Baynes,2015-04-10 Originally published in 1940 this classic study of two schizophrenic case histories further opened up the seemingly intractable problem of this condition a task preceded by Jung s own Psychology of Dementia Praecox It was Baynes s grasp of the meaning of the symbol coupled with his wide scholarship that enable him to explore the case histories in such remarkable and fruitful depth thus linking pathological psychology through graphic expression and the dream of the myths of mankind and the universal man This was truly a scientific task In case 1 the series of dreams fantasies and active imagination fully illustrated by the patients spontaneous paintings suggested to him a kind of mythological imagery Baynes then demonstrates the emergence and

development of a hero myth together with its therapeutic effect upon the patient as an inner personal experience of death and rebirth Baynes also applied the methods of synthesis to the understanding of modern art and its reflection of the spirit of the times a realization of the basic split in the socio religious structure of European Culture In case 2 the subject was an artist and out of his own split he seemed to have created a symbolic bridge that would be a therapeutic bridge for himself and a possible model for curing the evil of the times in which we then were living **Czakry i nerw błędny C.J.**

Understanding - The Psychology of the Buddhas Sri Narayan Sirdesai,2025-04-02 The author has done intense research on religion yoga and psychology for the last 40 years which included a thorough study of the teachings of holy books and those of J Krishnamurti Ramana Maharishi Swami Vivekanand Osho Rajneesh Sri Aurobindo Ghosh Paramhansa Yoganand Swami Muktanand George Gurdjieff and other prominent philosophers and masters There are many misconceptions delusions and wrong ideas floating about Enlightenment which mislead a true seeker The author also found out that though many great sages and philosophers have written dozens of books on this subject the matter is scattered not sequential and lacks clarity For a truth seeker it is very difficult to collate all the material and get the right understanding for successfully pursuing the spiritual path Therefore the author has taken the effort in writing this book which details the soul s evolutionary journey from Ignorance to Enlightenment and the spiritual states beyond Enlightenment in a single book This book explains
