[Wittgenstein and Davidson on Language, Thought, and Action](#) Claudine Verheggen, 2017-10-05 Wittgenstein and Davidson are two of the most influential and controversial figures of twentieth century philosophy However whereas Wittgenstein is often regarded as a deflationary philosopher Davidson is considered to be a theory builder and systematic philosopher par excellence Consequently little work has been devoted to comparing their philosophies with each other In this volume of new essays leading scholars show that in fact there is much that the two share By focusing on the similarities between Wittgenstein and Davidson their essays present compelling defences of their views and develop more coherent and convincing approaches than either philosopher was able to propose on his own They show how philosophically fruitful and constructive reflection on Wittgenstein and Davidson continues to be and how relevant the writings of both philosophers are to current debates in philosophy of mind language

and action      *Words and Thoughts* Robert Stainton, 2006 It is a near truism of philosophy of language that sentences are prior to words that they are the only things that fundamentally have meaning Robert s Stainton s study interrogates this idea drawing on a wide body of evidence to argue that speakers can and do use mere words not sentences to communicate complex thoughts
