American Aircraft Development Second World War Legacy William J. Norton, 2021-12-02 This volume focuses on the influence of America's Second World War aviation development and experience subsequent aviation technological advances and world events in shaping American choices in military aircraft and associated weapons development during the few years following the war. It shows how air warfare weapons from the last conflict were carried forward and altered how new systems evolved from these and how the choices fared in the next war Korea. The period was one of remarkable progress in a short span of time via a great many aircraft and weapons programs and associated technological progress. These systems were of immense importance influencing and growing the engineering production and operational capabilities to be exploited for the next generation of weapons that soon followed. Emphasized is the innovative features or new technology and how these contributed to advancing American military aviation influencing the evolution of follow on models or types. Included are military prototype experimental and research aircraft that are equally important in understanding the history of American aircraft development. Combat employment progress and equipment adaptation during the Korean Conflict is then highlighted. Tabulated characteristics are provided of those aircraft that entered production or represented significant technological advances influencing others that follow. **Fighters and Bombers of World War II**, **Mustang** Steve Pace, 2017-01-20

This book covers the P-51 Mustang and each of its many variants and spin offs including the A-36 Apache F-6 Photo Mustang F-82 Twin Mustang and others. It discusses the Mustangs used by all US allies and friends in many foreign air forces. Also it adds to the story of its creation through the wise choices made by the British government and its Royal Air Force especially the transition from its original Allison V-12 to the wizard-like Rolls Royce V-12 called the Merlin. The book will be profusely illustrated with high quality mono and colour images many of which have not been published before and features beautifully drawn profiles and numerous appendices. It also features numerous first hand accounts of the Mustang in battle during World War 2, the Korean War and other conflicts. The Mustang was employed by more than 55 nations during its military lifetime and this book is a definitive work on this fabulous war horse. **Modelling the P-51 Mustang** Stan

Spooner, 2012-02-20 The North American P-51 Mustang had a humble genesis as a British request for single engine escort fighters but became arguably World War II's most important fighter aircraft. It had incredible endurance, fantastic maneuverability and excellent high altitude performance and served throughout World War II and beyond. This aircraft is one that holds a great deal of interest for many modellers around the world. This book takes the modeller from the aircraft's beginnings to the ultimate manifestation of this elegant and deadly bird, the F-82 G-H Twin Mustang. Special attention is paid to painting both interiors and exteriors with a wide range of different schemes used. **Forthcoming Books** Rose
