 Alexandra K. Grieser, Jay Johnston, 2017-12-18 This volume is the first English language presentation of the innovative
 approaches developed in the aesthetics of religion The chapters present diverse material and detailed analysis on descriptive
 methodological and theoretical concepts that together explore the potential of an aesthetic approach for investigating
 religion as a sensory and mediated practice In dialogue with yet different from other major movements in the field material
 culture anthropology of the senses for instance it is the specific intent of this approach to create a framework for
 understanding the interplay between sensory cognitive and socio cultural aspects of world construction The volume
 demonstrates that aesthetics as a theory of sensory knowledge offers an elaborate repertoire of concepts that can help to
 understand religious traditions These approaches take into account contemporary developments in scientific theories of
 perception neuro aesthetics and cultural studies highlighting the socio cultural and political context informing how humans
 perceive themselves and the world around them Developing since the 1990s the aesthetic approach has responded to debates

in the study of religion in particular striving to overcome biased categories that confined religion either to texts and abstract beliefs or to an indisputable *sui generis* mode of experience This volume documents what has been achieved to date its significance for the study of religion and for interdisciplinary scholarship

The Enlightened Eye, 2015-06-29 Poets painters philosophers and scientists alike debated new ways of thinking about visual culture in the long eighteenth century The essays in *The Enlightened Eye* Goethe and Visual Culture demonstrate the extent to which Goethe advanced this discourse in virtually all disciplines The concept of visibility becomes a constitutive moment in a productive relationship between the verbal and visual arts with far reaching implications for the formation of bourgeois identity pedagogy and culture From a variety of theoretical perspectives the contributors to this volume examine the interconnections between aesthetic and scientific fields of inquiry involved in Goethe's visual identity By locating Goethe's position in the examination of visual culture both established and emerging scholars analyze the degree to which visual aesthetics determined the cultural production of both the German speaking world and the broader European context The contributions analyze the production presentation and consumption of visual culture defined broadly as painting sculpture theater and scientific practice *The Enlightened Eye* promises to invest new energy and insight into the discussion among literary scholars art historians and cultural theorists about many aspects of visual culture in the Age of Goethe

Clean of Heart Rosemarie Scott, 2006 *Clean of Heart* is written for practicing Catholics who accept all the teachings of the Church yet are still ensnared by pornography and self abuse There is hope Through the Sacraments God provides all the grace one needs to become pure No matter how long one has indulged in pornography or how deep one has sunk into the mire of vice Our Lord can still break the addiction What makes *Clean of Heart* different First it is written from a Catholic point of view While Evangelical Christians have many books and programs for pornography addicts there are few titles on the market for Catholics *Clean of Heart* consists of forty three daily meditations which draw from the power of the Sacraments and the wisdom of the Saints elements lacking in many Evangelical books Second *Clean of Heart* is a surprisingly chaste book It contains no obscenities or explicit testimonies which may be an occasion of sin for some The focus is on attaining a clean heart rather than recalling past sins

God Is a Heartless Recluse John Likides, 2017-10-17 The story of an atheist's search for universal ethics *God Is a Heartless Recluse* demonstrates that theists' claim of God as their Heavenly Father is delusional A god who allows terminal childhood diseases mass murderers cannibals and genocides is at best a heartless recluse In reality God is a figment of megalomaniacal minds that don't have the courage to accept the facts Humans evolved from earlier primates God is a human invention animism panpsychism pantheism polytheism monotheism The universe is indifferent to humanity Paradise is a fictional luxury resort Humanity is an adolescent civilization with the potential to mature spread across the Milky Way then to other galaxies and other universes to live forever in this eternal multiverse
