In the Eye of the Animal Patricia Cox Miller, 2018-06-15 Early Christian theology posited a strict division between animals and humans Nevertheless animal figures abound in early Christian literature and art from Augustine's renowned wonder at the agility of the mosquito on the wing to vivid exegeses of the six days of creation detailed in Genesis and when they appear the distinctions between human and animal are often dissolved How asks Patricia Cox Miller does one account for the stunning zoological imagination found in a wide variety of genres of ancient Christian texts In *The Eye of the Animal* complicates the role of animals in early Christian thought by showing how textual and artistic images and interpretive procedures actually celebrated a continuum of human and animal life Synthesizing early Christian studies contemporary philosophy animal studies ethology and modern poetry Miller identifies two contradictory strands in early Christian thinking about animals The dominant thread viewed the body and soul of the human being as dominical or the crowning achievement of creation animals with their defective souls related to humans only as reminders of the brutish physical form However the second strand relied upon the idea of a continuum of animal life which enabled comparisons between animals and humans This second tendency explains Miller arises particularly in early Christian literature in which ascetic identity the body and ethics intersect She explores the tension between these modes by tracing the image of the animal in early Christian literature from the ethical animal behavior on display in Basil of Caesarea's *Hexaemeron* and the anonymous *Physiologus* to the role of animals in articulating erotic desire and from the idyllic intimacy of monks and animals in literature of desert ascetism to early Christian art that envisions paradise through human animal symbiosis

Tranceformers Shamans of the 21st Century John Jay Harper, 2009. *Tranceformers Shamans of the 21st Century* is the true story of this author's contact with a dead optics physicist colleague and the telepathic communication that sent him searching for scientific answers to his spiritual questions. Harper draws from this deep well of wisdom, astrology, biology, near-death experiences, paranormal psychology, quantum physics, as well as Egyptian and Mayan cosmology. Overall, he does an excellent job of synthesizing massive amounts of information, making this shift of the ages comprehensible to the general reader. Clearly, this is a necessary primer to understand the coming apocalypse of biblical proportions in consciousness, climate, culture, and civilization. However, the theme of this book is that by learning to use trance techniques employed by mystics, prophets, and shamans, one can unlock the mysteries of existence for themselves. Indeed, this is the big idea behind the Eternal Return of the Sun of God in 2012. Self-Empowerment.
