Stepelyk, 2020-10-05 War means fighting and fighting means killing Confederate cavalry commander Nathan Bedford Forrest famously declared The Civil War was fundamentally a matter of Americans killing Americans This undeniable reality is what Jonathan Stepelyk explores in *Fighting Means Killing* the first book length study of Union and Confederate soldiers attitudes toward and experiences of killing in the Civil War Drawing upon letters diaries and

postwar reminiscences Steplyk examines what soldiers and veterans thought about killing before during and after the war How did these soldiers view sharpshooters How about hand to hand combat What language did they use to describe killing in combat What cultural and societal factors influenced their attitudes And what was the impact of race in battlefield atrocities and bitter clashes between white Confederates and black Federals These are the questions that Steplyk seeks to answer in *Fighting Means Killing* a work that bridges the gap between military and social history and that shifts the focus on the tragedy of the Civil War from fighting and dying for cause and country to fighting and killing

War on the Waters James M. McPherson,2012-09-17 Although previously undervalued for their strategic impact because they represented only a small percentage of total forces the Union and Confederate navies were crucial to the outcome of the Civil War In *War on the Waters* James M McPherson has crafted an enlightening at times harrowing and ultimately thrilling account of the war s naval campaigns and their military leaders McPherson recounts how the Union navy s blockade of the Confederate coast leaky as a sieve in the war s early months became increasingly effective as it choked off vital imports and exports Meanwhile the Confederate navy dwarfed by its giant adversary demonstrated daring and military innovation Commerce raiders sank Union ships and drove the American merchant marine from the high seas Southern ironclads sent several Union warships to the bottom naval mines sank many more and the Confederates deployed the world s first submarine to sink an enemy vessel But in the end it was the Union navy that won some of the war s most important strategic victories as an essential partner to the army on the ground at Fort Donelson Vicksburg Port Hudson Mobile Bay and Fort Fisher and all by itself at Port Royal Fort Henry New Orleans and Memphis

Civil War Chicago Theodore J. Karamanski,Eileen M. McMahon,2014-07-01 The American Civil War was a crucial event in the development of Chicago as the metropolis of the heartland Not only did Chicagoans play an important role in the politics of the conflict encouraging emancipation and promoting a hard war policy against Southern civilians but

they supported the troops materially through production of military supplies and foodstuffs as well as morally and spiritually through patriotic publications and songs The Civil War transformed Chicago from a mere commercial center to an industrial power as well as the nation's railroad hub and busiest port The war also divided Chicago however between Lincoln supporters and Copperheads whites and blacks workers and owners natives and newcomers The city played a key role in elevating Abraham Lincoln to the Republican presidential nomination in 1860 yet only four years later a Chicago politician's influence was key in declaring the war a failure and promoting a platform of peace with the Confederacy Using seldom seen or newly uncovered sources this book tells the story of the Civil War through the eyes of those who lived that history Photographs throughout the book effectively convey the geography of events in this pivotal period of Chicago's history and the editors have provided a useful driving guide to Civil War sites in and around the city

The Battle of Belmont Nathaniel Cheairs Hughes Jr.,2000-11-09 The battle of Belmont was the first battle in the western theater of the Civil War and more importantly the first battle of the war fought by Ulysses S Grant It set a pattern for warfare not only in the Mississippi Valley but at Fort Donelson and Shiloh as well Grant s 7 November 1861 strike against the Southern forces at Belmont in southeastern Missouri on the Mississippi River made use of the newly outfitted Yankee timberclads and all the infantry available at the staging area in Cairo Illinois The Confederates led by Leonidas Polk and Gideon Pillow had the advantages of position and superior numbers They hoped to smash Grant s expeditionary force on the Missouri shore and cut off the escape of the Illinois and Iowa troops from their boats The confrontation was a bloody all day fight that a veteran of a dozen major battles would later call frightful to contemplate At first successful the Federals were eventually driven from the field and withdrew up the Mississippi to safety The battle cost some twenty percent of his troops but as a result of this

engagement Grant became known as an audacious fighting general Using diaries and letters of participants official documents and contemporary newspaper accounts Nathaniel Hughes provides the only full length tactical study of the battle that catapulted Grant into prominence Throughout the narrative Hughes draws sketches of the lives and fates of individual soldiers who fought on both sides especially of the colorful and enormously dissimilar principal actors Grant and Polk
