expect treatment modalities to change but we could also anticipate the possibility of culture wide rethinking of the basic presuppositions of modern cosmology the cosmology that grounds Western institutions ideologies and beliefs about the nature of personhood Michael E Zimmerman author of *Contesting Earth's Future Radical Ecology and Postmodernity* Stanislav Grof MD is a psychiatrist with more than fifty years of experience in research of non ordinary states of consciousness He has been Principal Investigator in a psychedelic research program at the Psychiatric Research Institute in Prague Czechoslovakia Chief of Psychiatric Research at the Maryland Psychiatric Research Center Assistant Professor of Psychiatry at the Johns Hopkins University and Scholar in Residence at the Esalen Institute He is currently Professor of Psychology at the California Institute of Integral Studies conducts professional training programs in holotropic breathwork and gives lectures and seminars worldwide He is one of the founders and chief theoreticians of transpersonal psychology and the founding president of the International Transpersonal Association ITA In 2007 he was granted the prestigious Vision 97 award from the Vaclav and Dagmar Havel Foundation in Prague He is the author and editor of many books including *The Adventure of Self Discovery Dimensions of Consciousness and New Perspectives in Psychotherapy and Inner Exploration Ancient Wisdom and Modern Science Beyond the Brain Birth Death and Transcendence in Psychotherapy The Cosmic Game Explorations of the Frontiers of Human Consciousness and Human Survival and Consciousness Evolution* all published by SUNY Press **Radical Reality** W.
