Pony Ride to an Awakening Hedin E. Daubenspeck, 2020-02-27 This book tells of the pony ride to an awakening and other stories of the Spirit Encounters of an otherworldly kind happen to many people. My efforts are to describe some of the spiritual experiences that we may encounter from early childhood adolescence early adulthood and then maturity retirement unto renunciation and then consciousness beyond death. We are closest to the Spirit at the beginning of our life just entering incarnation from the Spirit and at the end of our life as we prepare to return to the Spirit. Sharing some of my psychic experiences and a few stories of my friends and family may serve as a guide for you in finding some similarities in these with your own experiences to reinforce the trust in these experiences as real and not imagined. We come from the Spirit and will return to the Spirit. There is nothing to fear from our teachers and ancestors in communicating with the Spirit to give us guidance wisdom and vision in this oftentimes difficult earthly life experience or to answer our questions. As we unfold our development going forward with open eyes and mind we find that the truth unfolds and becomes more refined like a lotus flower.

The New International Year Book, 1917 *New International Yearbook*, 1917 The Edinburgh Lectures on Mental Science T. Troward, 2022-09-16 In *The Edinburgh Lectures on Mental Science* T. Troward presents a compelling exploration of the intersection between mind and reality advocating for the transformative power of thought. Structured as a series of lectures delivered in 1904, the book employs a sophisticated yet accessible literary style merging philosophical inquiry with practical application. Troward delves into concepts such as the nature of consciousness, the mechanics of mental creation, and the ultimate potential of the human mind. His work is steeped in the ideals of the New Thought movement, reflecting the era's fascination with psychology, spirituality, and the manifestation of personal agency in the face of external circumstances. Troward, an influential figure in early 20th-century metaphysics and a former judge in British India, was deeply impacted by his exposure to Eastern philosophies and the burgeoning psychological theories of his time. His academic background and personal experiences contributed significantly to his unique perspective on mental science, allowing him to reconcile philosophical principles with practical applications in everyday life. Troward's insights resonate with a broader understanding of human potential and the laws governing mental phenomena, establishing him as a pivotal thinker in the fields of spirituality and personal development. I highly recommend *The Edinburgh Lectures on Mental Science* to anyone seeking to deepen their understanding of the mind's capabilities and to harness its power for personal growth. Troward's lectures not only provide theoretical frameworks but also actionable guidance, making this work an
