Legitimizing New Religions James R. Lewis, 2003 James R Lewis has written the first book to deal explicitly with the issue of how emerging religions legitimate themselves He contends that a new religion has at least four different though overlapping areas where legitimacy is a concern making converts maintaining followers shaping public opinion and appeasing government authorities The legitimacy that new religions seek in the public realm is primarily that of social acceptance Mainstream society's acknowledgement of a religion as legitimate means recognizing its status as a genuine religion and thus recognizing its right to exist Through a series of wide ranging case studies Lewis explores the diversification of legitimation strategies of new religions as well the tactics that their critics use to delegitimize such groups Cases include the Movement for Spiritual Inner Awareness Native American prophet religions spiritualism the Church of Christ Scientist Scientology Church of Satan Heaven's Gate Unitarianism Hindu reform movements and Soka Gakkai a new Buddhist sect Since many of the issues raised with respect to newer religions can be extended to the legitimation strategies deployed by established religions this book sheds an intriguing new light on classic questions about the origin of all religions

What The Aliens Told Us About God, Jesus, Human Soul And The Afterlife Maximillien De Lafayette, 2016-07-30 What The Aliens Told Us About God Jesus Human Soul And The Afterlife From the secret aliens US meetings in 1947 and 1948 and the account of Maria Orsic Published by Times Square Press New York If you are among those who believe that our government's representatives met with aliens extraterrestrials then and logically you should entertain or consider the possibility that some of the subjects discussed during those meetings would be of a religious or at least moral or ethical nature especially since at least three powerful religious leaders in our country attended one or two meetings with aliens on an American soil In fact this

is exactly what happened And we will be discussing the concerns and the questions of those religious dignitaries the answers of the aliens and how a synopsis of the discussions between our religious leaders and aliens ended up on the desk of religious authorities thanks to their religious affiliation and or loyalty to their faith s hierarchy **Tell-A-Vision** John

The Encyclopedia of Cults, Sects, and New Religions James R. Lewis, 2001-03 Surpassing the scope and the thoroughness of the first edition this new edition of The Encyclopedia of Cults Sects and New Religions is the most wide ranging and accessible resource on the historically significant and more obscure sinister and bizarre religious groups Including many entries by scholarly specialists this volume explains more than 1 000 diverse groups and movements from such well known sects as the Branch Davidians Aum Shinrikyo and Heaven s Gate to obscure groups like Ordo Templi Satanas Witches International and the Nudist Christian Church of the Blessed Virgin Jesus In addition to an exhaustive index and handy cross references the second edition includes over a hundred new topical entries on subjects relevant to understanding sectarian movements from snake handling and satanic ritual abuse to brainwashing and exorcism This book a must for all libraries and schools will endure as the first and only point of reference for researchers scholars students and anyone interested in fringe religious groups Zarlen channelling material , The Threat David M. Jacobs, 2012-12-11 After fifty years of widespread speculation about UFOs and abductions by aliens a distinguished historian and UFO researcher presents the first evidence based explanation of alien intentions Based on over thirty years of personal research Professor Jacobs exposes the aliens profoundly alarming agenda to create a breed of alien human hybrids who will eventually colonise and control Earth He explains why aliens are here what they want and why their agenda has been kept secret In doing so he presents a disturbing picture of a profoundly changed future in which humans will be relegated to inferior status This incredible story is all the more remarkable because every account of an alien abduction is thoroughly documented and is corroborated by independent testimony This book answers in astonishing depth some of the most important questions about the UFO phenomenon that researchers have been asking since the beginning of the controversy **Teaching Mothers Mothering** Herbert Yahraes, 1977 Contemporary Spiritualities Stefania Palmisano, Nicola Pannofino, 2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements

have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious

Aliens Like Us? Anthony Aveni, 2025-03-18 In this authoritative accessible and at times funny and irreverent work distinguished anthropologist Anthony Aveni speaks to the trained astrophysicist and the curious layperson alike about a simple but previously unexplored question Why do we assume aliens if they are really out there behave just like us Aveni s newest work departs from the usual scientific treatment of extraterrestrial intelligence by probing the historical and widely neglected anthropological record which offers relevant analogous incidents of contact among terrestrial cultures Beginning with theories of the evolution of life and culture advocated by astrobiologists *Aliens Like Us* explores how the Western cultural imagination is influenced by ways of knowing that are deeply embedded in the minds of the questioners for example how we consider the ownership of property the idea of progress and even the way we classify things The lessons of anthropology offer not only value structures from other cultures that differ profoundly from our own but also testify to the diverse ways in which alien cultures interact Finally on the question of potential first contact Aveni closes with a fascinating exploration of the image of extraterrestrials in popular culture that is derived in part from the hugely influential realm of science fiction

Conceptions of Literacy Meaghan

Brewer,2020-05-01 Addressing the often fraught and truncated nature of educating new writing instructors *Conceptions of Literacy* proposes a theoretical framework for examining new graduate student instructors preexisting attitudes and beliefs about literacy Based on an empirical study author Meaghan Brewer conducted with graduate students teaching first year composition for the first time *Conceptions of Literacy* draws on narratives interviews and classroom observations to describe the conceptions of literacy they have already unknowingly established and how these conceptions impact the way they teach in their own classrooms Brewer argues that conceptions of literacy undergird the work of writing instructors and that many of the anxieties around composition studies disciplinary status are related to the differences perceived between the field s conceptions of literacy and those of the graduate instructors and adjuncts who teach the majority of composition courses *Conceptions of Literacy* makes practical recommendations for how new graduate instructors can begin to perceive and interrogate their conceptions of literacy which while influential are often too personal to recognize Above Top Secret Jim
