting independence to their African possessions Portugal chose to stay and fight despite the odds against success That it did so successfully for thirteen years in a distant multi fronted war remains a remarkable achievement particularly for a nation of such modest resources For example in Angola the Portuguese had a tiny air force of possibly a dozen transport planes a squadron or two of F 86s and perhaps twenty helicopters and that in a remote African country twice the size of Texas Portugal proved that such a war can be won In Angola victory was complete However the political leadership proved weak and irresolute and this encouraged communist elements within the military to stage a coup in April 1974 and lead a capitulation to the insurgent movements squandering the hard won military and social gains and abandoning Portugals African citizens to generations of civil war and destitution **Photography in Portuguese Colonial Africa, 1860-1975** Filipa Lowndes Vicente,Afonso Dias Ramos,2023-08-31 This edited collection presents the first critical and historical overview of photography in Portuguese colonial Africa to an English speaking audience Photography in Portuguese Colonial Africa 1860 1975 brings together sixteen scholars from interdisciplinary fields as varied as history anthropology art history visual culture and museum studies to consider some of the key aspects in the visual representation of the longest lasting European colonial empire in the African continent The chapters span over two centuries and cover five formerly colonial territories Angola Cabo Verde Guinea Bissau Mozambique and S o Tom and Pr ncipe deploying a range of methodologies to explore the multiple meanings and the contested uses of the photographic image across the realms of politics science culture and war This book responds to a marked surge of international interest in the relationship between photography and colonialism which has hitherto largely overlooked the Portuguese imperial context by delivering the most recent scholarly findings to a broad readership *The Missing Girls and Women of China, Hong Kong and Taiwan* Hua-Lun Huang,2014-01-10 In the past century tens of millions of women and girls have disappeared in China Hong Kong and Taiwan There are many reasons the women variously were sold as foreign spouses imprisoned for their political beliefs taken to night clubs or massage parlors to work as escorts provided as comfort women to soldiers or murdered by female corpse dealers and sold as ghost brides to families looking to give their deceased sons wives in the afterlife The youngest girls fell victim to infanticide the tragic result of a one child law in a male dominated society As a result of the gender imbalance these disappearances created countless young males now suffer from the marriage squeeze remaining single without families of their own This sociological study explores the institutional factors

develops a typology for these populations and lays a foundation for the examination of lost populations in the future

Political Terrorism A.J. Jongman,2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against **The Book Buyer's Guide** ,1965 Confrontation and Accommodation in Southern Africa Kenneth Grundy,2023-04-28 Confrontation and Accommodation in Southern Africa The Limits of Independence examines the complex regional dynamics racial tensions and political maneuverings within southern Africa during a period of profound social and political upheaval The book delves into the interplay of economic political racial and military variables offering a comprehensive study of regional international

relations It highlights the interactions among states and non state actors in a system fraught with conflict exploring themes such as race s role in policy the ideological divides between black and white governed territories and the profound effects of guerrilla warfare and politico military confrontations With a focus on intra regional patterns the book sheds light on the connections between southern Africa s sub system and the broader global context Authoritative and extensively researched this work contextualizes the relationships among territories from Angola and South Africa to Tanzania and Madagascar Through its multidimensional approach the book provides valuable insights into the evolving diplomatic economic and social networks in the region It also critiques the power structures perpetuated by white dominated regimes and the counter efforts of liberation movements Confrontation and Accommodation in Southern Africa is a vital resource for understanding the historical and ongoing complexities of this pivotal region making it indispensable for scholars and policymakers alike This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973

Handgun Bullet Stopping Power George B. Bredsten, 2008 For the law enforcement officer and the civilian who may be in a situation that requires the use of a handgun to stop a lethal threat action it is important that the person differentiates between the crass glib and self serving advertisements of ammunition vendors and the reality of how what and why effective stopping power occurs Factors to consider are the physiological response the psychological response the time frame parameter and bullet efficacy Of these four factors only bullet efficacy can be somewhat controlled by the person this only by understanding how and to what extent the bullet contributes to the degree of stopping power obtained A number of concepts formulae have been included so as to permit the reader to consider their merits and whether or not they are consistent with the reality of biology physics and other relevant sciences Finally the material in this book is intended to permit those persons to instruct teach or make decisions regarding the selection of a service handgun cartridge combination that will help to provide the means to prevail in a lethal threat confrontation About the Author Mr Bredsten retired from the Federal Law Enforcement Training Center Firearms Division FLETC FAD With FLETC FAD he performed duties as a firearms instructor and he also taught ballistics to the FLETC FAD staff and to students in the Law Enforcement Rifle Training Program and in the Precision Rifle Sniper and Observer Program Subjects covered included the ballistic coefficient barrel time the coefficient of reduction form Greenhill formula rate of rifling twist firearm recoil bullet time of flight bullet drop bullet midrange wind deflection bullet penetration potential and bullet terminal wounding efficacy Since retiring he has provided ballistics consultation service for the FLETC FAD the Transportation Security Agency the Orange County Florida Sheriff s Department and Exxon Mobil Corporation Mr Bredsten attended and completed various classes courses relating to firearms e g H K MP5 Steyr Aug Uzi Tactical Speed Shooting and advanced
