Educational Leadership For Organisational Learning And Improved Student Outcomes:

Educational Leadership for Organisational Learning and Improved Student Outcomes William Mulford, Halia Silins, Kenneth A. Leithwood, 2006-04-11 The change in paradigm in our field is away from the great man or woman theory of leadership and the teacher in his or her own classroom to the development of learning communities which value differences and support critical reflection and encourage members to question challenge and debate teaching and learning issues How to achieve such learning communities is far from clear but we believe the areas of problem based learning PBL and organizational learning OL offer valuable clues The indications are that the successful educational restructuring agenda depends on teams of leaders whole staffs and school personnel working together i e OL linking evidence and practice in genuine collaboration i e PBL The book is unique in that it is both about and uses these two concepts Educational Leadership for Organisational Learning and Improved Student Outcomes William Mulford, Halia Silins, Kenneth A. Leithwood, 2014-01-15 **International Handbook on the Preparation and Development of School Leaders** Jacky Lumby, Gary Crow, Petros Pashiardis, 2009-05-07 Sponsored by the University Council of Educational Administration UCEA the British Educational Leadership Management and Administration Society BELMAS and the Commonwealth Council for Educational Administration and Management CCEAM this is the first book to provide a comprehensive and comparative review of what is known about the preparation and development of primary and secondary school leaders across the globe It describes current issues and debates and offers an assessment of where the field of leadership development is headed Key features include the following Global Focus this book provides the first comprehensive look at leadership preparation and development across the globe The chapter authors are distinguished scholars drawn from the US UK Europe Asia Canada Australia New Zealand and Africa Topical Geographical Focus provides researchers and policymakers with critical descriptions and assessments of both topical and geographical areas International Expertise chapter contributors are drawn from a variety of theoretical perspectives and represent all major continents **School Leadership Effects Revisited** Jaap Scheerens, 2012-01-05 This highly detailed study maps four decades of evolution of the concept of what constitutes effective school leadership It analyses the theoretical background to these developments and advocates the utility of thinking of a lean form of school leadership that is comparable to the concept of meta control A wide ranging survey of the empirical research literature on leadership effects includes the presentation of results from earlier meta analyses as well as a new meta analysis on some 25 studies carried out between 2005 and 2010 This survey demonstrates that older reviews and meta analyses were predominantly based on so called direct effect studies while more recent studies have tried to quantify the indirect effects of leadership mediated by other school variables While acknowledging the relatively small total effect of leadership on student outcomes the study does identify promising intermediary factors which stimulated by specific leadership behaviours impact on student performance The book ends by drawing out wider implications for educational practice and policy presented

under headings such as schools need leadership the toolkit of the school leader as a meta controller the special case of turning around failing schools and efficiency of school leadership In passing the authors make several suggestions about potentially fruitful next steps in researching the effects of school leadership

Successful School Leadership Petros Pashiardis, Olof Johansson, 2016-02-25 Successful School Leadership identifies the characteristics behaviours and practices of successful and effective school leaders through the adoption of a systemic view of the quality of school organizations Edited by Petros Pashiardis and Olof Johansson chapters explore the similarities and differences between successful and effective school leaders and across various socioeconomic contexts Capitalizing on the experiences of the international contributor team this book will inform the preparation and further development provided to school leaders in an era where ministries of education universities and multinational organisations such as the OECD are increasingly interested in the leadership of our schools Systematic analyses of multi perspective data provided from around the world and offers the readers a comprehensive picture of the key behaviours and practices central to successful and effective school leadership An original contribution to the theoretical perspectives on the subject is derived through insights from empirical research case studies and bibliographical literature from the field

Professional Standards for Educational Leaders Joseph F. Murphy, 2016-12-21 Unpack the standards and build a plan for leading learning Professional Standards for Educational Leaders introduces the foundations of the recently revised professional educational leadership standards and provides an in depth explanation and application of each one Written by the primary architect of PSEL educational leadership expert Joseph F Murphy this authoritative guide to understanding and applying the standards explores the new emphasis on Leadership of learning school culture and diversity Values ethics and professional norms of educational leadership Teacher quality instruction and caring support Written for higher education faculty professional development providers and school and district leaders the author truly brings the standards to life This comprehensive manual will power the educational leadership profession through the challenges of the next decade and beyond Murphy offers an exploration of the kind of leadership that matters most for each and every student Let us hope the thinking reflected in this book and the new PSEL standards redirects our attention to what it really means to lead in education Michelle D Young UCEA Executive Director Professor of Leadership University of Virginia Joseph Murphy debunks myths about standards for educational leaders and skillfully unpacks the moral foundational and experiential basis for the revised professional standards to guide effective leadership of our nation s schools This book is a must read for those interested in leadership for learning and the academic success and wellbeing of students because these standards will shape our field for the next quarter century as the ISLLC standards have done since 1996 Martha McCarthy Presidential Professor Loyola Marymount University

Ylimaki,Stephen L. Jacobson,2011-02-16 As educational policy trends converge in many countries such as demands for greater accountability decentralization and more culturally sensitive practices for an increasingly diverse student body there is growing interest in cross national comparisons and generalizations about leadership qualities and practices that result in successful schools US and Cross National Policies Practices and Preparation

Implications for Successful Instructional Leadership Organizational Learning and Culturally Responsive Practices fills that need by bringing together triads of scholars from the International Study of Successful School Principals ISSPP to make direct comparisons among policies and practices in the U S with those in other national contexts and then to draw implications for improving leadership preparation This book provides theories and empirical case study examples of instructional leadership organizational learning and culturally responsive practices as they are shaped by political economic and cultural factors in seven different national contexts The seven countries featured in this book are the U S Australia Denmark England Sweden Norway and Cyprus The book begins with an overview of the ISSPP including its underlying theoretical framework its research methodologies employed its limitations and how analyses of the project s data and findings evolved from the first phase of the study to its current focus

Second International Handbook of Educational Leadership and Administration Kenneth A. Leithwood,P. Hallinger,2012-12-06 The first International Handbook of Educational Leadership and Administration Leithwood et al was published in 1996 and quickly became something of a best seller for reference works within education Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980 s combined with a widespread belief in leadership as the single most powerful contribution to such improvement The roots of this belief can be found in evidence produced by the early effective schools research although there is a romance with leadership as an explanation for success in many non school enterprises as well During the two year period during which this current handbook was being written activity in the realms of school leadership school improvement and leadership development gained further momentum The English government created its new National College of School Leadership and several Asian nations announced new initiatives in leadership selection preparation and development

The Routledge International Handbook of Teacher and School Development Christopher Day, 2012 The contributions are authoritative and of high quality This is an important resource The Teacher Trainer A seminal state of the art critical review of teacher and school development which touches upon and discusses issues at both policy and practice levels

Concept and Design Developments in School Improvement Research Arnoud Oude Groote Beverborg, Tobias Feldhoff, Katharina Maag Merki, Falk Radisch, 2021-06-15 This open access book discusses challenges in school improvement research and different methodological approaches that have the potential to foster school improvement research Research on school improvement

and accountability analysis places high demands on a study's design and method. The potential of combining the depth of case studies with the breadth of quantitative measures and analyses in a mixed methods design seems very promising. Consequently, the focus of the book lies on innovative methodological approaches. The book chapters address design, measurement, and analysis developments as well as theoretical and conceptual developments. The relevance of the research presented in the chapters for educational accountability is discussed in the book's discussion chapter. More specifically, authors present one specific innovative methodological approach and clarify that approach with a concrete example in the context of school improvement based on empirical data when possible. In this way, this book helps researchers designing complex useful studies.
