God Is Dead Secularization In The West:

God is Dead Steve Bruce, 2002-05-07 Drawing on an international range of examples Steve Bruce offers a comprehensive and up to date defence of the secularisation debate If God is Dead, Everything is Permitted? Guenter Lewy, 2017-07-28 Dostoevsky's dictum that when God is dead everything is permitted can have several meanings It can refer to the behavior of individuals suggesting that someone who is or becomes an unbeliever will conduct himself immorally Alternatively the saying can pertain to the moral character of an entire country and mean a society that rejects God is doomed to moral decay Guenter Lewy presents a few of the major arguments of those who question the relationship between morality and religion and examines the case for the continuing dependence of morality upon religion Beginning with Dostoevsky's *The Brothers Karamazov* Lewy introduces the reader to the position that morality depends on religious belief He then follows the idea throughout history from its origin to its extension during the Enlightenment to the Victorians to the roots of atheism Lewy then presents a critical discussion of Sweden as a model of a secular nation where morality is retained although most of the population is not religious He shows that Sweden offers a serious and unique illustration of how democracy and morality can flourish in a post modern environment *If God is Dead Everything is Permitted* as the author acknowledges is more of an essay than a seamless history of the relationship of religion and morality Lewy's fascination with the intersection and influence of religion on morality is not a new topic Indeed the discussion is important and alive today in light of new technological and scientific advances Although Lewy may not put closure to the debate about whether morality is dependent on religion the evidence presented here sheds light on the morality of today by examining its historical past **Secularisation in the Christian World** Callum G. Brown, Michael Francis Snape, 2010 *Secularisation in the Christian World* brings together leading scholars in the social history of religion and the sociology of religion to explore what we know about the decline of organised Christianity in Britain Europe the United States Canada and Australia With contributors from eight countries the volume also brings together many nations for the first consolidated international consideration of recent themes in de Christianisation The Modernist God State Michael Lackey, 2012-03-15 *The Modernist God State* seeks to overturn the traditional secularization approach to intellectual and political history and to replace it with a fuller understanding of the religious basis of modernist political movements Lackey demonstrates that Christianity instead of fading after the Enlightenment actually increased its power by becoming embedded within the concept of what was considered the legitimate nation state thus determining the political agendas of prominent political leaders from King Leopold II to Hitler Lackey first argues that novelists can represent intellectual and political history in a way that no other intellectual can Specifically they can picture a subconscious ideology which often conflicts with consciously held systems of belief short circuiting straight into political action an idea articulated by E M Forster Second in contrast to many literary scholars who discuss Hitler and the Nazis without studying and quoting their texts Lackey draws his conclusions from close readings of their writings In doing so

he shows that one cannot understand the Nazis without taking into account the specific version of Christianity underwriting their political agenda **The Decline of Established Christianity in the Western World** Paul Silas Peterson, 2017-09-22 While Church attendance in the West is often cited as being in decline it is argued that this applies primarily to the older established forms of Christianity Other expressions of the faith are in fact stable or even growing This volume provides multidisciplinary interpretations of and responses to one of the most complicated and controversial issues regarding the global transformation of Christianity today the decline of established Christianity in the Western world It also addresses the future of Christianity in the West after the decline Drawing upon historical research sociology religious studies philosophy and theology an international panel of contributors provide new theoretical frameworks for understanding this decline and offer creative suggestions for responding to it Established Christianity is conceptualized as historically culturally socially and politically embedded religion with or without official established status This is a dynamic volume that gives fresh perspective on one of the great social changes taking place in the West today As such it will be of great interest to scholars of religious sociology history and anthropology as well as theologians **The Mass and Modernity** Jonathan Robinson, 2010-11-12 Many in the Church have accepted modernity in their effort to speak to the modern world and not nearly enough attention has been given to trying to disentangle the complex of ideas and half formulated convictions that constitute this mind set which is in fact contrary to Christianity The first aim of this book is to examine the origins and present day influence of modernity and then to argue that there is nothing in the Christian s concern for the modern world that requires accepting this damaging mind set in connection with the highest form of worship the Mass The second aim of the book is to show that that the sources of a genuine liturgical renewal are to be found in a heightened sense of the centrality of the Mass and a return to a theology compatible with the Catechism of the Catholic Church Fr Robinson s book is a philosopher s gift to the Catholic liturgy He provides a thoroughly lucid account of the climate of ideas which handicaps the celebration of Catholic worship in the modern world This is a diagnosis which shows just how far reaching must be the cure Fr Aidan Nichols Author Looking at the Liturgy **Playing On: Re-staging the Passion after the Death of God** Mirella Klomp, 2020-09-25 In Playing On Re staging the Passion after the Death of God Mirella Klomp shows how the Dutch playfully rediscover Christian heritage Engaging theologically with a public Passion play she demonstrates how precisely a production of Jesus last hours carves out a new and unexpected space for God in a post secular culture **The ^AOxford Handbook of Religion, Conflict, and Peacebuilding** Atalia Omer, R. Scott Appleby, David Little, 2015-03-02 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field Religion and Power David Martin, 2016-04-08 There are few more contentious issues than the relation of faith to power or the suggestion that religion is irrational compared with politics and peculiarly prone to violence The former claim is associated with Juergen Habermas and

the latter with Richard Dawkins In this book David Martin argues against Habermas that religion and politics share a common mythic basis and that it is misleading to contrast the rationality of politics with the irrationality of religion In contrast to Richard Dawkins and New Atheists generally Martin argues that the approach taken is brazenly unscientific and that the proclivity to violence is a shared feature of religion nationalism and political ideology alike rooted in the demands of power and social solidarity The book concludes by considering the changing ecology of faith and power at both centre and periphery in monuments places and spaces

Save Europe Ted Kim,2021-02-11 Europe is a continent of ironies There are beautiful historic church buildings but they are empty on Sunday mornings Europeans have been surrounded by Christianity for centuries but Christ is not in them Is this the future of Christianity in Europe May it never be The author combines cultural analysis with a prophetic insight to propose a new direction for the European churches The decline of Christianity in Europe has been necessary to shed excess baggage The beautiful heritage of Christianity in Europe is truly wonderful but that is not the essence of Christianity Churches must return to the original priorities of the faith Be a fisher of men Do not assume that people already know about Christianity but are not interested People may not be interested in religion but Jesus has an irresistible appeal Christianity cannot be reinvented but churches can If churches stop presuming that Europeans are already Christians and instead compete in the marketplace of ideas they will be able to win back the hearts of the post Christian Europeans Europe is the most important mission field of the twenty first century and the fiercest spiritual contest will take place in Europe If you desire to be a servant of the Lord ask him to send you into the harvest field of Europe Exciting days are ahead of us

Two Tales of the Death of God Stephen LeDrew,2024 A profound cultural shift is taking place in western societies religion is in decline and secular worldviews are on the rise At the same time religion is taking more overtly political shapes and still affects our world in important sometimes dangerous ways This book examines two rival explanations for these trends critiquing the popular notion that God has been killed by modern science and offering a fresh take that draws on research in the social sciences to argue that greater socio economic equality and moral values that favor tolerance are at the heart of our collective drift away from organized faith

Society without God, Second Edition Phil Zuckerman,2020-07-21 An updated edition showcasing the social health of the least religious nations in the world Religious conservatives around the world often claim that a society without a strong foundation of faith would necessarily be an immoral one bereft of ethics values and meaning Indeed the Christian Right in the United States has argued that a society without God would be hell on earth In *Society without God Second Edition* sociologist Phil Zuckerman challenges these claims Drawing on fieldwork and interviews with more than 150 citizens of Denmark and Sweden among the least religious countries in the world he shows that far from being inhumane crime infested and dysfunctional highly secular societies are healthier safer greener less violent and more democratic and egalitarian than highly religious ones *Society without God* provides a rich portrait of life in a secular society exploring how a culture without faith copes with death grapples with the

meaning of life and remains content through everyday ups and downs This updated edition incorporates new data from recent studies updated statistics and a revised Introduction as well as framing around the now more highly developed field of secular studies It addresses the dramatic surge of irreligion in the United States and the rise of the nones and adds data on societal health in specific US states along with fascinating context regarding which are the most religious and which the most secular

Losing Our Religion? Kevin Ronald Ward,2013-10-22 Church going in most Western societies has declined significantly in the wake of the social and cultural changes that began in the 1960s Does this mean that people in these societies are losing any religious dimension in their lives or is it being expressed in other forms and places This study begins by looking at comparative data on how church going patterns have changed in five countries Britain the United States Canada Australia and New Zealand examining reasons for the decline how churches have responded to these changes and why some churches have shown greater resilience It then explores some of the particular challenges these changes pose for the future of churches in these societies and some of the responses that have been made drawing on both sociological and theological insights The conclusion is that despite the loss of belonging believing persists and religion continues to play a significant role in these societies mediated in a variety of diffuse cultural forms Cases illustrating these changes are largely drawn from New Zealand which as the country most recently settled by Europeans has always been secular and thus provides helpful insights

Eastern Orthodox Christianity and American Higher Education Ann Mitsakos Bezzerides,Elizabeth H. Prodromou,2017-01-15 Over the last two decades the American academy has engaged in a wide ranging discourse on faith and learning religion and higher education and Christianity and the academy Eastern Orthodox Christians however have rarely participated in these conversations The contributors to this volume aim to reverse this trend by offering original insights from Orthodox Christian perspectives that contribute to the ongoing discussion about religion higher education and faith and learning in the United States The book is divided into two parts Essays in the first part explore the historical experiences and theological traditions that inform and sometimes explain Orthodox approaches to the topic of religion and higher education in ways that often set them apart from their Protestant and Roman Catholic counterparts Those in the second part problematize and reflect on Orthodox thought and practice from diverse disciplinary contexts in contemporary higher education The contributors to this volume offer provocative insights into philosophical questions about the relevance and application of Orthodox ideas in the religious and secular academy as well as cross disciplinary treatments of Orthodoxy as an identity marker pedagogical framework and teaching and research subject

Beyond the Death of God Simone Raudino,Patricia Sohn,2022-05-26 This volume offers a nuanced picture with specific

instances of religion and politics in Muslim Jewish Christian Buddhist and Hindu contexts broadly presenting the phenomenon of religion and politics via country and thematic case studies Qualitative quantitative material philosophical and theological analyses draw upon social theory to show how and why religion matters deeply in each time and place The authors and contributors demonstrate that religion is a significant force that drives societies and politics around the world and that a radical change in the Western understanding of value driven global politics is needed Beyond the Death of God offers new local voices to Western audiences through essays that suggest the need for an appreciation of Divinity as a quintessence holding a significant place in the hearts minds social orders and political organization of politics around the world

God and Passion in Kierkegaard's Climacus Johannes Corrodi Katzenstein, 2007 Johannes Corrodi Katzenstein offers a contribution to the current debate on Kierkegaard mostly concerning the rationality of religious belief and the presumed religious neutrality autonomy of philosophical and scientific thought More specifically his book is an attempt to relate Kierkegaard's theory of the stages of life aesthetic ethical religious to issues that have been of utmost concern to Anglo American analytical philosophy such as the nature of truth rational knowledge objectivity etc From this angle Kierkegaard turns out to be not the irrationalist he has often been made into but rather the outspoken witness of a passion that guides all thinking i e the passion to think what cannot be thought An attempt is made to show that for Kierkegaard anticipating some of the arguments of contemporary postsecular philosophy the ideal of pure or autonomous reason inevitably has its basis in a pre rational often tacit commitment to an origin whose primary home is in religious faith Rather than precluding dialogue awareness of these deeper forces and starting points of our various philosophical and scientific outlooks is a critical requirement for mutual understanding between secularist and religious perspectives and traditions competing for cultural and political dominance

Religion Hent de Vries, 2008 What do we talk about when we talk about religion Is it an array of empirical facts about historical human civilizations Or is religion what is in essence unpredictable perhaps the very emergence of the new In what ways are the legacies of religion its powers words things and gestures reconfiguring themselves as the elementary forms of life in the twenty first century Given the Latin roots of the word religion and its historical Christian uses what sense if any does it make to talk about religion in other traditions Where might we look for common elements that would enable us to do so Has religion as an overarching concept lost all its currency or does it ineluctably return sometimes in unexpected ways the moment we attempt to do without it This book explores the difficulties and double binds that arise when we ask What is religion Offering a marvelously rich and diverse array of perspectives it begins the task of rethinking religion and religious studies in a contemporary world Opening essays on the question What is religion are followed by clusters exploring the relationships among religion theology and philosophy and the links between religion politics and law Pedagogy is the focus of the following section Religion is then examined in particular contexts from classical times to the present Pentecostal revival leading into an especially rich set of essays on religion materiality and

mediatization The final section grapples with the ever changing forms that religion is taking such as spirituality movements and responses to the ecological crisis Featuring the work of leading scholars from a wide array of disciplines traditions and cultures Religion Beyond a Concept will help set the agenda for religious studies for years to come It is the first of five volumes in a collection entitled The Future of the Religious Past the fruit of a major international research initiative funded by the Netherlands Organization for Scientific Research *A New Dawn, or the Fading of the Light? Culture and Evangelization Today* John C. Gallagher C.S.B., 2019-12-05 Parents are disheartened when their children fall away from religious practice Pastoral workers wonder how they can get people to take religion seriously Something is at work that is puzzling but we can learn something useful about it A crucial factor is the role of culture To have faith is an act of individual responsibility but it can also be influenced by life around us For example popular opinion or concentration on making a fortune can make us deaf to any message about what lies beyond our immediate concerns This book is the fruit of the author's extensive study of how cultural forces influence attitudes Calling on long experience lecturing and in pastoral ministry he shows how cultural factors influence religious belief in our times and how ordinary believers can be active participants in creating a culture that opens us to God's word Importing Faith Glyn J. Ackerley, 2016-07-28 Many twenty first century evangelical charismatics in Britain are looking for a faith that works They want to experience the miraculous in terms of healings and Godsent financial provision Many have left the mainstream churches to join independent charismatic churches led by those who are perceived to have special insights and to teach principles that will help believers experience the miraculous But all is not rosy in this promised paradise and when people are not healed or they remain poor they are often told that it is because they did not have enough faith This study discovers the origin of the principles that are taught by some charismatic leaders Glyn Ackerley identifies them as the same ideas that are taught by the positive confession health wealth and prosperity movement originating in the United States The origins of the ideas are traced back to New Thought metaphysics and its background philosophies of subjective idealism and pragmatism These principles were imported into the UK through contact between British leaders and those influenced by American word of faith teachers Glyn Ackerley explains the persuasiveness of such teachers by examining case studies suggesting their miracles may well have social and psychological explanations rather than divine origins
