Education and Equality Danielle Allen, 2016-06-14 This book features Danielle Allen s 2014 Tanner Lectures delivered at Stanford University along with comments from four distinguished contributors Harvard philosopher Tommie Shelby education and globalization scholar Marcelo Suarez-Villa UCLA Michael Rebell executive director of the Campaign for Educational Equity at Teachers College Columbia and Pulitzer winning playwright Quiara Alegria Hudes along with Allen s response to the commentaries Why it is so hard to think about education and equality in relation to each other Allen asks For all of our talk about the two we don t

actually talk much about how education itself relates to equality regardless of whether the equality we have in mind is human political or social or connected to economic fairness The basic problem that motivates these lectures then is the following Allen thinks that education itself a practice of human development has important contributions to make to the defense of human equality the cultivation of political and social equality and the emergence of fair economic orders But she thinks we have lost sight of just how education relates to those egalitarian concerns If we are to do right by the students we purport to educate in whatever context and at whatever level we need to recover that vision Allen s goal therefore is to recover our understanding of just how education and equality are intrinsically connected to each other
