Education Finance Current Canadian Issues:

Education Finance Y. L. Jack Lam, 1998 *Education, Dominance and Identity* Diane B. Napier, Suzanne Majhanovich, 2013-02-11 This volume is a collection of research cases illustrating the interrelationships among education dominance and identity in historical and contemporary contexts The cases reflect particular ways in which local group and indigenous identities have been affected by a dominant discourse how education can support or undermine identity and how languages including dominant and sub dominant languages and the language of instruction in schools are at the centre of challenges to hegemony and domination in many situations Examining the issues in their research the contributors reveal how members of minority disadvantaged or dominated groups and the teachers and parents of children in their schools struggle for recognition for education in their own language for acceptance within larger society or for recognition of the validity of their responses to reform initiatives and policies that address a wider agenda but that fail to take into account key factors such as perceptions and subaltern status Collectively the chapters document research employing a variety of methodological approaches and theoretical perspectives illustrating an array of universal and global issues in the field of comparative and international education However each of the cases its own unique character as research findings and as personal reflections based on the authors experiential knowledge in particular social cultural and political contexts The contexts and regional settings include Chile Canada the United States Hungary and elsewhere in East Central Europe France Germany Spain Malaysia Tanzania South Africa Cyprus Tunisia Egypt Iran and elsewhere in the Middle East **Financing Canadian Education** Stephen B. Lawton, Canadian Education Association, 1996 *Who's Who of Canadian Women, 1999-2000* Gillian Holmes, 1999-06-01 Who's Who of Canadian Women is a guide to the most powerful and innovative women in Canada Celebrating the talents and achievement of over 3 700 women Who's Who of Canadian Women includes women from all over Canada in all fields including agriculture academia law business politics journalism religion sports and entertainment Each biography includes such information as personal data education career history current employment affiliations interests and honours A special comment section reveals personal thoughts goals and achievements of the profiled individual Entries are indexed by employment of affiliation for easy reference Published every two years Who's Who of Canadian Women selects its biographees on merit alone This collection is an essential resource for all those interested in the achievements of Canadian women *Captive Audience* Catherine Gidney, 2019-04-02 White Spot a popular BC restaurant chain solicits hamburger concepts from third and fourth grade students and one of the student's ideas becomes a feature on the kids menu Home Depot donates playground equipment to an elementary school and the ribbon cutting ceremony culminates in a community swathed in corporate swag temporary tattoos and a new Home Depot song written by a teacher and sung by the children Kindergarten students return home with a school district prescribed dental hygiene flyer featuring a maze leading to a tube of Crest toothpaste Schools receive five cents for each flyer handed to a student While

commercialism has existed in our schools for over a century the corporate invasion of our schools reached unprecedented heights in the 1990s and 2000s after two decades of federal funding cuts and an increasing tendency to apply business models to the education system Constant cutbacks have left school trustees administrators teachers and parents with difficult decisions about how to finance programs and support students Meanwhile studies on the impact of advertising and consumer culture on children make clear that the effects are harmful both to the individual child and the broader culture Captive Audience explores this compelling history of branding the classroom in Canada **Learning to School** Jennifer Wallner, 2014-05-27 Among countries in the industrialized world Canada is the only one without a national department of education national standards for education and national regulations for elementary or secondary schooling For many observers the system seems impractical and almost incoherent But despite a total lack of federal oversight the educational policies of all ten provinces are very similar today Without intervention from Ottawa the provinces have fashioned what amounts to a de facto pan Canadian system Learning to School explains how and why the provinces have achieved this unexpected result Beginning with the earliest provincial education policies and taking readers right up to contemporary policy debates the book chronicles how through learning and cooperation the provinces gradually established a country wide system of public schooling A rich and ambitious work of scholarship it will appeal to readers seeking fresh insights on Canadian federalism education policy and policy diffusion **Canadian Books in Print.
