External Relations Dept., 2004-09-02 This paper highlights that for the IMF July 2004 marked the 60th anniversary of the conference in Bretton Woods New Hampshire when delegations from 44 allied countries drafted and agreed upon the IMF s charter The IMF s role and work have evolved in response but like any large organization its ability to change has been limited by its own rules and mandate and has been held back by inertia This year s anniversary offers an opportunity to reflect on how gaps between the reality and the ideal might be closed in the coming years *The New Public Finance* Inge Kaul, Pedro Conceicao, 2006-02-23 Globalisation has meant the closer integration of countries and a greater need for collective action This book which contains 24 essays from contributors from around the world provides one of the first systematic treatments of public finance in this new era It deals with such topics as increasing aid efficiency public private cooperation and competition and taking the outside world into consideration Debt Relief for Poor Countries T.
