The Faber Book of Magical Tales Kathleen Lines, 1985-01-01 A collection of fifteen traditional tales including fairy tales myths legends and folklore from a variety of sources and cultures Russian Magic Tales from Pushkin to Platonov ,2012-12-06 She turned into a frog into a lizard into all kinds of other reptiles and then into a spindle In these tales young women go on long and difficult quests wicked stepmothers turn children into geese and tsars ask dangerous riddles with help or hindrance from magical dolls cannibal witches talking skulls stolen wives and brothers disguised as wise birds Half the tales here are true oral tales collected by folklorists during the last two centuries while the others are reworkings of oral tales by four great Russian writers Alexander Pushkin Nadezhda Teffi Pavel Bazhov and Andrey Platonov In his introduction to these new translations Robert Chandler writes about the primitive magic inherent in these tales and the taboos around them while in the afterword Sibelan Forrester discusses the witch Baba Yaga This edition also includes an appendix bibliography and notes Translated by Robert Chandler and Elizabeth Chandler With Sibelan Forrester Anna Gunin and Olga The Poetry of Paul Muldoon Jefferson Holdridge, 2008-08-01 The Poetry of Paul Muldoon introduces the Meerson student and general reader to the critical discussion surrounding Muldoon's oeuvre as well as to his major themes It examines the poet s meditations on culture and nature human and animal speculations on the act of perception figures fragmented by the Troubles and philosophical considerations of colonisation It then discusses what rank among the most beautiful and intricate elegies of our time For Muldoon art's complicity in suffering is a political self indicting question which his best poems endeavour to answer If sometimes this Pulitzer Prize winner insists that art has a positive role to play at other times he fears that it merely feeds off the carnage This critical book shows how for Muldoon art should not merely repeat the devastation of the world although he is afraid that it does and engages in bitter moral despair that places his work among the very best any contemporary poet has written The Poetry of Paul Muldoon unearths difficult questions of form with a metaphysical significance that is suitable to our times Something about the Author Alan Hedblad, Anne Commire, 1997

Widdowson, Herbert Halpert, 2015-02-20 This collection of Newfoundland folk narratives first published in 1996 grew out of extensive fieldwork in folk culture in the province The intention was to collect as broad a spectrum of traditional material as possible and Folktales of Newfoundland is notable not only for the number and quality of its narratives but also for the format in which they are presented A special transcription system conveys to the reader the accents and rhythms of each performance and the endnote to each tale features an analysis of the narrator's language In addition Newfoundland has preserved many aspects of English and Irish folk tradition some of which are no longer active in the countries of their origin Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland the researchers set out to discover if this was in fact the case Index to Fairy Tales, 1987-1992 Joseph W.
