Congress,1999 **Cricket's Changing Ethos** Jon Gemmell,2018-04-28 This book examines historically how cricket was codified out of its variant folk forms and then marketed with certain lessons sought to reinforce the values of a declining landed interest It goes on to show how such values were then adapted as part of the imperial experiment and were eventually rejected and replaced with an ethos that better reflected the interests of new dominant elites The work examines the impact of globalisation and marketization on cricket and analyses the shift from an English dominance on a sport that is ever increasingly being shaped by Asian forces The book s distinctiveness lies in trying to decode the spirit of the game outlining a set of actual characteristics rather than a vague sense of values An historical analysis shows how imperialism nationalism commercialism and globalisation have shaped and adapted these characteristics As such it will be of interest to students and scholars of sport sociology post colonialism globalisation as well as those with an interest in the game of cricket and sport more generally No Good Alternative William T. Vollmann,2018-06-05 The most honest book about climate change yet The Atlantic The Infinite Jest of climate books The Baffler An eye opening look at the consequences of coal mining and oil and natural gas production the second of a two volume work by award winning author William T Vollmann on the ideologies of energy production and the causes of climate change The second volume of William T Vollmann s epic book about the factors and human actions that have led to global warming begins in the coal fields of West Virginia and Eastern Kentucky where America s best friend is not merely a fuel but a heritage Over the course of four years Vollmann finds hollowed out towns

with coal polluted streams and acidified drinking water makes covert visits to mountaintop removal mines and offers documented accounts of unpaid fines for federal health and safety violations and of miners who died because their bosses cut corners to make more money To write about natural gas Vollmann journeys to Greeley Colorado where he interviews anti fracking activists a city planner and a homeowner with serious health issues from fracking Turning to oil production he speaks with among others the former CEO of Conoco and a vice president of the Bank of Oklahoma in charge of energy loans and conducts furtive roadside interviews of guest workers performing oil related contract labor in the United Arab Emirates As with its predecessor No Immediate Danger this volume seeks to understand and listen not to lay blame except in a few corporate and political cases where outrage is clearly due Vollmann is a carbon burner just like the rest of us he describes and quantifies his own power use then looks around him trying to explain to the future why it was that we went against scientific consensus continually increasing the demand for electric power and insisting that we had no good alternative
