**The Ascent of John Tyndall** Roland Jackson, 2018 John Tyndall was a leading scientific figure in Victorian Britain who established the physical basis of the greenhouse effect and why the sky is blue This rich biography describes the colorful life and achievements of this brilliant communicator physicist and mountaineer who ascended from humble beginnings to the heart of Victorian society *Demos Assembled* Stephen W. Sawyer, 2024-06-19 An intelligent engaging and in depth reading of the nature of the state and the establishment of the modern political order in the mid nineteenth century Previous studies have covered in great detail how the modern state slowly emerged from the early Renaissance through the seventeenth century but we know relatively little about the next great act the birth and transformation of the modern democratic state And in an era where our democratic institutions are rife with conflict it s more important now than ever to understand how our institutions came into being Stephen W Sawyer s *Demos Assembled* provides us with a fresh transatlantic understanding of that political order s genesis While the French influence on American political development is well understood Sawyer sheds new light on the subsequent reciprocal influence that American thinkers and politicians had on the establishment of post revolutionary regimes in France He argues that the emergence of the stable Third Republic 1870 1940 which is typically said to have been driven by idiosyncratic internal factors was in fact a deeply transnational dynamic phenomenon Sawyer s findings reach beyond their historical moment speaking broadly to conceptions of state formation how contingent claims to authority whether grounded in violence or appeals to reason and common cause take form as stateness

**The Literature of Reconstruction** Wolfgang Funk, 2017-03-23 Winner of the 2016 ESSE Junior Scholar Book Award in Literatures in the English Language *The Literature of Reconstruction* argues for the term and concept of postmillennial reconstruction to fill the gap left by the decline of postmodernism and deconstruction as useful cultural and literary categories Wolfgang Funk shows how this notion emerges from the theoretical and philosophical development that led to the demise of postmodernism by relating it to the idea of authenticity immediate experience that eludes direct representation In addition he provides a clear formal framework with which to identify and classify the features of reconstructive literature by updating the narratological category of metafiction originally established in the 1980s Based on Werner Wolf s observation of a metareferential turn in contemporary arts and media he illustrates how the specific use of metareference results in a renegotiation of the specific patterns of literary communication and claims that this renegotiation can be profitably described with the concept of reconstruction To substantiate this claim in the second half of the book Funk discusses narrative texts that illustrate this transition from postmodern deconstruction to postmillennial reconstruction The analyses take in distinguished and prize winning writers such as Dave Eggers Julian Barnes Jennifer Egan and Jasper Fforde The broad scope of authors featuring writers from the US as well as the UK underlines the fact that the reconstructive tendencies and strategies Funk diagnoses are of universal significance for the intellectual and cultural self image of the global North

**Darwin and His Children** Tim M.

Berra, 2013-09-26 While much has been written about the life and work of Charles Darwin the lives of his wife and ten children remain largely unexamined How did Darwin reconcile his own metaphysical views with those of his wife Emma Wedgwood his first cousin and a devout Unitarian Did his consanguineous marriage contribute to three of his children's young deaths and how did these deaths affect both Darwin and his wife And how did Darwin's death affect his surviving family Most accounts of Charles Darwin's life end with his death but Tim Berra's *Darwin and His Children His Other Legacy* moves past this moment in time examining the distinct lives of Charles Darwin's wife and children both in relation to him and as their own characters living and dying separately in the wake of their father's success The book will feature a synopsis of the development of Darwin's beliefs work and marriage and then discuss the role these played in each of his children's lives in a separate chapter for each child Three died soon after their births while others grew up to be bankers writers scientists or members of parliament *Darwin and His Children His Other Legacy* covers each child in turn providing a new and more personal perspective on the life and legacy of Charles Darwin

**Growing Up a Woman** Milena Kaličanin, Soňa Šnircová, 2015-10-13 This book explores contemporary transformations of the female Bildungsroman showing that the intersection of the genre and gender brought to critical attention in the context of second wave feminism remains of equal importance in the era of postfeminism The female Bildung narrative has acquired an important position in twentieth and twenty first century literature through its continuing depiction of female self discovery and emancipation as a process of negotiating the traditional divisions of female and male roles in relation to the private and public spaces Recognizing the seminal contribution of feminist criticism to the definition of the genre and the role of feminist cultural processes in its thematic developments this volume investigates more recent influences on the female Bildung

narrative and the influence of the classic female Bildungsroman on contemporary cultural texts As a collection of fifteen essays written by international scholars the book offers a representative sample of the narratives of female development presenting a variety of genres including the novel the short story autobiography TV series and Internet video blogs and theoretical frameworks adopting hermeneutic postcolonial feminist and postfeminist perspectives In its diversity this volume reveals that despite the ongoing process of women's emancipation the heroine's struggle with the private/public divide has remained throughout the twentieth century and in the first decades of the new millennium a central issue in stories about the female quest for self-definition The book will be of interest to scholars and students in the fields of literary women and gender studies particularly those interested in the narratives of female development that represent American and British cultural contexts
