Putting Students

First Larry A. Braskamp, Lois Calian Trautvetter, Kelly Ward, 2016-01-19 In Putting Students First the authors argue that colleges can and should invest in holistic student development by recognizing and building on the students search for purpose in life intellectually spiritually and morally Based on a study conducted at ten religiously affiliated schools the book urges all colleges to rethink their approach to teaching and advising the increasingly diverse students of today their critical mission should be to prepare students to become ethically responsible and active contributors to society as well as critical thinkers and skilled professionals Putting Students First offers perspectives and recommendations in areas of holistic student development such as Understanding millennial college students The role of faculty in defining culture The design and implementation of curriculum The impact of cocurricular involvement Fostering relationships with on campus and off campus

communities By organizing the campus environment into 4Cs culture curriculum cocurriculum and community the authors create a conceptual framework for faculty student affairs staff and administrators to discuss plan and create college environments that effectively support the learning and development of students Each chapter includes an introduction evidence and analysis a summary and questions to help readers consider how to develop students holistically on their own campuses

Student Development in College Nancy J. Evans,Deanna S. Forney,Florence Guido-DiBrito,1998-05-08 This sweeping resource gathers together in one volume the diverse body of theory informing our understanding of students intellectual cognitive social moral and identity development during the college years It critically examines the recent body of theory that reflects the changes complexity and diversity of today s campuses with special emphasis on gender and cultural differences in student development

Putting Students First Larry A. Braskamp,Lois Calian Trautvetter,Kelly Anne Ward,2006 Braskamp emeritus education Loyola U Chicago along with colleagues at Northwestern and Washington State discuss their study of how ten diverse church related colleges and universities of some 900 prepare their students for life beyond the campus Through a 4C framework based on personal investment theory culture curriculum co curriculum connecting in class and out of class experiences and community they examine the career training intellectual moral and spiritual contexts in which this mission is pursued Questions are posed about how campuses can support holistic student development

Student Development Theory in Higher Education Terrell L. Strayhorn,2015-12-07 Moving beyond the cognitive and psychosocial development theories traditionally used to describe college student development Strayhorn introduces theories that address the most important topics in Higher Education today This bookpromotes the understanding and application of social psychological theories to the higher education context covering theories of ecological systems sense of belonging prejudice and discrimination status attainment social capital family involvement and socialization Examples throughout from diverse student populations are designed to facilitate students application to situations in their own contexts This important textbook bridges research theory and practice to help practicing and aspiring higher education and student affairs professionals effectively work with college students in their own settings Each chapter features Case vignettes to help students apply their knowledge Call out boxes reference foundational student development theories for further connections Coverage of historical and theoretical underpinnings and insights from related literature and research Multi disciplinary literature base to promote students understanding and application of social psychological theory to practice Reflective exercises for application of theory to practice Guiding questions that encourage students to think beyond the current literature and practice List of further readings for readers to explore topics in more depth

Square Pegs and Round Holes Fred A. Bonner,Rosa M. Banda,Stella Luciana Smith,Aretha Faye Marbley,2021 Developing alternative student development frameworks and models this groundbreaking book provides student affairs practitioners as well as faculty with illuminating perspectives and viable approaches for understanding the development of today s diverse student populations

and for building the foundation for their academic success and self authorship With the increasing number of adult working students minoritized multiracial LGBTQ and first generation students this book offers readers vital insights into and ways to interrogate existing practice and develop relevant responses to the needs of these populations Building on and critiquing the past frameworks and integrating the insights of contemporary scholarship on student development the contributors collectively put forward a robust theoretical and methodological foundation for this work using Critical Race Theory as their central frame CRT allows chapter authors to situate race related encounters at the center of their proposed alternative framework or model and deconstruct and challenge commonly held assumptions about diverse college student development In the tradition of CRT each author offers an alternative model or framework that can be applied to the diverse population upon which the chapter is framed prompting readers to address such questions as Who are our college students What set of experiences do our students bring to the higher education context What role have their environments contexts i e home p 12 community family peer groups mentors played in our student s lives What impact have intervening variables i e race oppression power had on their experiences What strategies do they use to overcome developmental obstacles How do they define success and how they know they have achieved it By laying bare the experiences of these diverse college students that inform this volume s alternative frameworks this book contests that notion that they constitute square pegs that must fit into the round holes of traditional frameworks

Teaching and Learning in Higher Education Beatrice L.

Bridglall, 2013-08-28 Concerns with how students are taught and whether and how they learn has become particularly salient in higher education This is evident in growing awareness of increases in time to degree and declines in attainment rates for many students including those who are underrepresented in our nation s community and public and private colleges and universities It is also demonstrated vis vis recent findings that more than a third of college students evinced no noticeable improvement in critical thinking writing and complex reasoning skills after four years as an undergraduate These findings suggest that while a focus on access to and participation in the nation s colleges and universities remain a prominent goal it is no longer sufficient given persistent disparities in post secondary student learning There are a few models however from which we can distill a set of strategies for promoting not only high achievement but also retention and completion rates This book examines three such models in higher education the Meyerhoff Scholars Program at the University of Maryland Baltimore County the Opportunity Programs at Skidmore College in Saratoga Springs New York and the Premedical Program at Xavier University in New Orleans with a proven record of student achievement and completion

Promoting Student Learning and Student Development at a Distance Alan M. Schwitzer, Julie R. Ancis, Nina Brown, 2000-12-26 With today s telecommunication capabilities and advanced information technologies more and more learners can complete entire academic degree programs without ever setting foot in their institution s main campus In fact over 100 American institutions already offer distance learning degree programs or certificate courses and more are on the way Promoting Student Learning

and Student Development at a Distance meets this growing trend head on with its definitive examination of contemporary electronic classroom environments Drawing from institutions all over the United States the book outlines factors and practices that both directly and indirectly influence the adjustment learning and development of distance students It also provides a detailed overview of student affairs responses to distant student needs stressing the importance of building communities at a distance and using a case study to illustrate the design of distance student services Finally and perhaps most importantly it offers concrete strategies for improvement such as the creation of four new roles for student development professionals as distance educators Faculty Development Provider Academic Liaison Program Designer and Outcome Evaluator As a result Promoting Student Learning and Student Development at a Distance is more than just a valuable resource to the learner and educator alike It is an integral ingredient to the future success of tomorrow s student Co published with American College Personnel Association Florida's Student Development Program Florida. Dept. of Education,1996

ASHE Reader on College Student Development Theory Maureen E. Wilson, Association for the Study of Higher Education,2005 This Reader is intended to serve as a resource of primary source literature on college student development theory and as a text for courses on student development theory Graduate students and other users are introduced to key student development theories by reading original works of the theorists developing an awareness of the context in which development occurs and examining applications of theory to practice The Reader will also be useful in ongoing professional development efforts for student affairs practitioners who lack formal study of student development theory or who wish to become familiar with more recent work on the topic Those who work with college students and want to create programs and services to promote their learning growth and development will find a wealth of resources here to aid in those efforts

Generally Speaking Madeline J. Smith, Kristen L. Tarantino,2019 This extensive overview first surveys the history of general education in the United States It discusses how the recommendations of stakeholder groups have shaped general education in recent decades Subsequent chapters detail best practices and findings in the assessment of student learning as it relates to the general education curriculum across institutional types The discussion then turns to the larger impact of general education on culture and society as students navigate life beyond the undergraduate experience The final chapters will provide insight into how various institutions are innovating through the general education curriculum as well as a discussion on the keys to maintaining the relevancy of this curriculum throughout the 21st century and beyond Perfect for courses such as Assessment of Student Learning Higher Education Administration Academic Issues in Higher Education Introduction to Foundations of Higher Education

Critical Perspectives on Student Development Theory Elisa S. Abes,2016-06-14 The use of critical and post structural theories such as critical race theory intersectionality and queer theory to explore student development is relatively new Most current research looks beyond the individual to how systems of oppression such as racism ableism and heterosexism mediate student development and the nature of student development

theory This volume offers some of the most contemporary thinking about student development by reviewing recent critical post structural scholarship offering new possibilities for using theoretical lenses and translating these theories into student affairs practice This is the 154th volume of this Jossey Bass higher education quarterly series An indispensable resource for vice presidents of student affairs deans of students student counselors and other student services professionals New Directions for Student Services offers guidelines and programs for aiding students in their total development emotional social physical and intellectual Higher Education as Student Development Robert Lee Richardson,1976 **Putting Students First** Larry A. Braskamp,Lois Calian Trautvetter,Kelly Ward,2005-12-15 In Putting Students First the authors argue that colleges can and should invest in holistic student development by recognizing and building on the students search for purpose in life intellectually spiritually and morally Based on a study conducted at ten religiously affiliated schools the book urges all colleges to rethink their approach to teaching and advising the increasingly diverse students of today their critical mission should be to prepare students to become ethically responsible and active contributors to society as well as critical thinkers and skilled professionals Putting Students First offers perspectives and recommendations in areas of holistic student development such as Understanding millennial college students The role of faculty in defining culture The design and implementation of curriculum The impact of cocurricular involvement Fostering relationships with on campus and off campus communities By organizing the campus environment into 4Cs culture curriculum cocurriculum and community the authors create a conceptual framework for faculty student affairs staff and administrators to discuss plan and create college environments that effectively support the learning and development of students Each chapter includes an introduction evidence and analysis a summary and questions to help readers consider how to develop students holistically on their own campuses *College Student Development Theory* Association for the Study of Higher Education,2011 **Reform in Student Affairs** Paul Anson Bloland,Louis C. Stamatakis,Russell R. Rogers,1994 This monograph provides an intensive examination of the student development movement in college student affairs Chapter I examines student development as a reform movement within the field of student affairs in higher education Chapter II challenges the assertion that student development as conceptualized in its seminal documents represents a new philosophical foundation and rationale for the field of student affairs Chapter III raises a number of significant questions regarding current student development theories and the way they have been implemented on the college campus employing six criteria of effective theory as an assessment template Chapter IV discusses research on student development particularly inquiries into the efficacy of student development interventions and makes a series of observations regarding the research problems noted Chapter V critiques the non research literature of student development looking particularly at journal articles textbooks and practitioner oriented books Chapter VI discusses the relationship between current student development theory and practice the contributions of theory and the problems that the use of student development theory has created for the field of student affairs Chapter VII

concludes the critique by pulling the previous six chapters together and offering a vision of an alternative paradigm for the student affairs field one that places it firmly within the context of the mission of higher education while avoiding many of the problems noted in the evaluation of the current fledgling paradigm of student development NB Counseling, Evaluation, and Student Development in Nursing Education Lawrence Litwack, Robert Sakata, May L. Wykle, 1972 Assessment in Higher Education Samuel J. Messick, 2013-12-16 Assessment in Higher Education brings together in one place most of the major issues confronting higher education in the 1990s These include enhancing student access development and success in higher education transforming admissions testing to meet expanding educational needs resolving the politics of accountability by assessing quality outcomes of higher education assuring fair assessment responsive to human diversity and facing the technological future of higher education An integrative thread that weaves through all of these issues is the concept of equity especially as it bears on social justice in education and on fairness in assessment Another integrative thread is the role of computer and multimedia technology not only in improving the efficiency and power of all the functions of higher education assessment but also in revolutionizing the delivery of higher education itself *Promoting Student Development Through Intentionally Structured Groups* Roger B. Winston, 1988-09-30 This book is a step by step guide for using structured groups to promote the educational and personal development of college students It includes examples of effective group interventions that can be used to help students adjust to college life achieve academic goals explore careers and more
