IS A
CONSERVATIVE

Religion,
Politics,
and Morality in
Contemporary
America

With a
New Preface

"O My people, which are called by
My name, shall humble themselves,
and pray, and seek My face, and turn
from their wicked ways; then will I
hear from heaven, and will forgive
their sin, and will heal their land."
Jeremiah 29:13

God Is A Conservative Religion Politics And Morality In Contemporary America:

God is a Conservative Kenneth J. Heineman, 1998-08-01 From Billy Graham and Ronald Reagan to Newt Gingrich and William Bennett *God is a Conservative* provides an important look at the role of religion in conservative politics in modern America Kenneth J Heineman reveals the profoundly religious nature of contemporary conservatism offering an intriguing look at the social history of moral politics over the last three decades and the still tremulous aftershocks of the New Deal With a new Preface that examines the Bush presidency including a provocative analysis of his re election and the rising influence of the Conservative Right *God is a Conservative* is essential reading for understanding today s American political landscape

God is a Conservative Kenneth J. Heineman, 1998 From Billy Graham and Ronald Reagan to Newt Gingrich and William Bennett *God is a Conservative* provides an important look at the role of religion in conservative politics in modern America Kenneth J Heineman reveals the profoundly religious nature of contemporary conservatism offering an intriguing look at the social history of moral politics over the last three decades and the still tremulous aftershocks of the New Deal With a new Preface that examines the Bush presidency including a provocative analysis of his re election and the rising influence of the Conservative Right *God is a Conservative* is essential reading for understanding today s American political landscape

Religion and Politics in the Contemporary United States R. Marie Griffith, Melani McAlister, 2008-06-09 This collection of essays from a special issue of *American Quarterly* explores the complex and sometimes contradictory ways that religion matters in contemporary public life *Religion and Politics in the Contemporary United States* offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from Cesar Chavez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States

Legislating Morality in America Donald P. Haider-Markel, 2020-01-07 This title undertakes an impartial authoritative and in depth examination of the moral arguments and ideas behind the laws and policies that govern personal corporate and government behavior in the United States This A Z encyclopedia surveys the moral arguments that provide the

foundation for many of the most important and or divisive laws policies and beliefs that govern modern American society The work discusses such controversial and important issues as abortion civil rights drugs and alcohol euthanasia guns hate crimes immigration immunization natural resource use and protection prostitution same sex marriage and workplace laws In the process of surveying historical and current beliefs about appropriate legislative responses to these issues this work will help readers to understand how conservative and liberal conceptions of justice fairness and morality are at the center of so many hot button political and social issues in 21st century America The essays featured in the volume cover wide ranging and controversial topics related to constitutional and religious freedoms crime and punishment sexuality and reproduction environmental protection and public health national security and civil liberties social welfare programs and education

Evangelicalism Richard Kyle, 2017-09-20 Most forms of religion are best understood in the context of their relationship with the surrounding culture This may be particularly true in the United States Certainly immigrant Catholicism became Americanized mainstream Protestantism accommodated itself to the modern world and Reform Judaism is at home in American society In *Evangelicalism* Richard Kyle explores paradoxical adjustments and transformations in the relationship between conservative Protestant Evangelicalism and contemporary American culture Evangelicals have resisted many aspects of the modern world but Kyle focuses on what he considers their romance with popular culture Kyle sees this as an Americanized Christianity rather than a Christian America but the two are so intertwined that it is difficult to discern the difference between them Instead in what has become a vicious self serving cycle Evangelicals have baptized and sanctified secular culture in order to be considered culturally relevant thus increasing their numbers and success within abundantly populous and populist driven American society In doing so Evangelicalism has become a middle class movement one that dominates America's culture and unabashedly populist Many Evangelicals view America as God's chosen nation thus sanctifying American culture consumerism and middle class values Kyle believes Evangelicals have served themselves well in consciously and deliberately adjusting their faith to popular culture Yet he also thinks Evangelicals may have compromised themselves and their future in the process so heavily borrowing from the popular culture that in many respects the Evangelical subculture has become secularism with a light gilding of Christianity If so he asks can Evangelicalism survive its own popularity and reaffirm its religious origins or will it assimilate and be absorbed into what was once known as the Great American Melting Pot of religions and cultures Will the Gospel of the American dream ultimately engulf and destroy the Gospel of Evangelical success in America This thoughtful and thought provoking volume will interest anyone concerned with the modern day success of the Evangelical movement in America and the aspirations and fate of its faithful

The Reagan Revolution and the Rise of the New Right Kenneth J. Heineman, 2021-06-24 For students of U S history *The Reagan Revolution* explores how a Hollywood upstart and eventual conservative leader became one of the most successful and influential presidents in U S history one whose presidency helped to define the end of the Cold War This book covers Ronald

Reagan's long rise to the presidency and the conservative political revolution he brought about in the 1980s. Spurning the moderate values and policies Republicans had previously championed, Reagan's revolution continues to play an outsized role in America's political life. This important reference book gives browsers and readers alike an opportunity to focus on many of the intertwined issues of the 1980s: abortion, gay rights, law and order, the Cold War, tax cuts, deindustrialization, the Religious Right, and the political divisions that made Reagan's legislative victories possible. The book opens with a concise biography covering Reagan's rise from radio personality and actor to governor and president. Subsequent chapters cover politics and policy. Chapters also include an important review of Reagan's legendary public relations operations, morning in America, and the perfection of the television photo op, and the ways in which 1980s popular culture influenced and was influenced by his presidency. This section portrays Reagan as a product of Hollywood who keenly understood the importance of public opinion and creating a positive image.

Cowboy Conservatism Sean P. Cunningham, 2022-11-15 Cunningham provides a vivid, informative, and frequently insightful chronicle of Texas politics between 1963 and 1980. *Journal of American History* During the 1960s and 1970s, Texas was transformed by a series of political transitions. After more than a century of Democratic politics, the state became a Republican stronghold virtually overnight, and by 1980 it was known as Reagan Country. Ultimately, Republicans dominated the Texas political landscape, holding all twenty-seven of its elected offices and carrying former governor George W. Bush to his second term as president with more than 61 percent of the Texas vote. In *Cowboy Conservatism*, Sean P. Cunningham examines the remarkable origins of Republican Texas. Utilizing extensive research drawn from the archives of four presidential libraries, gubernatorial papers, local campaign offices, and oral histories, Cunningham presents a compelling narrative of modern conservatism as it evolved in one of the nation's largest and most politically important states. Cunningham analyzes the political changes that took place in Texas during the tumultuous seventeen-year period between John F. Kennedy's assassination and the election of Ronald Reagan. He explores critical issues related to the changing political scene in Texas, including the emergence of law and order, race relations, and civil rights; the slumping economy; the Vietnam War; and the rise of a politically active Christian Right, as well as the role of iconic politicians such as Ronald Reagan, Jimmy Carter, John Connally, and John Tower. *Cowboy Conservatism* demonstrates Texas's distinctive and vital contributions to the transformation of postwar American politics, revealing a vivid portrait of modern conservatism in one of the nation's most fervent Republican strongholds.

Apocalyptic Fever Richard G. Kyle, 2012-08-01 How will the world end? Doomsday ideas in Western history have been both persistent and adaptable, peaking at various times, including in modern America. Public opinion polls indicate that a substantial number of Americans look for the return of Christ or some catastrophic event. The views expressed in these polls have been reinforced by the market process. Whether through purchasing paperbacks or watching television programs, millions of Americans have expressed an interest in end-time events. Americans have a tremendous appetite for prophecy more than nearly any other people in the modern world. Why do

Americans love doomsday In *Apocalyptic Fever* Richard Kyle attempts to answer this question showing how dispensational premillennialism has been the driving force behind doomsday ideas Yet while several chapters are devoted to this topic this book covers much more It surveys end time views in modern America from a wide range of perspectives dispensationalism Catholicism science fringe religions the occult fiction the year 2000 Islam politics the Mayan calendar and more

The Next Religious Establishment Eldon J. Eisenach, 2000 America cannot survive without a common faith History has taught us that our national identity and our political order require voluntary religious and civic organizations Following the social political and cultural upheavals of the 1960s Americans are now engaged in a struggle to determine the future of our nation s character and destiny So argues prominent political theorist Eldon J Eisenach in this brilliant and controversial new book Contentious debates over multiculturalism church state relations and immigration illustrate America s current identity crisis Creating a common vision for America is no easy task but Eisenach describes how the moral and spiritual foundations of a new coherent American identity and faith are already emerging As in the past the next religious establishment s primary expression will be a political and cultural order that mediates and integrates personal ethnic religious and civic identities The Next Religious Establishment alerts readers to the changing landscape of America s identity and invites us to participate in its redefinition This book will profoundly alter the way political theorists intellectual historians and theologians conceptualize America s past present and future

Religion, Politics, and Globalization Galina Lindquist, Don Handelman, 2012-11 While social scientists beginning with Weber envisioned a secularized world religion today is forthrightly becoming a defining feature of life all around the globe The complex connections between religion and politics and the ways in which globalization shapes these processes are central themes explored in this volume by leading scholars in the field of religion Does the holism of numerous past and present day cosmologies mean that religions with their holistic orientations are integral to human existence What happens when political ideologies and projects are framed as transcendental truths and justified by Divine authority How are individual and collective identities shaped by religious rhetoric and what are the consequences Can mass murder deemed terrorism be understood as a form of ritual sacrifice and if so what are the implications for our sensibilities and practices as scholars and citizens Using empirical material from historical analyses of established religions to the everyday strife of marginalized groups such as migrants and dissident movements this volume deepens the understanding of processes that shape the contemporary world

Not in This Family Heather Murray, 2012-02-10 Many Americans hold fast to the notion that gay men and women more often than not have been ostracized from disapproving families Not in This Family challenges this myth and shows how kinship ties were an animating force in gay culture politics and consciousness throughout the latter half of the twentieth century Historian Heather Murray gives voice to gays and their parents through an extensive use of introspective writings particularly personal correspondence and diaries as well as through published memoirs fiction poetry song lyrics movies and visual and print media Starting in the late 1940s and 1950s Not in This Family

covers the entire postwar period including the gay liberation and lesbian feminist movements of the 1960s and 1970s the establishment of PFLAG Parents Families and Friends of Lesbians and Gays and the AIDS crisis of the 1980s and 1990s Ending her story with an examination of contemporary coming out rituals Murray shows how the personal that was once private became political and finally public In exploring the intimate reciprocal relationship of gay children and their parents Not in This Family also chronicles larger cultural shifts in privacy discretion and public revelation and the very purpose of family relations Murray shows that private bedrooms and consumer culture social movements and psychological fashions all had a part to play in transforming the modern family

Caesar Ate My Jesus Meg Gorzycki, 2017-06-09 What the hell happened on the way to making the world a better place We boomers were told our success would be unlimited We had democracy and capitalism and God was on our side We took our religious teachings seriously and set out to end bigotry violence and destitution Inevitably we collided with American Caesars whose power and wealth was sufficient to dominate national and international affairs Political and religious Caesars appropriated Jesus and used him to justify war sexism racism dictatorships and poverty What were the faithful to do Lots of boomers I know tossed the spiritual baby out with the religious institution's bathwater and became cynical about civic engagement It is not time to abandon hope in our goodness however and it is not time to surrender our conscience to Caesar Our experiences as boomers teach us that it is possible to bring the love of God to bear in our lives despite Caesar's constant pressure to cherish power wealth celebrity and things more than we cherish people This book is for folks who are ready to get off Caesar's treadmill and dig deeply into their hearts and minds to see what remains of the Kingdom of God within

Filled with the Spirit Ellen Lewin, 2018-04-24 In 2001 a collection of open and affirming churches with predominantly African American membership and a Pentecostal style of worship formed a radically new coalition The group known now as the Fellowship of Affirming Ministries or TFAM has at its core the idea of radical inclusivity the powerful assertion that everyone no matter how seemingly flawed or corrupted has holiness within Whether you are LGBT have HIV AIDS have been in prison abuse drugs or alcohol are homeless or are otherwise compromised and marginalized TFAM tells its people you are one of God's creations In *Filled with the Spirit* Ellen Lewin gives us a deeply empathetic ethnography of the worship and community central to TFAM telling the story of how the doctrine of radical inclusivity has expanded beyond those it originally sought to serve to encompass people of all races genders sexualities and religious backgrounds Lewin examines the seemingly paradoxical relationship between TFAM and traditional black churches focusing on how congregations and individual members reclaim the worship practices of these churches and simultaneously challenge their authority The book looks closely at how TFAM worship is legitimated and enhanced by its use of gospel music and considers the images of food and African American culture that are central to liturgical imagery as well as how understandings of personal authenticity tie into the desire to be filled with the Holy Spirit Throughout Lewin takes up what has been mostly missing from our discussions of race gender and sexuality close attention

to spirituality and faith An American Stand Eric R. Crouse, 2010-07-17 Margaret Chase Smith was the first woman in American history elected in both the House of Representatives and the Senate the first politician to take a public stand against McCarthyism and the first woman of a major political party to run for president of the United States An American Stand Senator Margaret Chase Smith and the Communist Menace 1948 1972 explores her engagement with the masculine issue of national defense An unyielding foe of global communism this Republican senator was the first female Cold Warrior During the Korean War she voiced strident anti communist rhetoric in her newspaper column Her energetic support for nuclear superiority in the fifties and sixties caused Nikita Khrushchev to describe her as Satan in the guise of a woman In the face of growing opposition to America's involvement in Vietnam Smith remained committed to a clear stand against violent communist expansion This book examines the exposition of the communist menace and the Cold War as a fight between good and evil without sanitization of communist leaders ruthless actions For Smith and many others America's fight against global communism despite appalling sacrifices of lives and money made sense because they believed that communism was a vicious expansionist system with little respect for human life and freedom **Religion and Politics in America** Frank J. Smith, 2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students Sister Saints Colleen McDannell, 2019 Sister Saints offers a history of modern Mormon women and argues that we are on the verge of an era in which women are likely to play a greater role in the Mormon church *Norman Podhoretz and Commentary Magazine* Nathan Abrams, 2011-10-27 What does the term neoconservative mean Who are we talking about and where did they come from Abrams answers those very questions through a detailed and critical study of neoconservatism's leading thinker Norman Podhoretz and the magazine he edited for 35 years Commentary Podhoretz has been described as the conductor of the neocon orchestra and through Commentary Podhoretz powerfully shaped neoconservatism Rich in research the book is based upon a wide range of sources including archival and other material never before published in the context of

Commentary magazine including Podhoretz's private papers It argues that much of what has been said about neoconservatism is the product of willful distortion and exaggeration both by the neoconservatives themselves and their many enemies From this unique perspective Abrams examines the origins rise and fall of neoconservatism In understanding Podhoretz a figure often overlooked this book sheds light on the origins ideas and intellectual pedigree of neoconservatism

The Routledge History of Twentieth-Century United States Jerald Podair, Darren Dochuk, 2018-05-02 The Routledge History of the Twentieth Century United States is a comprehensive introduction to the most important trends and developments in the study of modern United States history Driven by interdisciplinary scholarship the thirty four original chapters underscore the vast range of identities perspectives and tensions that contributed to the growth and contested meanings of the United States in the twentieth century The chronological and topical breadth of the collection highlights critical political and economic developments of the century while also drawing attention to relatively recent areas of research including borderlands technology and disability studies Dynamic and flexible in its possible applications The Routledge History of the Twentieth Century United States offers an exciting new resource for the study of modern American history

Vietnam War Era Mitchell K. Hall, 2009-05-20 An insightful look into the immediate and long term impact of the Vietnam War on a wide range of people and social groups both Americans in the United States and in Vietnam This collection of essays by highly respected social historians looks at the Vietnam War era through the eyes of the ordinary citizens caught up in those tumultuous times Focusing on the period between 1961 and 1975 from the dramatic U S military escalation to the fall of Saigon it offers fresh insight on the impact of the war on individuals on the home front and the battlefield Each chapter of Vietnam War Era People and Perspectives examines how a particular group of Americans interacted with the war and its related issues among them military advisors and soldiers the silent majority and antiwar activists women labor unions African Americans students government leaders veterans the media and religious communities The authors draw clear connections between the stories of individual lives and the larger social movements that defined the era's human drama

The New White Nationalism in America Carol M. Swain, 2002-06-10 The author hopes to educate the public regarding white nationalists
