From Rhetor to Theologian consists of fifteen chapters from international scholars written to celebrate the 1600th anniversary of the conversion to Catholic Christianity of Augustine of Hippo. Augustine set his stamp on the Latin Church yet only in the twentieth century with its profound even paradigmatic change did the descendants of that church Anglican Reformed and Roman Catholic recognize the degree to which their inbred attitudes and theological positions were Augustinian. It is however another measure of the importance of Augustine that many aspects of his life and meanings of his writings are still disputed. This continuing investigation and debate is evidenced in this volume.

**Islam in Everyday Arabic Speech** M. Piamenta, 2023-11-27

**Divine Presence as Activity and the Incarnation** Alexander S.

Jensen, 2024-07-22 This book offers an original perspective on the doctrine of incarnation through a discussion of divine presence and action arguing for the plausibility of Chalcedonian Christology. It draws on a range of theological and philosophical sources from St Athanasius of Alexandria's approach regarding the presence of the *logos asarkos* in the world to the relational understanding of personhood put forward by John Zizioulas, Christos Yannaras and others. The suggestion is that divine presence needs to be understood in consistently Trinitarian terms and the book sets out the possibility of a theology of presence which understands God as present and immanent in the world while at the same time remaining transcendent and ineffable. Alexander Jensen maintains that the classical understanding of divine presence which sees God as being present according to God's activity is much more useful in Christology than today's predominant modern notion of presence as occupying space and combines this with an ontological understanding of personhood. The book gives an account of the person and work of Christ that takes seriously the insights of historical research and critical biblical interpretation. It takes seriously the full humanity of Jesus of Nazareth and asserts that in this man we encounter God. It will be of particular interest to systematic theologians as well as those concerned with the history of Christian theology and philosophical theology.

**The Manly Eunuch** Mathew Kuefler, 2001-07-25 The question of masculinity formed a key part of the intellectual life of late antiquity and was crucial to the development of Christian society. This idea is at the heart of Mathew Kuefler's new book which revisits the Roman Empire during the third and fifth centuries of the common era. Kuefler argues that the collapse of the Roman army, an increasingly autocratic government and growing restrictions on the traditional rights of men within marriage and sexuality all led to an endemic crisis in masculinity: men of Roman aristocracy who had always felt themselves to be soldiers, statesmen and the heads of households became by their own definition unmanly. The cultural and demographic success of Christianity during this epoch lay in the ability of its leaders to recognize and respond to this crisis. Drawing on the tradition of gender ambiguity in early Christian teachings which included Jesus's exhortation that his followers make themselves eunuchs for the sake of the kingdom of heaven, Christian writers and thinkers crafted a new masculine ideal, one that took advantage of the changing social realities in Rome, inverted the Roman model of manliness and helped solidify Christian ideology by reinstating the masculinity of its adherents.
