Good Intentions Make Bad News S. Robert Lichter, Richard Noyes, 1996-08-30 Examines the media's mission to provide the truth about presidential campaigns

Why Americans Hate the News Media and How It Matters Jonathan M. Ladd, 2012 As recently as the early 1970s the news media was one of the most respected institutions in the United States Yet by the 1990s this trust had all but evaporated Why has confidence in the press declined so dramatically over the past 40 years And has this change shaped the public's political behavior This book examines waning public trust in the institutional news media within the context of the American political system and looks at how this lack of confidence has altered the ways people acquire political information and form electoral preferences Jonathan Ladd argues that in the 1950s 60s and early 70s competition in American party politics and the media industry reached historic lows When competition later intensified in both of these realms the public's distrust of the institutional media grew leading the public to resist the mainstream press's information about policy outcomes and turn toward alternative partisan media outlets As a result public beliefs and voting behavior are now increasingly shaped by partisan predispositions Ladd contends that it is not realistic or desirable to suppress party and media competition to the levels of the mid twentieth century rather in the contemporary media environment new ways to augment the public's knowledgeability and responsiveness must be explored Drawing on historical evidence experiments and public opinion surveys this book shows that in a world of endless news sources citizens trust in institutional media is more important than ever before

The Mediated Presidency Stephen J. Farnsworth, Robert S. Lichter, 2005-08-18 Including late breaking data from the Iraq occupation and the disastrous CBS News reports on Bush's Vietnam era National Guard Service acclaimed media scholars Stephen J Farnsworth and S Robert Lichter examine news coverage of military policy economic policy and scandals from the last four U S presidencies including the current controversial administration Using a quarter century of content analysis data the authors demonstrate how the White House dominates Capitol Hill on every dimension of news coverage undermining Congress's attempt to compete as an equal branch before the public At the same time they show how the networks are steadily losing ground to new media outlets and suggest future paths our media mania may take

The Media and Neo-Populism Gianpietro Mazzoleni,Julianne Stewart,Bruce Horsfield,2003-02-28 Mazzoleni Stewart Horsfield and their contributors analyze the two way relationship of the mass media and the contemporary phenomenon of extreme right wing neo populist political parties which emerged in the closing years of the 20th century across the world The success of Jean Marie Le Pen leader of the neo populist Front National in the first French presidential ballot in April 2002 shows that these extremist parties have strong if varying electoral support Drawn into reporting on the policies and antigovernment critiques of the new parties the mass communication institutions especially those engaged in news production have been challenged by a variety of unconventional but effective political campaign strategies that caused many media professionals considerable challenge Taking an approach informed by mass communication theory this book analyzes eight case studies of the interaction of news media dynamics and neo populism in Austria Australia France Canada India Italy the United States and the Latin American region against the background of widespread disenchantment with traditional parties and the complacency and cynicism of popularly elected governments Insights into media responses reveal how dependent on media coverage the neo populist parties were and how in many cases the media were initially unequal to the confronting ideologies of the new parties Although the news media exploited the new parties new parties exploited the news media as well in quite shrewd and original ways This is an important resource for scholars students and other researchers involved with political mass communications and right wing political organizations

Myth and Reality of the Legitimacy Crisis Carolien van Ham, Jacques Thomassen, Kees Aarts, Rudy Andeweg, 2017-07-21 Theories about the decline of legitimacy or a legitimacy crisis are as old as democracy itself Yet representative democracy still exists and the empirical evidence for a secular decline of political support in established democracies is limited questionable or absent This lack of conclusive evidence calls into question existing explanatory theories of legitimacy decline How valid are theories of modernization globalization media malaise social capital and party decline if the predicted outcome i e secular decline of political support does not occur And which new explanations can account for the empirical variation in political support in established democracies This book systematically evaluates the empirical evidence for legitimacy decline in established democracies the explanatory power of theories of legitimacy decline and promises new routes in investigating and assessing political legitimacy In doing so the book provides a broad and thorough reflection on the state of the art of legitimacy research and outlines a new research agenda on legitimacy

The Nightly News Nightmare Stephen J. Farnsworth, Robert S. Lichter, 2007 Beginning with the 1988 presidential election and now updated through 2004 The Nightly News Nightmare shows how network news coverage of what is arguably the nation s most important political event has declined Through extensive analysis of news content from the Big Three and Fox acclaimed media scholars Farnsworth and Lichter compare what the candidates said with what the networks say they said and judge the disparity a nightmare The authors go on to suggest that perhaps the candidates

themselves do a better job of portraying the campaigns than those who used to be the trusted network guardians of the news
While making clear that overall coverage of the Bush Kerry race marked an improvement compared to previous elections
Farnsworth and Lichter also point out that in other ways things were worse
