Edward And Lane European Community Law An Introduction:

Soft Law in European Community Law Linda Senden, 2004-09-30 This book offers the first systematic investigation of the phenomenon of soft law within the framework of the EC the first pillar of the EU and its use by the European Commission and Council of Ministers It focusses upon how soft law fits into the Community legal system and how it is used and in particular how it relates to Community legislation Differentiation of the Community instruments including the instruments of soft law is often thought to enhance the effectiveness legitimacy and transparency of the Community This book asks whether soft law indeed provides a satisfactory alternative to legislation from this perspective and if so in what cases and under what conditions Furthermore the author asks to what extent the use of soft law implies good governance and throws fresh light on this very heterogenous phenomenon by looking at frequently used instruments in many different areas of Community law such as competition law state aid environment social policy etc in the process identifying their different characteristics aims functions and legal effects What emerges is that the conditions under which soft law is used may be problematic in relation to increasing the legitimacy effectiveness and transparency of Community action This is a work which will interest legal practitioners confronted with the use of soft law and the question of its possible legal effect in an increasing number of sectors and academics interested in the vexed question of how the increased use of soft law can be justified in a Community legal order built upon the rule of law It is also critical of developments taking place within the framework of the European Convention and the proposed European Constitution and goes beyond the immediate problems of soft law to touch upon issues such as competence legal protection division of powers between the EC and the Member States institutional balance lawmaking by the Community Courts the scope of Community legal principles and the influence of soft law on the progressive development of both Community and national law

EC Law and Minority Language Policy Niamh Nic Shuibhne, 2021-10-25 The European Community has pledged respect for the cultural and linguistic diversity of its Member States and has recognized

minority languages as an inherent constituent in this regard This development reflects a broader trend within the Community towards grappling with less obvious aspects of supranational governance Minority language groups turn optimistically to Europe in response But despite rhetorical promises just what can the EC actually be expected to do in the realm of minority language protection a politically sensitive and traditionally domestic concern Arguments put forward to date focus primarily on philosophical moral economic and political discourse While these considerations are a vital aspect of the debate on minority languages and on linguistic diversity more generally the question of legal basis remains largely unanswered For the first time this book traces comprehensively the existence of an appropriate legal basis for action undertaken by the EC in this domain striving in particular to locate a pragmatic yet effective balance between legitimate possibility and acceptable limitations

International Institutional Law Henry G. Schermers, Niels M. The United States, the European Union, and the Globalization of World Trade Thomas C. Fischer, 2000-04-30 Professor Fischer presents a comprehensive overview of global trade at the start of a new century from a national regional and international viewpoint He looks closely at the four dominant and competing economic systems the United States the European Union Japan and China and argues that the traditional we win you lose national trade paradigm has been replaced by one that is more collaborative one that is leaning toward de facto world governance He compares foreigners attitudes toward trade and markets with our own using four economic models that typify world trade today He examines the interface between national regional and international trading systems and between business and government then at the prospect of global trade management in different trade sectors under the GATT WTO and other organizations The result is a provocative discussion of global trade today Professor Fischer makes it clear that the United States needs allies Though its influence in the world trade arena will continue America's hegemony has ended The European Union is America's most obvious ally but it has many problems and ambitions of its own The North American Free Trade Agreement has solidified the North American market but it may isolate and lose South America while Japan China Russia and others are left to develop alliances of their own All these factors raise important global questions among them Can American capitalism prevail Should the United States proceed unilaterally as it has so often Or are regional and multinational arrangements preferable If there is further globalization as seems inevitable and if American influence is on the wane what group or organization will lead To explore these questions and provide the beginnings of answers Professor Fischer uses his four competing economic systems and handicaps the process country by country sector by sector with particular attention to transatlantic relations

Akehurst's Modern Introduction to International Law Peter Malanczuk,2002-04-12 First published in 2002
Routledge is an imprint of Taylor Francis an informa company The International Legal Responsibility of the European Union in the Context of the World Trade Organization in Areas of Non-Conferred Competences Plarent Ruka,2017-05-11 This work focuses on the EU s participation in the Dispute Settlement Proceedings DSP of the WTO for matters of non conferred competences The underlying thesis is that the joint membership of the EU and its Member States is fallacious in that it could cause the EU to become responsible for violations of the WTO regulations on the part of the Member States Such fallacies are rooted in the blurred nature of the distribution of powers in the EU polity In order to tackle the issue of international responsibility the analysis is based on the facts of a real world case Based on the tenets of public international law the law of mixed agreements and the EU constitutional principles the book puts forward a model for the EU s participation in the DSP and for the reallocation of burdens to the respective responsible entity This proposition deconstructs the joint responsibility regime and endorses a solution that could address the issue of responsibility in mixed agreements without a declaration of powers **Principles of Proper Conduct for Supranational, State and Private Actors in the European Union** Jan Wouters,2001 This book contains the proceedings of an international colloquium in honour of Professor Walter van Gerven which was held in Leuven on 15 16 September 2000 and organized by the Universities of Leuven and Maastricht in the framework of the lus Commune Research School Walter van Gerven has been a professor of Law in Leuven for four decades and in Maastricht between 1994 and 2000 he has been Advocate General at the Court of Justice of the European Communities 1988 1994 and was Member of the Committee of Independent Experts which screened the European Commission in 1999 The book is built around three themes good governance in the European Union judicial review of administrative action and liability of supranational State and private actors A great number of very distinguished scholars have contributed to this book Lord Slynn of Hadley Deirdre Curtin Christiaan W A Timmermans Gil Carlos Rodriguez Iglesias Sacha Prechal J rgen Schwarze Takis Tridimas Bruno de Witte Jeremy Lever Pierre Larouche Francis G Jacobs Luc Gyselen Paul J G Kapteyn Arthur Hartkamp and Pieter VerLoren van Themaat *Edward and Lane on European Union Law* David A. Europe is essential in contemporary politics *EC Law in the UK* Christine Boch,2000 EC Law in the UK reviews the possibilities for legal redress in the UK courts when rules of Community law are violated The analysis focuses as far as possible on case law decided by the UK courts and adopts the perspective of the individual litigant The book aims to familiarise the reader with the Community legal system and to illustrate its all pervasive influence on UK national law and aims to change the common perception that EC law is foreign law or an optional subject The author shows that Community law is an integral part of UK law that can be applied in virtually any area of legal practice This book will be essential reading on LLB CPE and postgraduate courses in EC law and a useful adjunct to constitutional and English legal system courses where the EC dimension is becoming increasingly important Practitioners will also find the coverage of the book relevant to their needs *Handbook of European Union* Nicholas Moussis,1997 Recoge 1 Introduction 2 Custom union 3 Common market 4 Economic and monetary union 5 Regional development 6 Social progress 7 Taxation 8 Competition 9 Environment 10 Industry 11 Research 12 Energy 13 Transport 14 Agriculture 15 The European Union and its citizens 16 The European Union in the world **Reader's Guide to the Social Sciences** Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense **Legal Frameworks for the Built Environment** Jean Badman,Laurie Grimmet,2013-12-16 Law is a complex subject and has major impacts on the built environment and all those working in it Law is seen as one of the strongest interdisciplinary links between the various professions it is essential to have a clear understanding of how both statute and common law as well as the legislative frameworks statutory controls policy and procedures affect all the roles areas throughout the built environment This book will provide students with a broad understanding of the law and its applications from disputes to land use **Европейское право: вопросы теории и методологии познания. Монография** Дерябина Е.М.,2019-02-25 *Complex Equality and the Court of Justice of the European Union* Richard Lang,2018-07-17 The equality jurisprudence of the Court of Justice of the European Union has long drawn criticism for its almost total reliance on Aristotle s doctrine that likes should be treated like and unlikes unlike As has often been shown this is a blunt tool entrenching assumptions and promoting difference blindness the symptoms of simplicity In this book Richard Lang proposes that the EU s judges complement the Aristotelian test with a new one based on Michael Walzer s theory of Complex Equality and illustrates how analysing allegedly discriminatory acts not in terms of comparisons of the actors involved but rather in terms of distributions and meanings of goods would enable them to reach decisions with new dexterity and to resolve conflicts without sacrificing diversity **The Journal of the Law Society of Scotland** ,1995 **Widening the European Union** Bernard Steunenberg,2003-08-27 The proposed enlargement of the European Union to include

countries from Central and Eastern Europe has become an important political issue Widening the European Union focuses on those institutional reforms of the Union that may be necessary to make the enlargement possible The institutional structure originally designed for the Union of just six states might not be suitable for a EU of twenty seven or more member states An overview of current rational choice theories of institutional change is provided before the volume focuses on several aspects of institutional reforms in the Union Widening the European Union contains contributions from a distinguished team of European academics This book is a valuable resource to students of the European Union with an interest in its politics and policy enlargement and institutional reform
