Robert R. Redfield

Eyes Of The University Right To Philosophy Meridian Crossing Aesthetics:

Eyes of the University Jacques Derrida, 2004 Completing the translation of Derrida's monumental work *Right to Philosophy* *Eyes of the University* brings together many of the philosopher's most important texts on the university and more broadly on the languages and institutions of philosophy

Handbook of Inaesthetics Alain Badiou, Alberto Toscano, 2005 This volume presents a new proposal for the link between philosophy and art Badiou identifies and rejects the three schemes of didacticism romanticism and classicism that he sees as having governed traditional aesthetics and seeks a fourth mode of accounting for the educative value of works of art

On Touching—Jean-Luc Nancy Jacques Derrida, 2005 This book written out of Derrida's long standing friendship with Jean-Luc Nancy examines the central place accorded to the sense of touch in the Western philosophical tradition

Gestures of Ethical Life David Michael Kleinberg-Levin, 2005 For Greek antiquity the question of right or fitting measure constituted the very heart of both ethics and politics But can the Good of the ethical life and the Justice of the political be reduced to measurement and calculation If they are matters of measure are they not also absolutely immeasurable In critical dialogue with texts by Plato Herderlin Rilke Heidegger Benjamin Adorno Marx Merleau Ponty Levinas and Levi the author argues that the question of measure has become ever more urgent in the context of a modernity pressured by the conditions of a technological economy and a relativism that threatens to destroy a vital sense of moral responsibility and the commitment to justice that underlies the possibility of freedom Conceived as a task for the metaphysics of memory this book explores the normative problematic of measure bringing its deeply buried redemptive promise to appearance in our gestures uses and abuses of the hands the dialectic of tact and the manners of social existence

Multiple Arts Jean-Luc Nancy, Simon Sparks, 2006 This collection of writings by the renowned French critic and poet Jean-Luc Nancy delves into the history of philosophy in order to locate a fundamentally poetic *modus operandi* representing a mix of philosophical essays writings about artworks and the author's own artistic creations

The Time That Remains Giorgio Agamben, 2005 Situating Paul's texts in the context of early Jewish messianism this book is part of a set of critiques devoted to the period when Judaism and Christianity were not fully distinct placing Paul in the context of what has been called *Judaeo Christianity* The exploration of messianism leads to the other figure discussed Walter Benjamin

Inheriting the Future Elizabeth Rottenberg, 2005 This book is an exploration of the notion of drive as it passes from Kant's need of reason to Freud's concept of hallucinatory wish fulfillment to the relentless force of indifferentiation in Flaubert's *Bouvard and Pécuchet*

Reflections on Literature and Culture Hannah Arendt, Susannah Young-ah Gottlieb, 2007 This is the first volume in any language that collects Hannah Arendt's remarkable series of essays and notes on literary figures and cultural questions

Interpretation and Difference Alan Bass, 2006 This book synthesizes Nietzsche Heidegger and Derrida on interpretation and difference in order to provide a new theory of how interpretation functions in psychoanalysis

Book of Addresses Peggy Kamuf, 2005 This book consists of a series of essays that all turn around questions of the address of speech

or writing They argue and demonstrate that meaning is not just a matter of the active intention of a subject for example speaker writer or other signatory of a meaningful act but also of its reception at another's address The book's main concern is therefore with a theory of meaning and of action that is not centered on the intentional self-conscious subject The fifteen chapters explore this problematic within three broad areas love jealousy and sexual difference fiction or literature and political or public discourse The book engages principally with contemporary French thought and includes important new readings of work by Jacques Derrida Hélène Cixous Maurice Blanchot and Jean-Luc Nancy

Rogues Jacques Derrida, 2005 Rogues published in France under the title *Voyous* comprises two major lectures that Derrida delivered in 2002 investigating the foundations of the sovereignty of the nation-state The term *tat voyou* is the French equivalent of rogue state and it is this outlaw designation of certain countries by the leading global powers that Derrida rigorously and exhaustively examines Derrida examines the history of the concept of sovereignty engaging with the work of Bodin Hobbes Rousseau Schmitt and others Against this background he delineates his understanding of democracy to come which he distinguishes clearly from any kind of regulating ideal or teleological horizon The idea that democracy will always remain in the future is not a temporal notion Rather the phrase would name the coming of the unforeseeable other the structure of an event beyond calculation and program Derrida thus aligns this understanding of democracy with the logic he has worked out elsewhere But it is not just political philosophy that is brought under deconstructive scrutiny here Derrida provides unflinching and hard-hitting assessments of current political realities and these essays are highly engaged with events of the post-9/11 world

Figures of the Thinkable Cornelius Castoriadis, 2007 A collection of articles lectures and interviews whose apparent variety touching on social criticism psychoanalysis philosophy poetry and science among others is actually strongly focused on one main idea that of autonomous creative action at the individual and collective levels

Traces Ernst Bloch, Anthony A. Nassar, 2006 Collects aphorisms essays stories and anecdotes and enacts the author's interest in showing how attention to traces can serve as a mode of philosophizing In an example of how the literary can become a privileged medium for philosophy his chief philosophical invention to begin with what gives an observer pause

American Book Publishing Record, 2003 H. C. for Life, That Is to Say... Jacques Derrida, 2006 H C for Life That Is to Say is Jacques Derrida's tribute to Hélène Cixous the author her works and their lifelong mutual reading and intellectual friendship

Psyche Jacques Derrida, 2007 A twenty-eight essay collection that is published in two volumes This work includes translations of seminal essays such as *Psyche* *Invention of the Other* *The Retrait of Metaphor* *At This Very Moment in This Work Here I Am* *Tours de Babel* and *Racism's Last Word* as well as three essays that appear in English

Matchbook David Wills, 2005 Matchbook consists of nine essays written around or in response to work published by Jacques Derrida since 1980 The focal point of the essays is the *Envois* which forms part of Derrida's Post Card Particular attention is paid to how that text articulates with the ethical and political emphases of Derrida's more recent work but also to its autobiographical conceit The incendiary reference of the book's title

underscores deconstruction's engagement with questions of reading relations between slow reading and the speed of technology and the political effects of an internationalized deconstruction in a globalized culture. It is in terms of what deconstruction can have us think about the speed of technology and technologies of reading that Derrida's work has made one of its most important contributions to philosophy and literary and cultural studies. The book concentrates on that as proof of the continued relevance of such work. *The British National Bibliography* Arthur James Wells, 2004. *Currents in the Interpretation of Paul* Neil Elliott, 2024-09-05. The apostle Paul has long been championed or criticized as a Christian thinker as a brilliant theological genius or an enthusiastic convert who spun arguments to justify his new allegiances. In these essays Neil Elliott engages some of the most provocative currents in contemporary scholarship including Paul and the nature of violence, the presumptions of religious, cultural, or national innocence in particular interpretations of the apostle, the recent enthusiasm for Paul in some streams of Marxist thought, competing construals of economic realities in Paul's day and our own, and questions surrounding Paul's legacy today. Theology and Economics Jeremy Kidwell, 2015-12-27. This volume brings together a prominent group of Christian economists and theologians to provide an interdisciplinary look at how we might use the tools of economic and theological reasoning to cultivate more just and moral economies for the 21st century.
