Extragalactic Distance Scale:

The Extragalactic Distance Scale Space Telescope Science Institute (U.S.). Symposium, 1997-06-28 One of the hottest debates in astronomy and cosmology today concerns the value of the Hubble constant This constant is of paramount importance since it fixes the size and age of the Universe At a symposium at the Space Telescope Science Institute experts from around the world presented the latest results from a plethora of techniques for determining the Hubble constant The value has always been controversial but at this meeting experts results agreed for the first time to within about 20% Based on the meeting this book presents twenty three specially written review articles They provide a comprehensive account of the Hubble constant debate with the latest results from gravitational lensing supernovae and novae the Tully Fisher relation the Sunyaev Zeldovich effect globular clusters planetary nebulae light echoes and the Hubble Space Telescope Key Project This timely volume provides a standard reference for graduate students and researchers in astronomy and cosmology **Stellar**

Candles for the Extragalactic Distance Scale Danielle Alloin, Wolfgang Gieren, 2003-10-20 This volume reviews the current status with respect to both theory and observation of the extragalactic distance scale A sufficient accuracy is required both for a precise determination of the cosmological parameters and also in order to achieve a better understanding of physical processes in extragalactic systems The standard candles used to set up the extragalactic distance scale reviewed in this book include cepheid variables RR Lyrae variables novae Type Ia and Type II supernovae as well as globular clusters and planetary nebulae **The Extragalactic Distance Scale** Michael Solarz, 1968 *The Extragalactic Distance Scale* Christopher J. Matthews,1993-10-21 How can the interior of the Sun white dwarfs and other stars be studied by stellar seismology What can Doppler imaging tell us about high degree pulsations What impact are CCD and infrared observations having on extending the Cepheid and RR Lyrae distance scale And how are other classes of pulsators providing independent checks of the distance scale These and many other critical questions are answered in this timely review of the dramatic advances made in pulsating star research in the last decade This survey collects together more than thirty comprehensive reviews and over one hundred summaries of research papers from the 139th IAU Colloquium held in Victoria British Columbia Together these cover all aspects of recent developments in the field of variable star research and preview some of the exciting advances anticipated for the next decade This volume provides an essential review for graduate students and researchers

Post-Hipparcos Cosmic Candles Andre Heck,F. Caputo,2012-12-06 In May 1976 when one of us was temporarily associated with Stras bourg Observatory for lecturing on distance determination methods Heck 1978 Pierre Lacroute then in his last year as Director there modestly requested comments on a project he had been cherishing for quite a few years and which he had been presenting to visitors and colleagues an astrometric satellite His persuasiveness and persistence won support from the scientific community from the French space agency CNES and from the European Space Agency ESA the Hipparcos satellite was born It was fitting that Lacroute lived long enough after his retirement to attend the launch of his brainchild in 1989 and to see it successfully operational He knew however he would not enjoy the completion of this long and ambitious mission he passed away on 14 January 1993 a few days before reaching the age of 87 In May 1997 in the prestigious setting of San Giorgio Maggiore in Venice ESA organized a symposium celebrating the presentation of the Hipparcos and Tycho catalogues That conference signalled also the release of the first scientific results based at least partially on Hipparcos data An impressive proceedings volume Battrick 1997 of more than nine hundred pages gathering together almost two hundred contributions gave evidence of numerous studies in progress in addition to papers starting to appear in the classical journals The well maintained ESA Hipparcos web site <http://astro.estec.esa> **Standardization in**
