Godly Learning:

Godly Learning John Morgan, 1988-03-31 *Godly Learning* attempts to establish the relationship which Puritans worked out between faith and reason in the eighty years before the Civil War This was a period of rapid expansion of educational facilities of a clash between humanist values of the Renaissance and the fideism of the Reformation and of confrontations between traditionalist primarily Aristotelian approaches to knowledge and the more experimental path signalled by Bacon Taking an existential approach to the question of meaning Puritans sought their solution in the development of a covenant theology based on a life of active faith They argued vehemently that natural reason was incapable of finding the path to salvation and only faith could regenerate reason to its proper capabilities At the same time Puritans emphasised the value of learning for comprehension of Scripture and preparation of sermons Starting with a fresh approach to the question of defining Puritans *Godly Learning* proceeds to delineate the infrequently studied puritan mentalit which informed the better known public political and ecclesiological positions Not since the work of Perry Miller has there been such a thorough attempt to comprehend the Puritan view of reason and the implications of that view

Children and Childhood in Western Society Since 1500 Hugh Cunningham, 2014-07-10 This book investigates the relationship between ideas about childhood and the actual experience of being a child and assesses how it has changed over the span of five hundred years Hugh Cunningham tells an engaging story of the development of ideas about childhood from the Renaissance to the present taking in Locke Rosseau Wordsworth and Freud revealing considerable differences in the way western societites have understood and valued childhood over time His survey of parent child relationships uncovers evidence of parental love care and in the frequent cases of child death grief throughout the period concluding that there was as much continuity as change in the actual relations of children and adults across these five centuries For undergraduate courses in History of the Family European Social History History of Children and Gender History
