For organizations of all sizes this book changes the way we think about management and leadership. Mark makes his case by looking at teams and individuals that set out to deliver ambitious achievements in complex and challenging environments. We meet the leadership team that built the F 18 Super Hornet fighter jet one of the US Navy's most successful programs. We discover the untraditional approach to risk used in building a new terminal at London's Heathrow airport. We draw lessons on corporate survival from the cat and mouse fight against IED's in Afghanistan and are introduced to a website where online video gamers solved a critical piece of the AIDS puzzle using their gaming prowess. Reinventing Communication is about creating the conditions for performance and attaining long term success. Whether a start up, a global enterprise or a government agency this book shows us how to deliver ambitious achievements by getting communication right. It is a book that no manager, leader or innovator should be without. *Department of Defense Authorization for Appropriations for Fiscal Year 2010: Airland* United States. Congress. Senate.
