**American Jaguar** Elizabeth Webb, 2021-11-02 In the borderlands between the United States and Mexico America's largest cat the jaguar is fighting to regain its kingdom Added to the endangered species list in 1997 the jaguar has declined in population mainly due to habitat fragmentation created by roads farms mines and most controversially the border wall Such human made barriers prevent free movement of many wild animals for predation and mating thereby threatening their reproduction DNA transfer and overall survival Author and wildlife biologist Elizabeth Webb examines the jaguar's predicament and highlights the work of field scientists who are

Sadowski-Smith,2016-04-30 The essays in *Globalization on the Line* criticize the almost exclusive emphasis on the ethnically constituted trans nation whose function as an instrument of de nationalization has become signified in the metaphorical use of the border Contributors focus on the surge of a more diverse variety of cultural forms of citizenship in response to the dramatic change that the geographies of U S border areas have undergone and simultaneously held to shape at the end of the 20th century In its attempt to move beyond examinations of de nationalized diasporic formations at the border several essays in the collection add an attention to the northern frontier a hemispheric perspective that was originally spawned by imagining new forms of citizenship within U S Mexico transborder cultures Instead of viewing globalization and nation states as two separate and opposed domains of theorization and politics *Globalization on the Line* contextualizes U S borders within global processes that are currently reconstituting the relationship between nation states and private corporations at the site of U S borders The volume thus adds to the almost exclusive focus on the counter hegemonic diasporic trans nation an emphasis on various forms of citizenship that have emerged in response to increasingly more
