Benjamin Bennett

Goethes Theory Of Poetry Faust And The Regeneration Of Language:

Goethe's Theory of Poetry Benjamin Bennett, 1986 **Goethe's Theory of Poetry** Benjamin Bennett, *Goethe Yearbook 17* Daniel Purdy, 2010-01-15 This is the 17th volume of a series which provides criticism on works by Goethe It contains readings of Goethe's works and perspectives on Goethe as a writer Byron, Shelley and Goethe's Faust Ben Hewitt, 2017-07-05 The first part of Goethe's dramatic poem *Faust* 1808 one of the great works of German literature grabbed the attention of Byron and Percy Shelley in the 1810s engaging them in a shared fascination that was to exert an important influence over their writings In this comparative study Ben Hewitt explores the links between *Faust* and Byron's and Shelley's works connecting Goethe and the two English Romantic poets in terms of their differing intricately related experiments with epic In so doing Hewitt enters the three writers into a literary and philosophical dialogue concerning epic and tragic perspectives on human knowledge and potential perspectives crucial to the very structure and significance of Goethe's masterpiece and illuminates hitherto unacknowledged affinities between these key figures in Romantic literature and between British and German Romanticisms **Seeking Meaning for Goethe's Faust** J. M. van der Laan, 2007-04-01 Goethe's *Faust* Parts I and II 1808 1832 is one of the most important texts in German and World Literature this monograph offers a new original analysis of the text and its significance today *The Literature of Weimar Classicism* Simon Richter, 2005 New essays providing an account of the shaping beliefs preoccupations motifs and values of Weimar Classicism In Germany Weimar Classicism roughly the period from Goethe's return to Germany from Italy in 1788 to the death of his friend and collaborator Schiller in 1805 is widely regarded as an apogee of literary art But outside of Germany Goethe is considered a Romantic and the notion of Weimar Classicism as a distinct period is viewed with skepticism This volume of new essays regards the question of literary period as a red herring Weimar Classicism is best understood as a project that involved the ambitious attempt not only to imagine but also to achieve a new quality of wholeness in human life and culture at a time when fragmentation division and alienation appeared to be the norm By not succumbing to the myth of Weimar and its literary giants but being willing to explore the phenomenon as a complex cultural system with a unique signature this book provides an account of its shaping beliefs preoccupations motifs and values Contributions from leading German British and North American scholars open up multiple interdisciplinary perspectives on the period Essays on the novel poetry drama and theater are joined by accounts of politics philosophy visual culture women writers and science The reader is introduced to the full panoply of cultural life in Weimar its accomplishments as well as its excesses and follies Emancipatory and doctrinaire by turns the project of Weimar Classicism is best approached as a complex whole Contributors Dieter Borchmeyer Charles Gair Gail Hart Thomas Saine Jane Brown Cyrus Hamlin Roger Stephenson Elisabeth Krimmer Helmut Pfotenbauer Benjamin Bennett Astrida Orle Tantiillo W Daniel Wilson Simon J Richter is Associate Professor of German at the University of Pennsylvania *The Literature of German Romanticism* Dennis F. Mahoney, 2004 Sharply focused essays on

the most significant aspects of German Romanticism This volume of sharply focused essays by an international team of scholars deals not only with the most significant literary philosophical and cultural aspects of German Romanticism one of the most influential albeit highly controversial movements in the history of German literature but also with the history and status of scholarship on the literature of the period The introduction and first section establish an overall framework by placing German Romanticism within a European context that includes its English counterpart Goethe and Schiller are considered as are the Jena Romantics The second section is organized according to the traditional distinctions between epic dramatic and lyric modes of writing while realizing that particularly in the Romantic novel there was an attempt to blend these three A final group of essays focuses on German literary Romanticism's relation to other aspects of German culture folklore studies politics psychology natural science gender presentation and representation music and visual art Contributors Gerhard Schulz Arnd Bohm Richard Littlejohns Gerhart Hoffmeister Ulrich Scheck Claudia Stockinger Bernadette Malinowski Fabian Lampart Klaus Peter Gabriele Rommel Martha B Helfer Kristina Muxfeldt Beate Allert Paul Bishop and R H Stephenson Nicholas Saul Dennis F Mahoney is Professor of German and Director of the European Studies Program at the University of Vermont

Goethe's Faust John R. Williams, 2020-01-30 Originally published in 1987 this is a thorough and lucid introduction and commentary to the whole of Goethe's Faust It gives the student of German and European literature valuable insights into the most important work of Germany's foremost poet German quotations are translated or paraphrased in English and a detailed knowledge of German literature is not assumed The book traces Goethe's work on the play over 60 years of his creative career and surveys its critical reception over the 200 years since its first appearance Part One is analysed as a mimetic tragedy Part Two as an historical and cultural profile of Goethe's own times The commentary guides the reader carefully through its subtleties and multi-layered references and provides a broad and coherent structure for the overall understanding of the work It suggests provocative interpretations of some figures and episodes in Part Two and places renewed emphasis on parts of the work that often receive relatively little attention An appendix surveys the metres and verse forms of the play

Faust Adaptations from Marlowe to Aboudoma and Markland Lorna Fitzsimmons, 2016-10-15 *Faust Adaptations* edited and introduced by Lorna Fitzsimmons takes a comparative cultural studies approach to the ubiquitous legend of Faust and his infernal dealings Including readings of English German Dutch and Egyptian adaptations ranging from the early modern period to the contemporary moment this collection emphasizes the interdisciplinary and transcultural tenets of comparative cultural studies Authors variously analyze the Faustian theme in contexts such as subjectivity genre politics and identity Chapters focus on the work of Christopher Marlowe Johann Wolfgang von Goethe Adelbert von Chamisso Lord Byron Heinrich Heine Thomas Mann D J Enright Konrad Boehmer Mahmoud Aboudoma Bridge Markland Andreas G ssling and Uschi Flacke Contributors include Frederick Burwick Christa Knellwolf King Ehrhard Bahr Konrad Boehmer and David G John *Faust Adaptations* demonstrates the enduring meaningfulness of the Faust concept across

borders genres languages nations cultures and eras This collection presents innovative approaches to understanding the mediated translated and adapted figure of Faust through both culturally specific inquiry and timeless questions **Goethe and Patriarchy** James Simpson, 2017-12-02 This book traces the history of a complex sexual fantasy which features recurrently in Goethe's writings from his days as a student in Leipzig to the final years as Europe's most celebrated living poet Simpson shows how the young man's fantasy of innocent sexuality became an increasingly troubled one during the poet's first decade in Weimar Goethe began to recognize in it a submerged element the incestuous roots of desire Triggered by this discovery Goethe's imagination becomes increasingly analytic and diagnostic and startlingly prefigures the work of Freud Yet paradoxically Goethe's insight leads him to a triumphant reassertion of an innocent sexuality purged of those elements he identifies as diseased Central to Goethe and Patriarchy is a new account of the genesis of the first part of Faust which is shown to contain a record of Goethe's changing attitudes to human sexuality In particular Simpson is the first critic to demonstrate that the Gretchen episode is a deliberate Kontrafaktur of the patriarchal idyll of the Song of Songs The book explores numerous other Goethe texts and casts entirely new light on his creative imagination **Goethe's Faust** Hans Schulte, John Noyes, Pia Kleber, 2011-05-05 Faust has been called the fundamental icon of Western culture and Goethe's inexhaustible poetic drama is the centrepiece of its tradition in literature music and art In recent years this play has experienced something of a renaissance with a surge of studies theatre productions press coverage and public discussions Reflecting this renewed interest leading Goethe scholars in this volume explore the play's striking modernity within its theatrical framework The chapters present new aspects such as the virtuality of Faust the music drama the modernization of evil Faust's blindness the gay Mephistopheles classic beauty and horror as phantasmagoria and Goethe's anticipation of modern science economics and ecology The book contains an illustrated section on Faust in modern performance with contributions by renowned directors critics and dramaturges and a major interview with Peter Stein director of the uncut millennium production of Expo 2000 **The Cambridge Companion to Goethe** Lesley Sharpe, 2002-05-02 The Cambridge Companion to Goethe provides a stimulating and accessible survey of this many-sided figure The volume places Goethe in the context of the Germany and Europe of his lifetime His literary work is covered in individual chapters on poetry drama with a separate chapter on Faust prose fiction and autobiography A wide-ranging survey of reception inside and outside Germany and an extensive guide to further reading round off this volume which will appeal to students and specialists alike Beyond Theory Benjamin Bennett, 1993 Bennett perceives that many of the questions posed by eighteenth-century discourse such as the difference between thought and language the nature of the social or the origin of the individual in the communal remain current for us today Beyond Theory is sure to provoke thought and stimulate debate among Germanists comparatists literary theorists and others interested in the cultural history of eighteenth-century Europe **Music in Goethe's Faust** Lorraine Byrne Bodley, 2017 Goethe's Faust a work which has attracted the attention of composers since the late eighteenth century

and played a vital role in the evolution of vocal operatic and instrumental repertoire in the nineteenth century has had a seminal impact in musical realms

Love and Death in Goethe Ellis Dye, 2004 Explores the central theme of Romantic poetry in the works of the most important German Romantic poet of all Goethe in association with his younger Romantic compatriots the Schlegels Novalis Fichte and Schelling struggled with the subject object dichotomy and tried to bridge the gap between self and other consciousness and nature His theory and practice prefigured the Romantics determination to display and interrogate the linguistic and cultural structures informing their own thinking and modes of representation what Goethe calls one's *Vorstellungsart* His work exploits subverts and supplants inherited conventions and signs demonstrating with virtuosic irony that literature is a system of texts pre texts and pre established but dynamic conceptual models *Love and Death in Goethe One and Double* explores Goethe's use in a wide range of his poetry and prose of the theme of *Liebestod* love and death and related embodiments of the paradox of unity in duality Ellis Dye also examines Goethe's use of other themes related to love and death the *femme fatale* the *vagina dentata* *Frau Welt* the *Lorelei* venereal disease the *Lustmord* and considers issues of selfhood and individuation as well as the possibility that the love death theme contains an implicit gender bias toward the existential fact of personal separateness Poems plays and novels are dealt with nevertheless as works of art not only as illustrations of an idea or as points of intersection in a system of rhetorical conventions and are examined for intellectual cohesiveness elegance and integrity of design as well as special meanings and effects *Love and Death in Goethe One and Double* explores the meaning of the central theme of Romantic poetry in the works of the most important Romantic poet of all Students of literary culture both the lay reader and the Goethe specialist will be enlightened by its approach and find pleasure and instruction in its revelations Robert Ellis Dye is Professor of German at Macalester College

Goethe's Theory of Poetry Benjamin Bennett, 1986

Remapping Reality John Aloysius McCarthy, 2006 This book is about intersections among science philosophy and literature It bridges the gap between the traditional cultures of science and the humanities by constituting an area of interaction that some have called a third culture By asking questions about three disciplines rather than about just two as is customary in research this inquiry breaks new ground and resists easy categorization It seeks to answer the following questions What impact has the remapping of reality in scientific terms since the Copernican Revolution through thermodynamics relativity theory and quantum mechanics had on the way writers and thinkers conceptualized the place of human culture within the total economy of existence What influence on the other hand have writers and philosophers had on the doing of science and on scientific paradigms of the world Thirdly where does humankind fit into the total picture with its uniquely moral nature In other words rather than privileging one discipline over another this study seeks to uncover a common ground for science ethics and literary creativity Throughout this inquiry certain nodal points emerge to bond the argument cogently together and create new meaning These anchor points are the notion of movement inherent in all forms of existence the changing concepts of evil in the altered spaces of reality and the

creative impulse critical to the literary work of art as well as to the expanding universe This ambitious undertaking is unified through its use of phenomena typical of chaos and complexity theory as so many leitmotifs While they first emerged to explain natural phenomena at the quantum and cosmic levels chaos and complexity are equally apt for explaining moral and aesthetic events Hence the title *Remapping Reality* extends to the reconfigurations of the three main spheres of human interaction the physical the ethical and the aesthetic or creative

Theater as Problem Benjamin Bennett, 2019-05-15
Using examples ranging from nineteenth century Viennese comedy to Friedrich Schlegel's atomic age theater Benjamin Bennett explores what is at stake in the theory of drama what sort of questioning makes up that theory and in what direction such questioning leads Bennett takes as his starting point the inescapably literary nature of theater in the European tradition theater in its most concrete dimensions as an institution as a tradition of ritual or stylized behavior as a particular type of physical space as an economic venture He maintains that precisely because of its radical categorical disjunction from the domain of the literary theater in the European tradition has been appropriated as the principal vehicle by which literature repeatedly problematizes itself Theater he says is the church of literature Although he is concerned with drama as a literary type therefore Bennett does not treat the theory of drama as part of the theory of literature For the special relation of drama to literature calls into question the whole idea of literary theory as a stable discourse divisible into parts Bennett considers plays by Shakespeare Schnitzler Ibsen Strindberg Brecht Ionesco Genet Pirandello Artaud and Schlegel He focuses on such theoretical issues as the idea of generic boundaries the relation between drama and the culture of reading the relevance between drama and the culture of reading the relevance of hermeneutic and semiotic views of literature to drama and the operation of fascism as a literary phenomenon In conclusion he frames a problem that his readings have brought to light at least two separate historical accounts of modern drama are necessary theories that imply each other yet remain irreconcilable

Reading Goethe Martin Swales, Erika Swales, 2002 Goethe is often revered rather than read known of rather than known It is the aim of this study to provide a corrective to this state of affairs The authors concentrate on literary work and offer analyses that represent an impassioned advocacy

The Life and Legacy of Franz Xaver Hauser Dale A. Jorgenson, 1996 In this remarkable biography Dale A Jorgenson discloses the great legacy left by Hauser for future generations Hauser's finest contribution was his achievement in cataloging all of Bach's known works and his collecting and disseminating for live performance all the original manuscripts and authentic copies of Bach's work he could obtain materials he then made available to the Bach Society founded in Leipzig in 1850
